Architecture, M.Arch. | Degrees | New York Tech The Mycenaean megaron (15th to the 13th century BCE) was the precursor for later Archaic and Classical Greek temples, but during the Greek Dark Age the

buildings became smaller and less monumental. The basic principles for the development of Greek temple architecture have their roots between the 10th century BCE and the 7th century BCE. Ancient Greek temple - Wikipedia The Indic tradition of Hindu-Buddhist architecture recognize the concept of arranging elements in three parts or three elements. Subsequently, the design, plan and layout of the temple follows the rule of space allocation within three elements; commonly identified as foot (base), body (centre), and head (roof). Hindu temple architecture - Wikipedia Evolution of Temple Architecture in India during Gupta Period: During the Gupta period, a firm foundation of temple architecture was laid when the basic elements of the Indian temple consisting of a square sanctum and pillared porch emerged. Evolution of Hindu Temple Architecture In Gupta architecture, the square was considered the most perfect form and temples were designed to be appreciated from all sides so that each carries decorative architectural features. Most temples also adopt a square plan with the single cubicle garbhagriha in the centre. Gupta Architecture - Ancient History Encyclopedia Early temples consisted of only a garbhagriha, but over time additions were built and copied across temple sites to create, by the 10th century CE, a canonical architectural style. The most obvious of these features were a portico entrance ( ardhmandapa ) and pillared hall ( mandapa ) which led to the garbhagriha - features which developed in the Deccan from the 8th century CE. Hindu Architecture - Ancient History Encyclopedia Kailasa temple, Ellora, the largest rock-cut Hindu temple. Ancient Indian architecture is the architecture of the Indian subcontinent from the Indian Bronze Age to around 800 CE. By this endpoint Buddhism in India had greatly declined, and Hinduism was predominant, and religious and secular building styles had taken on forms, with great regional variation, which they largely retained until and beyond the great changes brought about by the arrival of first Islam, and then Europeans. Ancient Indian architecture - Wikipedia The architecture of India is rooted in its history, culture and religion. Among a number of architectural styles and traditions, the contrasting Hindu temple architecture and Indo-Islamic architecture are the best known historical styles. Both of these, but especially the former, have a number of regional styles within them. Architecture of India - Wikipedia The architecture of Mesopotamia is ancient architecture of the region of the

Tigris-Euphrates river system (also known as Mesopotamia), encompassing several distinct cultures and spanning a period from the 10th millennium BC, when the first permanent structures were built in the 6th century BC. Among the Mesopotamian architectural accomplishments are the development of urban planning, the ...
