A groundbreaking look at why our interactions with others hold the key to success, from the bestselling author of *Think Again* and *Originals* For generations, we have focused on the individual drivers of success: passion, hard work, talent, and luck. But in today's dramatically reconfigured world, success is increasingly dependent on how we interact with others. In *Give and Take*, Adam Grant, an award-winning researcher and Wharton's highest-rated professor, examines the surprising forces that shape why some people rise to the top of the success ladder while others sink to the bottom. Praised by social

scientists, business theorists, and corporate leaders, *Give and Take* opens up an approach to work, interactions, and productivity that is nothing short of revolutionary.

Giving It All Away...and Getting It All Back Again One World

#1 NEW YORK TIMES BESTSELLER • A special 25th anniversary edition of the beloved book that has changed millions of lives with the story of an unforgettable friendship, the timeless wisdom of older generations, and healing lessons on loss and grief—featuring a new afterword by the author “A wonderful book, a story of the heart told by a writer with soul.”—Los Angeles Times “The most important thing

in life is to learn how to give out love, and to let it come in." Maybe it was a grandparent, or a teacher, or a colleague. Someone older, patient and wise, who understood you when you were young and searching, helped you see the world as a more profound place, gave you sound advice to help you make your way through it. For Mitch Albom, that person was his college professor Morrie Schwartz. Maybe, like Mitch, you lost track of this mentor as you made your way, and the insights faded, and the world seemed colder. Wouldn't you like to see that person again, ask the bigger questions that still haunt you, receive wisdom for your busy life today the way you once did when you were younger? Mitch Albom had that second chance. He rediscovered Morrie in the last months of the older man's life. Knowing he was dying, Morrie visited with Mitch in his study every Tuesday, just as they used to back in college. Their rekindled relationship turned into one final "class": lessons in how to live. "The truth is, Mitch," he said, "once you learn how to die, you learn how to live." *Tuesdays with Morrie* is a magical chronicle of their time together, through which Mitch shares Morrie's lasting gift with the world.

I Like Giving National Geographic Books
National bestseller 2017 National Book Critics Circle (NBCC) Finalist ABA Indies Introduce Winter / Spring 2017 Selection Barnes & Noble Discover Great New Writers Spring 2017 Selection ALA 2018 Notable Books Selection An intimate and poignant graphic novel portraying one family's journey from war-torn Vietnam, from debut author Thi Bui. This beautifully illustrated and emotional story is an evocative memoir about the search for a better future and a longing for the past. Exploring the anguish of immigration and the lasting effects that displacement has on a child and her family, Bui documents the story of her family's daring escape after the fall of South Vietnam in the 1970s, and the difficulties they faced building new lives for themselves. At the heart of Bui's story is a universal struggle: While adjusting to life as a first-time mother, she ultimately discovers what it means to be a parent—the endless sacrifices, the unnoticed gestures, and the depths of unspoken love. Despite how impossible it seems to take on the simultaneous roles of both parent and child, Bui pushes through. With haunting, poetic writing and breathtaking art, she examines the strength of family, the

importance of identity, and the meaning of home. In what Pulitzer Prize-winning novelist Viet Thanh Nguyen calls "a book to break your heart and heal it," *The Best We Could Do* brings to life Thi Bui's journey of understanding, and provides inspiration to all of those who search for a better future while longing for a simpler past.

Crossing distinct literatures, histories, and politics, *Giving Form* to an Asian and Latinx America reveals the intertwined story of contemporary Asian Americans and Latinxs through a shared literary aesthetic. Their transfictional literature creates expansive imagined worlds in which distinct stories coexist, offering artistic shape to their linked political and economic struggles. *Long Le-Khac* explores the work of writers such as Sandra Cisneros, Karen Tei Yamashita, Junot Díaz, and Aimee Phan. He shows how their fictions capture the uneven economic opportunities of the post-civil rights era, the Cold War as it exploded across Asia and Latin America, and the Asian and Latin American labor flows powering global capitalism today. Read together, Asian American and Latinx literatures convey astonishing diversity and untapped possibilities for coalition within the United States' fastest-growing immigrant and minority communities; to understand the changing shape of these communities we must see how they have formed in relation to each other. As the U.S. population approaches a minority-majority threshold, we urgently need methods that can look across the divisions and unequal positions of the racial system. *Giving Form* to an Asian and Latinx America leads the way with a vision for the future built on panethnic and cross-racial solidarity.

