Things Go Flying Brindle and Glass  
From the author of *A Thousand  
Benjamins* and *The Locklear Letters*  
comes an irreverent and hilarious  
collection of short stories. There are the  
lives we lead. And the lives we wish we  
led. The difference between the two is  
the dilemma that the offbeat characters  
in *Corrections to My Memoirs* seek to  
resolve. From the fabrications of the

misguided autobiographer in the title story to the unusual encounter of the narrator in “The Last Chance Texaco,” these are people slowly learning the truth about the world. They are discovering that the line between fantasy and reality is as thin as a white lie, and that reality can’t be altered because we wish it so. With a style that is both humorous and heartbreaking, Kun reveals the hidden side of human existence and shows us that the difference between what is perceived and what is real is often more significant than we’d like to admit.

A leading Professor of Retail Marketing presents 5 new frames through which students and practitioners can understand and approach the evolving environment of retailing today: Entrepreneurial mindset, Excitement, Education, Experience, and Engagement. Due to the influence of online shopping, social media, retailing analytics, and the growth of mobile shopping, the retail business environment has had to evolve dramatically in recent years. Dhruv Grewal believes that this change in the retail market means the marketing mix, or 4Ps definition – place, price, product, and promotion, must be transformed. In its place, Grewal introduces the 5Es retail Management framework. A new perspective for retailers to follow in order to be innovative and to ensure

ongoing success. The book provides insights and ideas from retailers across the world to reinforce this new perspective, and offers direct examples of best practice from leading retailers such as Amazon, Victoria's Secret, Kroger, Tesco, Zara and Groupon, amongst others. Online resources include PowerPoint Slides, Video links and Testbank Suitable reading for students of retail marketing.

The Hard Copy is a work that walks the line between the exotic artists' book and the democratic, mass-produced multiple. Appropriating ideas and visual references from Stewart Brand's Whole Earth Catalog, Hard Copy represents the power that the tool bestows on the contemporary artist by listing, reviewing

and appropriating information on a selection of 'artists' tools.

A veteran Wall Street Journal editor and authority on branding, marketing and reputation provides the 18 crucial rules for companies to follow in developing and protecting their reputation, which can be their most valuable asset or their worst nightmare. A must read book for senior executives, consultants, advertising, public relations, and marketing professionals. From Enron and WorldCom to the Catholic Church and Major League Baseball, reputation crises have never been more widespread. Now Ronald J. Alsop, a veteran Wall Street Journal authority on branding and reputation management, explains the dangers—and gives organizations the

eighteen crucial laws to follow in developing and protecting their reputations. Consider this example of a simple decision made by a low-ranking employee: When rescue workers at the site of the World Trade Center disaster sought bottled water from a nearby Starbucks outlet, they complained that an employee charged them for it. In a matter of hours, the Internet had picked up the story and Starbucks' carefully cultivated worldwide reputation was quickly besmirched. This is just one instance among many of how the business world, ever more global and competitive, has become increasingly difficult to navigate. Studies have demonstrated the powerful impact of reputation on profits and stock prices, and yet less than half of all companies

have a formal system for measuring reputation. Clearly, companies in every industry—from Dow Chemical to Disney to DaimlerChrysler—have much more to learn. It is still the rare company that realizes the full value of its reputation: how corporate reputation can enhance business in good times, become a protective halo in turbulent times, and be destroyed in an instant by people at the lowest or highest levels of the corporate ladder. Mr. Alsop provides eighteen thoroughly documented lessons based on years of experience covering every aspect of corporate reputation, with a clear distillation of the complex principles at the heart of a reputation. He explains:

- How to protect your reputation when the inevitable crisis hits
- How to cope with the many

- hazards in cyberspace
- How to create a reputation for vision and industry leadership
- How to establish a culture of ethical behavior
- How to measure and monitor your ever-changing public image
- How to make employees your reputation champions
- How to decide when it's time to change your name

The result is a book that is important not only for business executives, consultants, and advertising, public relations, and marketing professionals but also for anyone eager to learn more about the companies they work for, buy from, and invest in.

Shari Lapeña takes the wit of David

Sedaris and the outrageousness of Douglas Coupland to create a dark, hilarious and wildly inventive contemporary comedy about how the past can come back to haunt you. Literally. In *Things Go Flying*, Harold Walker is desperately average and listless at mid-life, stemming in part from the abrupt death of his one-time best friend, Tom. Harold's wife Audrey, an increasingly frustrated housewife and mother to their two teenage sons, is a control freak silently harbouring an explosive secret. Things go flying in the Walker household when Harold's long-deceased mother comes back to haunt them. He finds he has her gift for opening the door to the past-and if there was ever a gift he wanted to return, it's this one! Audrey is similarly terrified-how

is she to safeguard her secret now? If she can't control this world, how is she to control the next one? And how will she protect her good china? Harold, who has made a practice of avoiding things all his life, must confront two problems-how to find meaning in this life, and how to come to grips with the mostly terrifying idea that life just might go on forever!

*Persuasion in Society*, Third Edition introduces readers to the rich tapestry of persuasive technique and scholarship, interweaving rhetorical, critical theory, and social science traditions. This text examines current and classical theory through the lens of contemporary

culture, encouraging readers to explore the nature of persuasion and to understand its impact in their lives. Employing a contemporary approach, authors Jean G. Jones and Herbert W. Simons draw from popular culture, mass media, and social media to help readers become informed creators and consumers of persuasive messages. This introductory persuasion text offers: A broad-based approach to the scope of persuasion, expanding students' understanding of what persuasion is and how it is effected. Insights on the diversity of persuasion in action, through such contexts as advertising, marketing, political campaigns, activism and social movements, and negotiation in social conflicts. The inclusion of "sender" and "receiver" perspectives, enhancing

understanding of persuasion in practice. Extended treatment of the ethics of persuasion, featuring opposing views on handling controversial issues in the college classroom for enhanced instruction. Case studies showing how and why people fall for persuasive messages, demonstrating how persuasion works at a cognitive level.
