STOUT KAILEY

Saturday Evening Penguin
8 1/2 x 10 Since publication this title has proved to be very popular for both the serious lens user wishing to understand more about his lenses, as well as the Leica enthusiast considering which lens would be suitable to add to his outfit. Do you know your "Coma from your Aberrations"? If "Yes," then part 2 of Erwin Puts' new book will be of considerable interest to you. Either way you may find this section

easier to understand than you expect; the illustrations and diagrams do help. Part 1 goes into the optical history of E. Leitz, Wetzlar and the Leica Camera of Solms in detail with all the personalities involved. This section is well illustrated with some new pictures. The commercial demands are always battling with the perfectionists at Leica who created some of the world's most famous lenses. Part 2 is an optical digression explaining the lens and glass design features, problems and terms and the continual battle to ensure that Leica users end up with the highest possible standard of lens. Part 3 is the largest part of the book. Puts has tested Leica lenses

from 1925 to date; each lens, in most cases with diagram, is detailed with its performances at the critical apertures.

Nothing is more important than worship. It is the theme of Scripture, the theme of eternity, and the theme of redemptive

history— to worship the true and living and glorious God is the purpose of all creation. So why do we treat it as only what is sung or played in church on Sunday morning? Pastor John MacArthur leads you through Scripture texts about true worship. You will learn that worship is any essential expression of service rendered unto God by a soul that loves and extols Him for who He is. Worship is the nonstop role of believers, not merely part of a church service. So get ready to alter your priorities, aiming higher than entertaining worshipers on Sunday mornings. Worship shows that your ultimate priority must always be to worship the true and living God, with a radically different type of living.

When Good Things Happen To Bad Boys

Little, Brown Books for Young Readers

Sleepless nights spent with a crying baby while balancing between a mother and a mother-in-law who think they know best how to take care of your child. Between an ayah who never washes her hands and a boss irate about the lateness of an important presentation. A husband who, like you, is learning the ropes of parenting, while being silently miffed at your inattention. Sounds familiar? Naomi George has done it all--from discovering that breastfeeding does not necessarily mean maternal bliss to stalking her daughter in playschool to finding the perfect job--before she learnt to find the right balance between being a mother and being a woman. She offers tips from hard-won experience on how best to express milk, sleep-train a baby, handle sibling

conflict and choose the best pre-nursery. More importantly, she tells you how to fight self-doubt and baby blues, and focus on a life other than mothering. Eat right, find time to get back your flat tummy and slim legs, take short breaks to romance with your husband: these are the things that will make you healthier and happier. A must read for every mother, who is yet to learn how to love and care for herself as she does for her little one.

It could be Axel Dean's motto. The sexy physician likes his women with sensual moxie, and Libby Preston definitely seems to fit that bill. There's that naughty grin. That hot bod. Her eager kisses and cheeky insults. Her. . .admitted virginity. Whoa. Okay, cue cold shower. Axel may not be an honorable man, but he has his limits. Except Libby won't take no for an answer. She's determined to have someone show her what she's been missing, and suddenly, Axel can't bear to

think of Libby playing doctor with anyone else. . . USA Today Bestselling Author Erin McCarthy The Lady of the Lake Pro baseball player Dylan Diaz is pretty sure he's going to hell. When you rescue a drowning woman from a lake your first thought should be, "Are you okay?" not, "Can I make mad, passionate love to you?" But the minute sputtering kindergarten teacher Violet Caruthers is on Dylan's boat, that's all he can think about. Maybe it's the potent combo of a nun's personality inside a stripper's body. Maybe it's the way she drives him crazy with desire and laughter. Or maybe, Dylan's finally found what's been missing in his life, and he's not about to let go. . .

UK photographer Stephen Gill has again used his surroundings as the inspiration for this beautiful and evocative series. "Hackney Flowers" evolved from Gill's longstanding interest in Hackney, East London. For this volume, Gill collected flowers, seeds, berries and objects from Hackney, then pressed them in his studio and rephotographed them alongside his own photographs and other found ephemera, thus building up multi-layered images built from the area. Some of the base photographs were also buried in Hackney Wick, allowing the subsequent decay to imprint upon the images, stressing this collaboration with place. A parallel series also runs within this finely produced book, showing members of the Hackney public with floral details on their persons. This is a warm, poetic and visually exciting book containing images that leave an overwhelming sense of color, emotion and rhythm extracted from a single borough of London.

The web has its own language, aesthetics, issues, and problems; yet the

infrastructure and rules of web site design are still in their infancy. Here, the author discusses how Web designers should collaborate with editors and engineers, have an acute understanding of the concept of real-time, master hypertext, know their audience, be wary of multimedia, and create sites that emphasize simplicity and clarity and that users can move through quickly. Drawing on more than 100 interviews, Vuic allows the nurses to tell their own captivating stories, from their reasons for joining the military to the physical and emotional demands of a horrific war and postwar debates about how to commemorate their service. Vuic also explores the gender issues that arose when a male-dominated army actively recruited and employed the services of 5,000 women nurses in the midst of a growing feminist movement and a changing nursing profession. Women drawn to the army's patriotic promise faced disturbing realities in the virtually all-male hospitals of South Vietnam. Men who joined the nurse corps ran headlong into the army's belief that women should nurse and men should fight.