A practical guide to philanthropy at all levels of giving that seeks to educate and inspire A majority of American households give to charity in some form or another--from local donations to food banks, religious organizations, or schools, to contributions to prevent disease or protect basic freedoms. Whether you're in a position to give \$1 or \$1 million, every giver needs to answer the same question: How do I channel my giving effectively to make the greatest difference? In *Giving Done Right*, Phil Buchanan, the president of the Center for Effective Philanthropy, arms donors with what it takes to do more good more quickly and to avoid predictable errors that lead too many

astray. This crucial book will reveal the secrets and lessons learned from some of the biggest givers, busting commonly held myths and challenging the idea that "business thinking" holds the answer to effective philanthropy. And it offers the intellectual frameworks, data-driven insights, tools, and practical examples to allow readers to understand exactly what it takes to make a difference.

The Giver, the 1994 Newbery Medal winner, has become one of the most influential novels of our time. The haunting story centers on twelve-year-old Jonas, who lives in a seemingly ideal, if colorless, world of conformity and contentment. Not until he is given his life assignment as the Receiver of Memory does he begin to understand the dark, complex secrets behind his fragile community. This movie tie-in edition features cover art from the movie and exclusive Q&A with members of the cast, including Taylor Swift, Brenton Thwaites and Cameron Monaghan.

Join self-made billionaire David Green, founder of America's craft store giant Hobby Lobby, as he shares the key to building a powerful legacy: generosity. In *Giving It All Away...and Getting It All Back Again*, Green unpacks time-tested principles that will help you reap the benefits of generosity for multiple generations to come. In 1970, David Green began making picture frames in his garage. With hard work, he and his wife, Barbara, turned that humble beginning into the world's largest privately owned arts-and-crafts retailer, employing forty-three thousand people across nine hundred stores in forty-seven states. But it's not all about business. *Giving It All Away...and Getting It All Back Again*--part memoir, part personal manifesto--will change the way you think about prosperity, teaching you that true wealth is about more than money. It's about growing your faith, your family, and your intellectual capital alongside your bank account. Green also reminds us that it's not just giving that sets the foundation for financial freedom. Practicing good stewardship also helps us pass on our values and set good examples for future generations. As Hobby Lobby has grown, Green has stayed true to this philosophy by adhering to three key principles: Work with all your heart for God and not for men Think ahead, but hold your plans lightly--you don't know what God has in store for you Consider what you want your legacy to be Follow Green as he invites you to see that a life marked by generosity can also

be a life full of adventure--a life that pays the best rewards, changes the lives of those around you, and gives you the tools you need to leave a lasting legacy.

Giving is Living Harper Collins

We hear a lot these days about the growing rich-poor gap and how it is undermining the American dream. A telling indicator is that hard work is no longer the sure-bet ticket to getting ahead it once was. Millions who struggle to make ends meet have little realistic chance of achieving a better life. And for the rest of us, it's all too easy to believe there's little we can do to mitigate this hardship. We often sigh at the magnitude of inequality, seeing personal stories of misfortune as tiny drops within a huge ocean of need. *Giving Hope* is an antidote to this pessimism. It outlines ways that your giving can offer second chances to Americans who have dim prospects for moving their lives forward without outside help. Its powerful stories of personal transformation illustrate how giving can dramatically improve the lives of those experiencing hard times, enabling them to embark on a path toward success. This timely book offers tips about where to donate so that you can give gifts that keep on giving. It identifies 75 nonprofits from coast to coast that efficiently use their donations and have track records of creating access to housing, employment, and educational opportunities. Each of us has the power to help people in need achieve successes that would be unimaginable were it not for the unsung work of so many nonprofits across the U.S. Supporting these nonprofits isn't only the right thing to do; it's also a wise investment. Economists estimate that every dollar spent on providing an enriched early childhood education to those who can't afford one saves at least \$13 in the long run. More kids grow up with the skills needed to become productive contributors to society. Consequently, there is less need to spend on crime prevention, imprisonment, special education, public assistance, and health care. Whereas several other books identify ways charity can transform the lives of people living in developing countries, *Giving Hope* is the first to outline specific ways personal giving can restore the American dream. This practical guide is for those who make relatively modest donations of money or time and who want to know that their giving is having an impact. Even small donations can significantly improve the lives of those experiencing hard times. Although the charities chronicled in this book are instrumental in helping needy people turn

