PAUL WASHINGTON

A Novel Greenwood
Publishing Group
The Book of Samurai
series presents the lost
arts of the samurai in the
English language for the
first time. Antony
Cummins and Yoshie
Minami have brought the

teachings of the famed
samurai school Natori-Ry?
back to life through The
Book of Samurai series,
and present the lost arts
of the samurai in the
English language for the
first time. BOOK ONE is a
translation of two secret
scrolls and establishes the
Fundamental Teachings of
a samurai student,
revealing the basic
traditions of Natori-Ry?.

The first scroll, Heika J
?dan, contains 290 lessons
that define the baseline
for samurai during times
of peace, a time which is
considered as preparation
for war, focusing each
student on expanding
their own ability and
conduct, giving them the
mind-set needed for any
battles to come. The
second scroll, Ippei Y?k?,
moves the student onto

the field of battle, giving them an understanding of what is expected of them during a campaign of war and providing the necessary guidance for samurai who are to take up arms for the first time. These first two Natori-Ry? documents are an in-depth and detailed account of the practicality of samurai warfare, opening up the lost world of these Japanese warriors to all modern readers. Updated with a new chapter on digital curation How Music Works is David Byrne's incisive and enthusiastic look at the musical art form, from its very inceptions to the influences that shape it, whether acoustical, economic, social or technological. Utilizing his incomparable career and inspired collaborations with Talking Heads, Brian Eno, and many others, Byrne taps deeply into his lifetime of knowledge to explore the panoptic elements of music, how it

shapes the human experience, and reveals the impetus behind how we create, consume, distribute, and enjoy the songs, symphonies, and rhythms that provide the backbeat of life. Byrne's magnum opus uncovers ever-new and thrilling realizations about the redemptive liberation that music brings us all. *GI Basics* Routledge
In recent decades, the importance of sound for remembering the past and for creating a sense of belonging has been increasingly

acknowledged. We keep "sound souvenirs" such as cassette tapes and long play albums in our attics because we want to be able to recreate the music and everyday sounds we once cherished. Artists and ordinary listeners deploy the newest digital audio technologies to recycle past sounds into present tunes. Sound and memory are inextricably intertwined, not just through the commercially exploited nostalgia on oldies radio stations, but through the exchange of valued songs by means of

pristine recordings and cultural practices such as collecting, archiving and listing. This book explores several types of cultural practices involving the remembrance and restoration of past sounds. At the same time, it theorizes the cultural meaning of collecting, recycling, reciting, and remembering sound and music.

Trans Dilemmas presents the findings of a three-year research project which examined the lived experiences of trans people in Australia's Northern Territory. The book argues that whilst trans people, who live in remote areas, experience issues which may not be distinct from those living in urban areas and the inner-city, these issues can be aggravated by geographic and

demographic factors. By conducting online surveys and in-depth interviews, Stephen Kerry brings to light the issues for transgender people which are compounded by living in sparsely populated, remote communities. Namely social isolation, maintaining relationships with friends, family and partners, and the difficulties accessing health care. The book also includes significant findings on the experiences and treatment of Australia's trans Aboriginal people,

also known as sistergirls and brotherboys. An analysis of first-person narratives by sistergirls and brotherboys reveals the racism within predominantly white trans communities and transphobia within traditional Aboriginal communities, which they are uniquely faced with. Trans Dilemmas represents an important contribution to contemporary research into the lives of transgender Australians. It gives a voice to those transgender people living

in the more isolated communities in Australia, which up until now, have been largely unheard. For students and researchers in Queer Studies and Gender Studies, this is valuable reading.

Nine short stories from a few of the greatest names in science fiction on the topic of exchange, replacement, upgrade, and masquerade. Ranging from true short story length through novelette and originally published in

science fiction magazines in the 1950s, these brief escapes into improbable worlds have it all: humor, suspense, betrayal, mystery, twists, and of course-robots and aliens. YEAR OF THE BIG THAW by Marion Zimmer Bradley YOUTH by Isaac Asimov *How Music Works* Houghton Mifflin Harcourt This work examines how death, suicide and violence shaped modern queer culture, arguing that negative experiences, as much as affirmative subculture formation, influenced the emergence of a collective sense of same-sex identity. Bauer looks for this history of violence in the work and reception of the influential sexologist Magnus Hirschfeld

(1868-1935), and through Hirschfeld's work examines the form and collective impact of anti-queer violence in the first half of the twentieth century. Hirschfeld's archive (his library at the Institute for Sexual Sciences in Berlin) was destroyed by the Nazis in 1933, so the archive of Bauer's title is one that she's built from over a hundred published and unpublished books, articles, films and photographs.

