## **GOODMAN ROBERTS**

---

**Why Orwell Matters** Simon and Schuster  
David Kupelian, veteran journalist and bestselling author of *The Marketing of Evil*, probes the millennia-old questions of evil—what it is, how it works, and why it so routinely and effortlessly ruins our lives—once again demonstrating his uncanny knack for demystifying complex, elusive, and intimidating subjects with fresh insights into the hidden mechanisms

of seduction, corruption, religion, and power politics. Analyzing today's most electrifying news stories and hot-button topics, Kupelian explores such profoundly troubling questions as Why are big lies more believable than little ones? How does terrorism really work? Why do so many celebrities who "have it all" end up self-destructing? Why are boys doing worse in school today than girls? Why do we treat the problems of anger and depression with drugs? . . . and much more. Fortunately, once we really understand "how evil works"—both in our own lives and in the

world at large—evil loses much of its power and the way out becomes more clear.

[Verses for a Despotism](#) Anchor

The New York Times bestselling exposé of what passes for business as usual in Washington today There was a time, not so very long ago, when perfectly rational people ran the Republican Party. So how did the party of Lincoln become the party of lunatics? That is what this book aims to answer. Fear not, the Dems come in for their share of tough talk— they are zombies, a party of the living dead. Mike

Lofgren came to Washington in the early eighties—those halcyon, post-Nixonian glory days—for what he imagined would be a short stint on Capitol Hill. He has witnessed quite a few low points in his twenty-eight years on the Hill—but none quite so pitiful as the antics of the current crop of legislators whom we appear to have elected. Based on the explosive article Lofgren wrote when he resigned in disgust after the debt ceiling crisis, *The Party Is Over* is a funny and impassioned exposé of everything that is wrong with Washington. Obama and his tired cohorts are no angels but they have nothing on the Republicans, whose wily strategists are bankrupting the country one craven vote at a time. Be prepared for some fireworks.

**Understanding and Overcoming the Destructive Forces That Are**

**Transforming America** Vintage  
The author of *Why Orwell Matters* demonstrates how Thomas Paine's Declaration of the Rights of Man, first published in 1791, a passionate defense of the inalienable rights of humankind, forms the philosophical cornerstone of the United States of America, in an engaging

critical work. Reprint.

*The Party Is Over* Macmillan

The most powerful case yet made for the return of the Parthenon Marbles The Parthenon Marbles (formerly known as the Elgin Marbles), designed and executed by Pheidias to adorn the Parthenon, are perhaps the greatest of all classical sculptures. In 1801, Lord Elgin, then ambassador to the Turkish government, had chunks of the frieze sawn off and shipped to England, where they were subsequently seized by Parliament and sold to the British Museum to help pay off his debts. This scandal, exacerbated by the inept handling of the sculptures by their self-appointed guardians, remains unresolved to this day. In his fierce, eloquent account of a shameful piece of British imperial history, Christopher Hitchens makes the moral, artistic, legal and political case for re-unifying the Parthenon frieze in Athens. The opening of the New Acropolis Museum emphatically trumps the British Museum's long-standing (if always questionable) objection that there is nowhere in Athens to house the Parthenon Marbles. With contributions by Nadine Gordimer and Professor

Charalambos Bouras, *The Parthenon Marbles* will surely end all arguments about where these great treasures belong, and help bring a two-centuries-old disgrace to a just conclusion.

**War, Deceit, Imperial Folly and the Making of the Modern Middle East**

Melville House

The man the *Detroit Free Press* calls "a blue collar Tom Wolfe" delivers a full-barreled blast of truth and gritty reality in *Rivethhead*, a no-holds-barred journey through the belly of the American industrial beast.

*The Parthenon Marbles* Grove Press

Examines black voters' relationship to the political process and to the first black president in a prematurely post-racial America using interviews with members of the Congressional Black Caucus, empirical data, news accounts, academic literature and case law.