their lives around, these organizations rarely get the exposure they deserve. They're small and lack the resources to do the sort of publicity that would enable you to know about them already.

The Best We Could Do Penguin

The troubling ethics and politics of philanthropy Is philanthropy, by its very nature, a threat to today's democracy? Though we may laud wealthy individuals who give away their money for society's benefit, *Just Giving* shows how such generosity not only isn't the unassailable good we think it to be but might also undermine democratic values. Big philanthropy is often an exercise of power, the conversion of private assets into public influence. And it is a form of power that is largely unaccountable and lavishly tax-advantaged. Philanthropy currently fails democracy, but Rob Reich argues that it can be redeemed. *Just Giving* investigates the ethical and political dimensions of philanthropy and considers how giving might better support democratic values and promote justice.

Giving Thanks University of Michigan Press Here, from Bill Clinton, is a call to action. *Giving* is an inspiring look at how each of us can change the world. First, it reveals the extraordinary and innovative efforts now being made by companies and organizations—and by individuals—to solve problems and save lives both “down the street and around the world.” Then it urges us to seek out what each of us, “regardless of income, available time, age, and skills,” can do to help, to give people a chance to live out their dreams. Bill Clinton shares his own experiences and those of other givers, representing a global flood tide of nongovernmental, nonprofit activity. These remarkable stories demonstrate that gifts of time, skills, things, and ideas are as important and effective as contributions of money. From Bill and Melinda Gates to a six-year-old California girl named McKenzie Steiner, who organized and supervised drives to clean up the beach in her community, Clinton introduces us to both well-known and unknown heroes of giving. Among them: Dr. Paul Farmer, who grew up living in the family bus in a trailer park, vowed to devote his life to giving high-quality medical care to the poor and has built innovative public health-care clinics first in Haiti and then in Rwanda; a New York couple, in Africa for a wedding, who visited several schools in Zimbabwe and were appalled by the absence of textbooks and school supplies. They founded their own organization to gather and ship materials to thirty-five schools. After three years, the percentage of seventh-graders who

pass reading tests increased from 5 percent to 60 percent; Oseola McCarty, who after seventy-five years of eking out a living by washing and ironing, gave \$150,000 to the University of Southern Mississippi to endow a scholarship fund for African-American students; Andre Agassi, who has created a college preparatory academy in the Las Vegas neighborhood with the city's highest percentage of at-risk kids. “Tennis was a stepping-stone for me,” says Agassi. “Changing a child's life is what I always wanted to do”; Heifer International, which gave twelve goats to a Ugandan village. Within a year, Beatrice Biira's mother had earned enough money selling goat's milk to pay Beatrice's school fees and eventually to send all her children to school—and, as required, to pass on a baby goat to another family, thus multiplying the impact of the gift. Clinton writes about men and women who traded in their corporate careers, and the fulfillment they now experience through giving. He writes about energy-efficient practices, about progressive companies going green, about promoting fair wages and decent working conditions around the world. He shows us how one of the most important ways of giving can be an effort to change, improve, or protect a government policy. He outlines what we as individuals can do, the steps we can take, how much we should consider giving, and why our giving is so important. Bill Clinton's own actions in his post-presidential years have had an enormous impact on the lives of millions. Through his foundation and his work in the aftermath of the Asian tsunami and Hurricane Katrina, he has become an international spokesperson and model for the power of giving. “We all have the capacity to do great things,” President Clinton says. “My hope is that the people and stories in this book will lift spirits, touch hearts, and demonstrate that citizen activism and service can be a powerful agent of change in the world.”

