A 1923 western romantic novel by Zane Grey. The story is about Adam Larey, who gazed with hard and wondering eyes down the silent current of the red river upon which he meant to drift away into the desert. The Rio Colorado was no river to trust. It chafed at its banks as if

to engulf them; muddy and thick it swirled and glided along in flood, sweeping in curves back and forth from Arizona to California shore. Majestic and gleaming under the hot sky, it swung southward between wide green borders of willow and cottonwood toward a stark and naked upflung wilderness of mountain peaks, the red ramparts of the unknown and trackless desert.

The use of different foods, herbs, and spices to treat or prevent disease has been recorded for thousands of years. Egyptian papyrus, hieroglyphics and ancient texts from the Middle East have described the cultivation and preparations of herbs and botanicals to "cure the sick." There are even older records from China and India. Some ancient scripts describe the use of medicinal plants which have never been seen within European cultures. Indeed, all ancient civilizations have pictorial records of different foods, herbs, and spices being used for medical purposes. However, there are fundamental issues pertaining to the scientific evidence for the use of these agents or their extracts in modern medicine. These issues are

explored in Ancient and Traditional Foods, Plants, Herbs and Spices Used in Diabetes. Features · Investigates alternative healthcare paradigms that use traditional dietary foods, plant-derived materials, and extracts to treat diabetes · Describes scientific studies using modern day biomedical techniques · Provides information on diets, specific agents, extracts and resources. · Many chapters focus on plant-derived material, providing a historical background, uses, toxicity, and cautionary notes and summary points. spices and botanicals beyond their traditional usage. Diabetes is one of the most common diseases worldwide, with over 400 million people with the illness.