Your Final Choice is not a how-to book, but a how-to-think-about book, on a controversial and emotional topic: hastening your death when terminally ill. I have now read this book twice, each time at a single sitting! It provides an easily accessible framework for consideration of the issues around the end of life and language for expressing and justifying personal choices, whatever they may be. I wish all my patients had it and talked to their

families about it. - Dr Lindi Jeffree Brisbane Neurosurgeon & Brain Cancer Specialist This is a comprehensive review of choices to be considered when making decisions about "'~end-of-life' matters before incompetence. All sides of the many views, issues and difficulties are canvassed in a readable and non-judgemental manner. It is a critical guide to the making of hard yet necessary plans for a good and dignified death. - Dr Ruth Webber Sociologist and author If,

as is likely, physician assisted dying becomes legal, terminally ill patients will still have to make a choice to euthanase or not, based on their own preferences and circumstances. This book will help ensure the choice is informed. - Kenneth Davidson, DWDV Ambassador. Read the full review here: <http://www.dwdv.org.au/resources/book-reviews> Kenneth Ralph runs a private counselling practice in Geelong, Victoria. He trained in philosophy at Otago (New Zealand),

religion at Princeton (USA) and psychotherapy in Melbourne (Australia). He has conducted a variety of human relations programs in schools, businesses, churches, prisons and community organisations. His previous book *Yes I Get Depressed* was a No 1 best-seller in Geelong. Married to social worker wife Alison, they have two sons and four grandchildren. through it alive. In the three years since Jack Palms left Hollywood and kicked his drug habit, he's added fourteen pounds of muscle, read eighty-three books, and played it as straight as anyone could reasonably ask. But the residual checks are drying up, and the ascetic lifestyle's starting to wear thin, so Jack's happy to cash in on his former celebrity by showing some out-of-town high rollers around San Francisco's club scene. Then people start turning up dead, and Jack realizes

he's been playing tour guide to a pack of former KGB agents turned coke dealers. Soon he's got too many gunmen after him to count—including a South American drug cartel, a mountain-sized Samoan enforcer, and a mobbed-up strip-club owner with an army of thugs. That's not to mention the gorgeous bartender who may be planning on shooting him in the back and the homicide cop who's just given Jack twenty-four hours to bring down the Bay Area's biggest drug dealer. But

the thing that scares Jack the most? He's starting to enjoy himself. From the Trade Paperback edition.

In this long-awaited

description of the body-centered therapy developed by Marion Rosen, the reader begins to understand how emotional and physical ailments can be addressed through the gentle touch of the Rosen practitioner. Rosen explains how the practitioner identifies tensions in the body that point to the source of a problem and how that awareness guides the healing process. With the help of psychotherapist Susan Brenner, the director of Rosen Center

East and one of Marion's first students, she describes the origins of her method; how people reveal their emotions in body postures; barriers they set up to love, self-expression, and intimacy, and how Rosen work enables a client to move beyond these barriers. Treatments for asthma, migraine headaches, heart problems, weak immune systems, and psychosomatic illnesses are chronicled. Essays by doctors, psychologists, and Rosen practitioners describe how this method

of touch, words, and acceptance guides their work, and complete this remarkable tribute to a visionary woman. [Intellectual Property and the Safeguarding of Traditional Cultures: Legal Issues and Practical Options for Museums, Libraries and Archives](#) WIPO
In a letter from 1845, the 14-year-old Emily Dickinson asked her friend Abiah Root if she had started collecting flowers and plants for a herbarium: "it would be such a treasure to you;

'most all the girls are making one." Emily's own album of more than 400 pressed flowers and plants, carefully preserved, has long been a treasure of Harvard's Houghton Library. This beautifully produced, slipcased volume now makes it available to all readers interested in the life and writings of Emily Dickinson. The care that Emily put into her herbarium, as Richard Sewall points out, goes far beyond what one might expect of a botany student her age: "Take

Emily's herbarium far enough, and you have her." The close observation of nature was a lifelong passion, and Emily used her garden flowers as emblems in her poetry and her correspondence. Each page of the album is reproduced in full color at full size, accompanied by a transcription of Dickinson's handwritten labels. Introduced by a substantial literary and biographical essay, and including a complete botanical catalog and index, this volume will

delight scholars, gardeners, and all readers of Emily Dickinson's poetry.

