The follow-up to the bestselling Tomorrow series BOOK 2 IN THE ELLIE CHRONICLES TRILOGY "Addictive reading" Sydney Morning Herald "Australia's king of young adult fiction" The Australian Packed full of action and high-drama, John Marsden delivers another fast-paced adventure that will thrill old fans and new readers alike. "I held my line. I knew from the war, if not from shooting rabbits, that we were safe enough for the first moments. It is too impossible to hit a target like us from a helicopter that's rocking and rolling and trying to find its target. But maybe this guy had new equipment or maybe he was a brilliant shot or maybe he was just plain lucky. Bullet holes tore through the ute like a huge metal-punch was suddenly and roughly slamming a simultaneous line of them from our rear to our front." Ellie has struggled to put the war behind her and lead a normal life. Although what's normal about your parents having been murdered; trying to run a farm and go to school; and bringing up a young boy who's hiding terrible secrets about his past? Fans of Veronica Roth, Suzanne Collins and John Flanagan will love John Marsden.

In a terrifying future world, four girls must depend on each other if they want to survive. Louisa is nervous about being sent away to a boarding school -- but she's excited, too. And she has her best friend, Maddie, to keep her company. The girls have to pretend to be twin sisters, which Louisa thinks just adds to the adventure! Country Manor School isn't all excitement, though. Louisa isn't sure how she feels about her new roommates: athletic but snobby Rosie and everything's-a-conspiracy Evelyn. Even Maddie seems different away from home, quiet and worried all the time. Still, Louisa loves CMS -- the survival skills classes, the fresh air. She doesn't even miss not having a TV, or the internet, or any contact with home. It's for their own safety, after all. Or is it?

The machines brought society to its knees. Now, the last remaining humans fight for survival--and to take back what's theirs. Junior, a robotics expert, tinkers quietly underground. With dozens of machine kills under his belt, he knows the enemy inside and out. AlphaOverride, a reclusive black hat hacker, uses the skills acquired over a life of shady activity to outwit the hyper-intelligent machines swarming in on her. Brick, a special forces operator and one of the few Pentagon survivors, fights his inner demons to embark on the most important mission of his life. Together they are humanity's last, best hope--if they can only find each other in time. From the Author First, I brought you the cult classic, Day by Day Armageddon, where we both journeyed alongside the unnamed survivor as he trekked across the bleak landscapes of the undead. Some time after the Great Recession, I strived to accurately depict the bedlam of a post-grid down United States in Tomorrow War--An alternate timeline where a jack boot on the throat of humanity is only one black swan event away. Now, after years of world building, writing and editing in my attic, Trilobyte is ready for you, my beloved reader. Some might call it a warning of what is to come if we aren't careful with our creations. Trilobyte is the most terrifying thing I have ever written. They are closer than you think. They will be trillions. They will come for you. Lock your doors and load those rail guns. The machines are here.

Tomorrow War: Serpent Road St. Martin's Press

A miniatures wargame of gritty futuristic combat, Tomorrow's War projects the tactics and technology of today's military conflicts hundred's of years into the future. While robot drones, anti-gravity vehicles, and advanced battle-suit technology have changed the face of warfare, the essentials of combined-arms tactics have remained constant. Using the popular Force on Force rules as a basis, Ambush Alley Games has created the most realistic and tactically challenging science fiction wargame on the market. The rulebook includes a detailed optional 'future history' and a campaign system so that individual battles can be linked into an ongoing storyline.

Yet the Land tempted him. He had been sick; now he seemed better than ever before. Through no fault of his own, he had been outcast, unclean, a pariah. Now he was regarded as a reincarnation of the Land's greatest hero—Berek Halfhand—armed with the mystic power of White Gold. That power alone could protect the Lords of the Land from the ancient evil of the Despiser, Lord Foul. Except that Covenant had no idea how to use that power. . . .
