Losing Our Minds

There cannot be a hunter and angler who has not, at some time or other, daydreamed about building his or her own camp. Hunting & Fishing Camp Builder's Guide provides the concepts, plans, and know-how to turn a daydream into a reality. Monte Burch applies decades of how-to skills to describe the "ins and outs" of design and construction. From the cabin to the furniture inside, you can do it all yourself and create the camp or lodge of your dreams.

Wouldn't it be a disgrace if we lost the brightest students now attending our nation's schools? Dr. Deborah L. Ruf establishes that there are far more highly gifted children than previously imagined, yet large numbers of very bright children are "never discovered" by their schools. Using 78 gifted and highly gifted children as her examples, she illustrates five levels of giftedness. Parents will be able to estimate which of the five levels of giftedness their child fits by comparing their own child's developmental milestones to those of the children described in the book. This book contains practical advice for parents, including how to find a school that works for your child. Book jacket.
