This book is the very essence of Jupiter. From its apt title, to its generous use of many famous chart examples, to Arroyo's trademark insight and wisdom on every page, "Exploring Jupiter" is positively a winner! The presentation of the astrology is clear, practical and intelligent, making it a must for both newer students and more experienced practising astrologers. Unlike the majority of modern astrologers, Arroyo refers to Jupiter's ancient rulership of Pisces as being significant, and the book is written with this in mind. Otherwise much of the book is built on the usual "cookbook" approach: Jupiter through the signs, Jupiter through the houses (arranged by element), Jupiter aspects in the birth chart and so on. As always with Stephen Arroyo, it is the clarity and profound depth of these guidelines for interpretation that is so striking. The chapter on transits involving Jupiter is

particularly good, building on ideas he has expressed in earlier writings.

Jung on Astrology brings together C. G. Jung's thoughts on astrology in a single volume for the first time, significantly adding to our understanding of Jung's work. Jung's Collected Works, seminars, and letters contain numerous discussions of this ancient divinatory system, and Jung himself used astrological horoscopes as a diagnostic tool in his analytic practice.

Understood in terms of his own psychology as a symbolic representation of the archetypes of the collective unconscious, Jung found in astrology a wealth of spiritual and psychological meaning and suggested it represents the "sum of all the psychological knowledge of antiquity." The selections and editorial introductions by Safron Rossi and Keiron Le Grice address topics that were of critical importance to Jung—such as the archetypal symbolism in astrology, the precession of the equinoxes and astrological ages, astrology as a form of synchronicity and acausal correspondence, the qualitative nature of time, and the experience of astrological fate—allowing readers to assess astrology's place within the larger corpus of Jung's work and its value as a source of symbolic meaning for our time. The book will be of great interest to analytical psychologists, Jungian psychotherapists and academics and students of depth psychology, Jungian and post-Jungian studies, as well as to astrologers and therapists of other orientations, especially transpersonal.

The inner planets--Mercury, Venus, Mars--are the foundations of what psychology calls the ego, the sense of personal self. In this fourth volume in the Seminars in Psychological Astrology series, Liz Greene and Howard Sasportas discuss the value of the inner planets as they symbolize important aspects of personality. We are not trained to give value to our private needs, feelings, and qualities. Indeed, because of their intensely personal nature, they are often suppressed or overlooked as irrelevant to society. Likewise, the inner planets have tended to be given less attention by psychological astrologers for they are the personal planets. The authors show us that in order to give the most that we can to our interactions with the rest of the world, we must first understand our own needs and have a healthy ego a personal authenticity. Their book teaches us the process of understanding how these three planets actually represent our individuality, and how they directly color the energy of the rest of our horoscope. Greene and Sasportas blend the processes of astrology and psychology in a unique and important way in this in-depth insight into the archetypes represented by the inner planets.

The Missing Element Routledge

It was a long time ago and few alive now remember what life was like in England in the years after World War II. Yes, the Luftwaffe and Vengeance weapons had made a fine mess in the south of the country, but during the war years the Yanks were there, millions of them, seducing the womenfolk, brawling in pubs, and, most importantly, spending their pay with local shopkeepers. May, 1945, the war ended and all the Americans left. Most went home, but a sizeable contingent set up shop in Germany, where, to the best of their ability given the local ruins, they carried on as before, seducing the womenfolk, brawling in pubs and spending

their pay with the surviving shopkeepers. The Americans were joined by contingents of English, French and Soviet troops. As a result, the surprising fact, long forgotten, is that after the war, conditions in England were even worse than they were in post-Third Reich Germany. Some in Britain rued winning the war, as deprivation became their fate. In London after the war books were so scarce that used vendors had long lists of people waiting for the few books that turned up. For schools in London which taught astrology, the situation was impossible. Responding to the post WWII book shortage, Margaret Hone published this ultimate Astrology Text-Book. She was born in Birmingham, England, on October 2, 1892, at 2:13 am. Her ascendant was 27 Leo; her Sun was 9 Libra; her Moon was 13 Aquarius. Her midheaven was 15 Taurus. Of Ms Hone, James Holden wrote, "English astrologer, educator, and author. She was a professional astrologer and private teacher for many years and later was Principal and Director of Studies of the Faculty of Astrological Studies 1954-1969 and Vice President of the Astrological Lodge of London. Mrs. Hone was an advocate of the Equal House system of house division. She is best known in the U.S. for her two instruction manuals." This book is dedicated to Charles E.O. Carter, 1887-1968. Carter succeeded Alan Leo as head of the Astrological Lodge (1920-1952) and was First Principal of the Faculty of Astrological Studies, which he helped found in 1948. Hone succeeded Carter at FAS. She passed away on October 14, 1969. In his Preface, while quick to praise Hone, a personal friend, Charles Carter also pointed out that this book's high price was justified, that "padding has been rigorously excluded." He goes on to praise the workmanship, the carefully worded definitions, as well as the fact that the book was complete and entire in itself. Save for ephemeris and tables of houses, this one book would suffice beginning as well as advanced students for some years. In addition, Hone also includes one of the earliest modern histories of astrology, short biographies of leading astrologers past and present, astrology and public opinion (daily horoscopes in the newspapers were a recent innovation). On a more practical side, Hone gives a thorough analysis of the principal house systems of the day (Equal, Campanus, Regiomontanus, Placidus), and even mentions C.G. Jung's recently developed Depth Psychology.