How do we create a universe of truthful and verifiable information, available to everyone? In *The New Enlightenment and the Fight to Free Knowledge*, MIT Open Learning's Peter B. Kaufman describes the powerful forces that have purposely crippled our efforts to share knowledge widely and freely. Popes and their inquisitors, emperors and their hangmen,

commissars and their secret police—throughout history, all have sought to stanch the free flow of information. Kaufman writes of times when the Bible could not be translated—you'd be burned for trying; when dictionaries and encyclopedias were forbidden; when literature and science and history books were trashed and pulped—sometimes along with their authors; and when efforts to develop public television and radio networks were quashed by private industry. In the

21st century, the enemies of free thought have taken on new and different guises—giant corporate behemoths, sprawling national security agencies, gutted regulatory commissions. Bereft of any real moral compass or sense of social responsibility, their work to surveil and control us are no less nefarious than their 16th- and 18th- and 20th-century predecessors. They are all part of what Kaufman calls the *Monsterverse*. The New Enlightenment and the

Fight to Free Knowledge maps out the opportunities to mobilize for the fight ahead of us. With the Internet and other means of media production and distribution—video especially—at hand, knowledge institutions like universities, libraries, museums, and archives have a special responsibility now to counter misinformation, disinformation, and fake news—and especially efforts to control the free flow of information. A film and video producer and

former book publisher, Kaufman begins to draft a new social contract for our networked video age. He draws his inspiration from those who fought tooth and nail against earlier incarnations of the Monsterverse—including William Tyndale in the 16th century; Denis Diderot in the 18th; untold numbers of Soviet and Central and East European dissidents in the 20th—many of whom paid the ultimate price. Their successors? Advocates of free knowledge like Aaron Swartz, of free software

like Richard Stallman, of an enlightened public television and radio network like James Killian, of a freer Internet like Tim Berners-Lee, of fuller rights and freedoms like Edward Snowden. All have been striving to secure for us a better world, marked by the right balance between state, society, and private gain. The concluding section of the book, its largest piece, builds on their work, drawing up a progressive agenda for how today's free thinkers can band together now to fight and

win. With everything shut and everyone going online, The New Enlightenment and the Fight to Free Knowledge is a rousing call to action that expands the definition of what it means to be a citizen in the 21st century.

"Hurricane" Carter was riding a wave of success. The survivor of a difficult youth, he rose to become a top contender for the middleweight boxing crown. But his career crashed to a halt on May 26, 1967, when he and another man were found guilty of the murder of three white people and sentenced to three consecutive life terms. Written from prison and first published in 1974, *The Sixteenth Round* chronicles Hurricane's journey from the ring to solitary confinement. The

book was his cry for help to the public, an attempt to set the record straight and force a new trial. Bob Dylan wrote his classic anthem "Hurricane" about his struggle, and Muhammad Ali and thousands of others took up his cause. The power of Carter's voice, as well as his ironic humor, makes this an eloquent, soul-stirring account of a remarkable life. Rubin "Hurricane" Carter was released from prison in 1988. Former chair and CEO of Canada's Association in Defence of

the Wrongly Convicted and, since 2005, CEO of Innocence International, Dr. Carter is the author of Eye of the Hurricane: My Path from Darkness to Freedom. His life has been the subject of three books and a major motion picture, The Hurricane, starring Denzel Washington. The recipient of honorary doctor of law degrees from Griffith University, Australia, and York University, Toronto, Dr. Carter lives in Toronto. *More Fast Food My Way* Houghton Mifflin Harcourt This blistering

novel—from the bestselling, Pulitzer Prize-winning author of The Road—returns to the Texas-Mexico border, setting of the famed Border Trilogy. The time is our own, when rustlers have given way to drug-runners and small towns have become free-fire zones. One day, a good old boy named Llewellyn Moss finds a pickup truck surrounded by a bodyguard of dead men. A load of heroin and two million dollars in cash are still in the back. When Moss takes the money, he

sets off a chain reaction of catastrophic violence that not even the law—in the person of aging, disillusioned Sheriff Bell—can contain. As Moss tries to evade his pursuers—in particular a mysterious mastermind who flips coins for human lives—McCarthy simultaneously strips down the American crime novel and broadens its concerns to encompass themes as ancient as the Bible and as bloodily contemporary as this morning's headlines. No Country for Old Men is a