*Rivethhead* Bold Type Books

Imagine an everyday world in which the price of gasoline (and oil) continues to go up, and up, and up. Think about the immediate impact that would have on our lives. Of course, everybody already knows how about gasoline has affected our

driving habits. People can't wait to junk their gas-guzzling SUVs for a new Prius. But there are more, not-so-obvious changes on the horizon that Chris Steiner tracks brilliantly in this provocative work. Consider the following societal changes: people who own homes in far-off suburbs will soon realize that there's no longer any market for their houses (reason: nobody wants to live too far away because it's too expensive to commute to work). Telecommuting will begin to expand rapidly. Trains will become the mode of national transportation (as it used to be) as the price of flying becomes prohibitive. Families will begin to migrate southward as the price of heating northern homes in the winter is too pricey. Cheap everyday items that are comprised of plastic will go away because of the rising price to produce them (plastic is derived from oil). And this is just the beginning of a huge and overwhelming domino effect that our way of life will undergo in the years to come. Steiner, an engineer by training before turning to journalism, sees how this simple but constant rise in oil and gas prices will totally re-structure our lifestyle. But what may be surprising to readers is

that all of these changes may not be negative - but actually will usher in some new and very promising aspects of our society. Steiner will probe how the liberation of technology and innovation, triggered by climbing gas prices, will change our lives. The book may start as an alarmist's exercise.... but don't be misled. The future will be exhilarating.  
**\$20 Per Gallon** All Points Books  
 In 2016 the Democratic Party lost control of every branch of government. Countless explanations and excuses have been offered, but in this heartfelt, evocative book longtime Democratic activist Thomas B. Reston illuminates the true cause: the Party has lost its soul. In Reston's view the Party has abandoned any unifying idealistic message. Instead of crafting policies and platforms that appeal to the nation as a whole, Democrats target specific blocs of voters -and change their talking points accordingly. This divisive approach will not end well for Democrats, or the country as a whole. If they want to remain competitive on the national stage, Reston argues, Democrats need a coherent, blunt set of American ideals. The good news is, they already have one. In

Soul of a Democrat, Reston takes us on a journey through the history of the Party with thumbnail portraits of its most important figures, illuminating the core ideals and principles they fought for. Thomas Jefferson founded the Democratic Party to lift up the people as a whole by empowering each individual citizen. Andrew Jackson committed the party to always fight for outsiders. Woodrow Wilson insisted on a progressive respect for ideas. William Jennings Bryan introduced the altruistic Social Gospel. Franklin D. Roosevelt promised economic security for all. Lyndon B. Johnson championed the ongoing struggle for civil rights. These Democratic statesmen knew that a successful party needs strong idealistic roots, an understandable message, and an emphatic focus on the purpose of what it is doing, instead of on the mechanics. Reston's concise and elegant book shows modern Democrats how to learn from their own past, and once again become The Party of The People.  
**The Case for Reunification** University of Virginia Press  
 Presents excerpts on the subject of religion from the writings of such notable

non-believers as John Stuart Mill, Karl Marx, Charles Darwin, Mark Twain, H. L. Mencken, Albert Einstein, Richard Dawkins, and Salman Rushdie.

**The Triangulations of William Jefferson Clinton** Grand Central Publishing

"I did not, I wish to state, become a journalist because there was no other 'profession' that would have me. I became a journalist because I did not want to rely on newspapers for information." Love, Poverty and War: Journeys and Essays showcases America's leading polemicist's rejection of consensus and cliché, whether he's reporting from abroad in Indonesia, Kurdistan, Iraq, North Korea, or Cuba, or when his pen is targeted mercilessly at the likes of William Clinton, Mother Theresa ("a fanatic, a fundamentalist and a fraud"), the Dalai Lama, Noam Chomsky, Mel Gibson and Michael Bloomberg. Hitchens began the nineties as a "darling of the left" but has become more of an "unaffiliated radical" whose targets include those on the "left," who he accuses of "fudging" the issue of military intervention in the Balkans, Afghanistan and Iraq. Yet, as Hitchens shows in his reportage,

cultural and literary criticism, and opinion essays from the last decade, he has not jumped ship and joined the right but is faithful to the internationalist, contrarian and democratic ideals that have always informed his work.

