Carte Edition Pearson
Parents and teachers
today face a swirl of
conflicting theories about
child rearing and
educational practice.
Indeed, current guides are
contradictory,
oversimplified, and at
odds with current
scientific knowledge. Now,
in *Awakening Children's
Minds*, Laura Berk cuts
through the confusion of
competing theories,
offering a new way of
thinking about the roles of
parents and teachers and
how they can make a
difference in children's
lives. This is the first book
to bring to a general
audience, in lucid prose
richly laced with
examples, truly state-of-
the-art thinking about
child rearing and early
education. Berk's central

message is that parents
and teachers contribute
profoundly to the
development of
competent, caring, well-
adjusted children. In
particular, she argues that
adult-child communication
in shared activities is the
wellspring of
psychological
development. These
dialogues enhance
language skills, reasoning
ability, problem-solving
strategies, the capacity to
bring action under the
control of thought, and
the child's cultural and
moral values. Berk
explains how children
weave the voices of more
expert cultural members
into dialogues with
themselves. When
puzzling, difficult, or
stressful circumstances
arise, children call on this
private speech to guide
and control their thinking
and behavior. In addition
to providing clear roles for
parents and teachers,
Berk also offers concrete
suggestions for creating
and evaluating quality
educational
environments--at home, in
child care, in preschool,
and in primary school--
and addresses the unique

challenges of helping
children with special
needs. Parents, Berk
writes, need a consistent
way of thinking about
their role in children's
lives, one that can guide
them in making effective
child-rearing decisions.
*Awakening Children's
Minds* gives us the basic
guidance we need to raise
caring, thoughtful,
intelligent children.