NATIONAL BESTSELLER • Provocative and illuminating essays from women at the forefront of the climate movement who are harnessing truth, courage, and solutions to lead humanity forward. "A powerful read that fills one with, dare I say . . . hope?"—The New York Times **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY SMITHSONIAN MAGAZINE** There is a renaissance blooming in the climate movement: leadership that is more characteristically feminine and more faithfully feminist, rooted in compassion, connection, creativity, and collaboration. While it's clear that women and girls are vital voices and agents of change for this planet, they are too often missing from the proverbial table. More than a problem of bias, it's a dynamic that sets us up for failure. To change everything, we need everyone. *All We Can Save* illuminates the expertise and insights of dozens of diverse women leading on climate in the United States—scientists, journalists, farmers, lawyers, teachers, activists, innovators, wonks, and designers, across generations, geographies, and race—and aims to advance a more representative, nuanced, and solution-oriented public conversation on the climate crisis. These women offer a spectrum of ideas and insights for how we can rapidly, radically reshape society. Intermixing essays with poetry and art, this book is both a balm and a guide for knowing and holding what has been done to the world, while bolstering our resolve never to give up on one another or our collective future. We must summon truth, courage, and solutions to turn away from the brink and toward life-giving possibility. Curated by two climate leaders, the book is a collection and celebration of visionaries who are leading us on a path toward all we can save. Inspired by the author's own involvement with charity, this book explores the less obvious benefits of the act of giving - the benefits to the giver. When someone commits an act or makes a donation for the benefit of another, everyone wins. *Charity The Gifts of Giving* discusses how each party benefits and why we should all give a little more. Most of us agree that giving is a good thing to do and that many worthy recipients could benefit from our help. What is the connection between giving to others and reaping rewards yourself? Of course, making a difference in someone's life makes you feel good, but the "gifts" go far deeper than that. *Charity* explains those many gifts in detail and will empower you to receive these gifts in your life.

As *The Giving Tree* turns fifty, this timeless classic is available for the first time ever in ebook format. This digital edition allows young readers and lifelong fans to continue the legacy and love of a classic that will now reach an even wider audience. "Once there was a tree...and she loved a little boy." So begins a story of unforgettable perception, beautifully written and illustrated by the gifted and versatile Shel Silverstein. This moving parable for all ages offers a touching interpretation of the gift of giving and a serene acceptance of another's capacity to love in return. Every day the boy would come to the tree to eat her apples, swing from her branches, or slide down her trunk...and the tree was happy. But as the boy grew older he began to want more from the tree, and the tree gave and gave and gave. This is a tender story, touched with sadness, aglow with consolation. Shel Silverstein's incomparable career as a bestselling children's book author and illustrator began with *Lafcadio, the Lion Who Shot Back*. He is also the creator of picture books including *A Giraffe and a Half*, *Who Wants a Cheap Rhinoceros?*, *The Missing Piece*, *The Missing Piece Meets the Big O*, and the perennial favorite *The Giving Tree*, and of classic poetry collections such as *Where the Sidewalk Ends*, *A Light in the Attic*, *Falling Up*, *Every Thing On It*, *Don't Bump the Glump!*, and *Runny Rabbit*. At age thirty-five, Cami Walker was burdened by a battle with multiple sclerosis, a chronic neurological condition that made it difficult for her to walk, work, or enjoy her life. Seeking a remedy for her depression after being hospitalized, she received an uncommon prescription from an African medicine woman: give to others for 29 days. *29 Gifts* is the insightful story of the author's life change as she embraces and reflects on the naturally reciprocal process of giving and receiving. Many of Walker's gifts were simple—a phone call, spare change, a Kleenex. Yet the acts were transformative. By day 29, not only had Walker's health and

happiness improved, but she had created a worldwide giving movement. The book also includes personal essays from others

whose lives changed for the better by giving, plus pages for the reader to record their own journey. More than a memoir, 29 Gifts offers inspiring lessons on how a

simple daily practice of altruism can dramatically alter your outlook on the world.
