NEW YORK TIMES BESTSELLER Edward Snowden, the man who risked everything to expose the US government's system of mass surveillance, reveals for the first time the story of his life, including how he helped to build that system and what motivated him to try to bring it down. In 2013, twenty-nine-year-old Edward Snowden shocked the world when he broke with the American intelligence establishment and revealed that the United States government was secretly pursuing the means to collect every single phone call, text message, and email. The result would be an unprecedented system of mass surveillance with the ability to pry into the private lives of every person on earth. Six years later, Snowden reveals for the very first time how he helped to build this system and why he was moved to expose it. Spanning the bucolic Beltway suburbs of his childhood and the clandestine CIA and NSA postings of his adulthood, *Permanent Record* is the extraordinary account of a bright young man who grew up online—a man who became a spy, a whistleblower, and, in exile, the Internet's conscience. Written with wit, grace, passion, and an unflinching candor, *Permanent Record* is a crucial memoir of our digital age and destined to be a classic.

The definitive account of how regime change in the Middle East has proven so tempting to American policymakers for decades—and why it always seems to go wrong. "Must reading—by someone who saw it first-hand—for all interested in America's foreign policy and its place in the world." —Robin Wright Since the end of World War II, the United States has set out to oust governments in the Middle East on an average of once per decade—in places as diverse as Iran, Iraq, Afghanistan (twice), Egypt, Libya, and Syria. The reasons for these interventions have also been extremely diverse, and the methods by which the United States pursued regime change have likewise been highly varied, ranging from diplomatic pressure alone to outright military invasion and occupation. What is common to all the operations, however, is that they failed to achieve their ultimate goals, produced a range of unintended and even catastrophic consequences, carried heavy financial and human costs, and in many cases left the countries in question worse off than they were before. Philip H. Gordon's *Losing the Long Game* is a thorough and riveting look at the U.S. experience with regime change over the past seventy years, and an insider's view on U.S. policymaking in the region at the highest levels. It is the story of repeated U.S. interventions in the region that always started out with high hopes and often the best of intentions, but never turned out well. No future discussion of U.S. policy in the Middle East will be complete without taking into account the lessons of the past, especially at a time of intense domestic polarization and reckoning with America's standing in world.

New threats surface in the aftermath of WWII—this time, in the remote waters of the Arctic. Arctic Sea is the next thrilling entry in David Poyer's critically-acclaimed future war series. In the aftermath of a world war with China, Admiral Dan Lenson is assigned to set up a US Navy base on the rugged North Slope of Alaska, in response to Russian seabed claims that reach nearly to the US coast. Yet the current administration seems oddly reluctant to confront Russian aggression. At the same time, the International Criminal Court is accusing Dan of a war crime. Back in Washington, Blair Titus is running Jim Yangerhans's campaign for president, while Dan's daughter Nan battles disease in a radiation-soaked Midwest. But when Moscow plans to test the Apocalyps, a nuclear powered citykiller torpedo, in the Arctic Sea, Dan is sucked into a perilous covert mission. Will a barely victorious America survive dangerous new threats...both from without, and within?

This book provides a history of the WTO US-EU banana dispute through the lens of a major actor: the US-owned multinational firm, Chiquita Brands International. It documents and explains how Chiquita succeeded in having the Clinton administration pursue a trade policy of forcing the European Union to dismantle its preferential banana import regime for exports from the small English-speaking

Caribbean (ESC) countries. The export of bananas was critically important to the social stability and economic viability of these countries and that was in the national security interest of the United States. The experience indicates that succeeding in this goal was detrimental to U.S. national security interest in the Caribbean.

GOING HOME TO TEACH "Everyone going, and you coming." 1975: Nobody could understand why anyone choose, in a time of raging democratic socialism and migrating panic-stricken middle-class Jamaicans, to leave the USA to go to Jamaica to teach. But for Anthony Winkler the reason was simple: he wanted to go home. This autobiographical account of the year that he spent at a rural teacher training college flashes back to the Jamaica of the narrator's childhood, recounting incidents and vignettes that shed light on the muddle of competing personalities, doctrines and images of self currently vying for center stage in the tumult of Jamaican life. Emerging from the story are hilariously drawn characters, contrasts between the Jamaican and American outlook, and lessons about the perils of superimposing a foreign ideology onto a native culture. "I am a Jamaican writer, who by force of circumstances and luck, lives in the United States. I am keenly interested in the cultural chasm

that exists between people of different countries, and I have mainly aimed my writing at that theme. Odd things always seem to be popping about me in the United States, and I must periodically run home to Jamaica for a taste of normalcy." - Anthony Winkler. 'Anthony Winkler is a man who lives and breathes the island's culture's and customs, speaks and writes in the musical rhythms of its language, understands the unending struggle for survival and dignity that is every Jamaican's lot.' -Vincent Coppola, Atlanta Magazine Cover illustration: 'The Visit' by Albert Artwell, reproduced with the permission of the Hardingham Collection. About the Author Anthony C. Winkler was born in Kingston, Jamaica. He was educated at Mount Alvernia Academy then Cornwall College in Montego Bay, and California State University in Los Angeles. He is the author of several textbooks in English and Public Speaking which are widely used in American colleges and universities. His first novel, *The Painted Canoe*, was published by Kingston Publishers in 1983, followed by *The Lunatic* in 1987 and *The Great Yacht Race* in 1992. American editions of the first two novels were published by Lyle Stuart in 1986 and 1987 respectively. All three novels met with international critical acclaim, and the movie *The Lunatic* was released in 1990. Mr. Winkler currently lives in Atlanta, Georgia, with his wife and two children.