*"No One Left to Lie", "The Missionary Position", "The Trial of Henry Kissinger"* Penguin

Christopher Hitchens, described in the London Observer as "one of the most prolific, as well as brilliant, journalists of our time" takes on his biggest subject yet—the increasingly dangerous role of religion in the world. In the tradition of Bertrand Russell's *Why I Am Not a Christian* and Sam Harris's recent bestseller, *The End Of Faith*, Christopher Hitchens makes the ultimate case against religion. With a close and erudite reading of the major religious texts, he documents the ways in which religion is a man-made wish, a cause of dangerous sexual repression, and a distortion of our origins in the cosmos. With eloquent clarity, Hitchens frames the argument for a more secular life based on science and reason, in which hell is replaced by the Hubble Telescope's awesome view of the

universe, and Moses and the burning bush give way to the beauty and symmetry of the double helix.

*and Other Conversations* Simon and Schuster

The Harper's columnist and author of *The Wrecking Crew* profiles how conservative Republicans have rebounded after the election of Barack Obama, outlining their strategy of total opposition to the liberal state while arguing that their policies further injure victims of the recession.

[Focus On: 100 Most Popular Deaths from Pneumonia](#) Chronicle Books

"Art of Mentoring" series In the book that he was born to write, provocateur and best-selling author Christopher Hitchens inspires future generations of radicals, gadflies, mavericks, rebels, angry young (wo)men, and dissidents. Who better to speak to that person who finds him or herself in a contrarian position than Hitchens, who has made a career of disagreeing in profound and entertaining ways. This book explores the entire range of "contrary positions"-from noble dissident to gratuitous pain in the butt. In an age of overly polite debate bending over backward to reach a happy

consensus within an increasingly centrist political dialogue, Hitchens pointedly pitches himself in contrast. He bemoans the loss of the skills of dialectical thinking evident in contemporary society. He understands the importance of disagreement-to personal integrity, to informed discussion, to true progress-heck, to democracy itself. Epigrammatic, spunky, witty, in your face, timeless and timely, this book is everything you would expect from a mentoring contrarian.

*Eyewitness Account of How Bill Clinton Compromised America's National Security*  
Crown

All Too Human is a new-generation political memoir, written from the refreshing perspective of one who got his hands on the levers of awesome power at an early age. At thirty, the author was at Bill Clinton's side during the presidential campaign of 1992, & for the next five years he was rarely more than a step away from the president & his other advisers at every important moment of the first term. What Liar's Poker did to Wall Street, this book will do to politics. It is an irreverent & intimate portrait of how the nation's weighty business is conducted by

people whose egos & idiosyncrasies are no sturdier than anyone else's. Including sharp portraits of the Clintons, Al Gore, Dick Morris, Colin Powell, & scores of others, as well as candid & revelatory accounts of the famous debacles & triumphs of an administration that constantly went over the top, All Too Human is, like its author, a brilliant combination of pragmatic insight & idealism. It is destined to be the most important & enduring book to come out of the Clinton administration.