Rebuilding Our Lost Connections with the Cosmos Simon and Schuster

Everyone longs to be understood in their essence. In "The Missing Element", author Debra Silverman describes human nature in a compassionate and succinct way, and offers ways for us to get to know ourselves in depth with the wisdom of archetypes. The information in this book stands on the shoulders of our elders, who understood the four directions, the four elements, the four noble truths. Whatever pain you experience is specific to your personality type, based on the four elements. The 'missing element' is twofold: it refers to the Observer inside you - the part of you that can stand outside of judgment and see yourself with a more wise and compassionate approach - much like our elders did. And it also refers to the elements that make up your personality and more specifically, to the element which is your weakest. Your issues will repeat themselves again and again until you can see yourself and others from the compassionate vantage point that unites all of us. You will understand that your life and all its stories were designed by your soul to get your attention right now. It is inviting you to seek the wisdom of the ages to help you grow... that's why you found this book at this moment in time!

The Astrological Houses Astrology Classics

"Psychological Astrology and the Twelve Houses" will surprise you, whether you are a complete beginner or a seasoned professional: Noel Eastwood is a psychologist astrologer who approaches astrology as an altered state of consciousness. He walks you through the houses of the natal chart like a good travel guide who knows that sightseeing is not enough to make a journey memorable, you need to experience the place for yourself: meet the locals in small cafes, discover hidden fountains and secret gardens. This is a practice-oriented work, Noel takes every opportunity to demonstrate how astrological symbolism

translates into the personality of an individual. He picked four well-known figures to illustrate the process of analysis on their charts: Barack Obama, Hilary Clinton, Justin Bieber and Taylor Swift. What makes this book truly unique, however, is an invitation to meet your astrological archetypes. To show where such an inner journey can take you, Noel shares his personal meditations as if you were reading his private travel diary."

In this eBook original, numerous practical as well as philosophical issues are explored. In an in-depth, wide-ranging interview appearing in book form for the first time, Stephen Arroyo answers questions about his early years in astrology, how he came to write some of his classic works, and his views on various central issues in astrology's current practice and potential future development. In another chapter, he provides concise new observations and guidelines that provide more insightful ways of understanding many factors in both individual birth charts and chart comparisons. In the other sections of this book, he discusses what astrology can contribute to psychology, how to understand the Ascendant, and possible explanations of transits' powerful effects. And importantly, this is the only book currently available that describes and explores his unique theory of "subtones" as an incisive, psychologically revealing method of achieving greater depth in understanding any birth chart. In short, utilizing "subtones" is a method of synthesizing the major chart factors in any person's chart in a simple, quick way that people at any level of astrological knowledge can easily learn and reliably use.

The Development of Personality Sounds True

This recognized classic of modern astrology is truly a pioneering book. It established a new science of astrological psychology. It presents a language of energy that has enabled astrology to be widely and reliably used in the helping professions as well as by the general public. As Library Journal stated, "Transcending the boundaries of separate disciplines, this work represents a major distillation of astrological principles." This book relates astrology to modern psychology and explains the use of astrology as a practical method of understanding one's atonement to universal forces. It clearly shows how to approach astrology with a real understanding of the energies involved. Part 1 of the book explains how astrology can be the most valuable psychological

tool for understanding oneself and others. Analyzing the scientific, philosophical, and intuitive dimensions of astrology, it is oriented toward the layman with no astrological knowledge, astrology students and professionals, and those engaged in any form of the counseling arts. Part II deals specifically with the interpretation and practical application of astrological factors

based on the actual energies involved (air, fire, water & earth). It presents a dynamic application of astrological knowledge that clarifies and illuminates traditional techniques and meanings by placing them in the perspective of understanding the vital energies inherent in all life processes.