*Soul of a Democrat* Bold Type Books  
No One Left to Lie To  
The Triangulations of William Jefferson Clinton  
The American Revolution No One Left to Lie To  
The Triangulations of William Jefferson Clinton

"Just as the necessary qualification for a good liar is a good memory, so the essential equipment of a would-be lie detector is a good timeline, and a decent archive." In NO ONE LEFT TO LIE TO, a New York Times bestseller, Christopher Hitchens casts an unflinching eye on the Clinton political machine and offers a searing indictment of a president who sought to hold power at any cost. With

blistering wit and meticulous documentation, Hitchens masterfully deconstructs Clinton's abject propensity for pandering to the Left while delivering to the Right, and he argues that the president's personal transgressions were ultimately inseparable from his political corruption. Hitchens questions the president's refusals to deny accusations of rape by reputable women and lambasts, among numerous impostures, his insistence on playing the race card, the shortsightedness of his welfare bill, his ludicrous war on drugs, and his abandonment of homosexuals in the form of the Defense of Marriage Act. Opportunistic statecraft, crony capitalism, "divide and rule" identity politics, and populist manipulations-these are perhaps Clinton's greatest and most enduring legacies.

*How the Inevitable Rise in the Price of Gasoline Will Change Our Lives for the Better* Signal

Among his many books, perhaps none have sparked more outrage than *The Missionary Position*, Christopher Hitchens's meticulous and searing study of the life and deeds of Mother Teresa--and it is now

available as a Signal deluxe paperback. A Nobel Peace Prize recipient canonized by the Catholic Church in 2003, Mother Teresa of Calcutta was celebrated by heads of state and adored by millions for her work on behalf of the poor. In his measured critique, Hitchens asks only that Mother Teresa's reputation be judged by her actions--not the other way around. With characteristic elan and rhetorical dexterity, Hitchens eviscerates the fawning cult of Teresa, recasting the Albanian missionary in a light she has never before been seen in.

Blood, Class and Empire Verso

One of the Best Books of the Year: The Christian Science Monitor NPR The Seattle Times St. Louis Post-Dispatch Chicago Tribune A New York Times Notable Book Finalist for the National Book Critics Circle Award in Biography The Arab Revolt against the Turks in World War I was, in the words of T. E. Lawrence, "a sideshow of a sideshow." As a result, the conflict was shaped to a remarkable degree by a small handful of adventurers and low-level officers far removed from the corridors of power. At the center of it all was Lawrence himself. In early 1914 he was an

archaeologist excavating ruins in Syria; by 1917 he was riding into legend at the head of an Arab army as he fought a rearguard action against his own government and its imperial ambitions. Based on four years of intensive primary document research, Lawrence in Arabia definitively overturns received wisdom on how the modern Middle East was formed.

*No One Left to Lie to* Little, Brown

Many liberals are disappointed with Barack Obama. Some talk of "betrayal," while others are writing abject letters to the White House asking the president to come back to his "true self." Chris Hedges, however, is a progressive who doesn't feel betrayed. "Obama was and is a brand," he argues. "He is a product of the Chicago political machine. He has been skillfully packaged by the corporate state." In his newest book, Hedges argues that the conscious inertia of the left is destroying the progressive movement. Inaction and empty moral posturing leads not to change, but to an orgy of self-adulation and self-pity. Hedges argues that the gravest danger we face as a nation is not from the far right, although the right may well inherit power. Instead, the threat

comes from a bankrupt liberal class that has lost the will to fight and the moral courage to stand up for what it espouses.

**Focus On: 100 Most Popular English Emigrants to the United States**

Random House

\*New York Times Bestseller \* One of NPR's Best Books of 2017 A wise and entertaining guide to writing English the proper way by one of the greatest newspaper editors of our time. Harry Evans has edited everything from the urgent files of battlefield reporters to the complex thought processes of Henry Kissinger. He's even been knighted for his services to journalism. In DO I MAKE MYSELF CLEAR?, he brings his indispensable insight to us all in his definite guide to writing well. The right words are oxygen to our ideas, but the digital era, with all of its TTYL, LMK, and WTF, has been cutting off that oxygen flow. The compulsion to be precise has vanished from our culture, and in writing of every kind we see a trend towards more--more speed and more information but far less clarity. Evans provides practical examples of how editing and rewriting can make for better

communication, even in the digital age.

DO I MAKE MYSELF CLEAR? is an essential text, and one that will provide every writer

an editor at his shoulder.
