The UFO Files CreateSpace

What really happened in Roswell, New Mexico in 1947? Was it one UFO or three UFO's? What about survivors? Was the whole incident a fairy tale, a myth, a lie? Did we actually have a live Alien; that was moved to Groom Lake Military Base? Before the Roswell Crash, I had absolutely no interest in UFOs. Then I met Veada, a reptilian Alien. She was uncooperative and somewhat hostile in the beginning, as I attempted to probe her mind for useful information for my government. But my chief engineer Bob Lazar was anxious to find out what made her flying saucer tick. And he was beside himself, when she reluctantly decided to help us 'reverse engineer' her craft. Once she started to assist us, everything changed. This was the most important thing to have ever happened in my entire military career, and I was prevented from telling the world what I would find out.

The latest novel from Nobel Prize winner Toni Morrison. An angry and self-loathing veteran of the Korean War, Frank Money finds himself back in racist America after enduring trauma on the front lines that left him with more than just physical scars. His home--and himself in it--may no longer be as he remembers it, but Frank is shocked out of his crippling

apathy by the need to rescue his medically abused younger sister and take her back to the small Georgia town they come from, which he's hated all his life. As Frank revisits the memories from childhood and the war that leave him questioning his sense of self, he discovers a profound courage he thought he could never possess again. A deeply moving novel about an apparently defeated man finding himself--and his home.

Sia Martinez and the Moonlit Beginning of Everything DIANE Publishing

Without question, this is a classic by one of the most exciting new authors in the UFO field today. After reading it, your view of reality will never be the same. The owl has held a place of reverence and mystique throughout history. And as strange as this might seem, owls are also showing up in conjunction with the UFO experience. Mike Clelland has collected a wealth of first-hand accounts in which owls manifest in the highly charged moments that surround alien contact. There is a strangeness to these accounts that defy simple explanations. This book explores implications that go far beyond what more conservative researchers would dare consider. But the owl connection encompasses more than the UFO experience. It also includes profound synchronicities, ancient archetypes, dreams, shamanistic experiences, personal transformation, and death. From the mythic legends of our ancient past to the first-hand accounts of the UFO abductee, owls are playing some vital role. This is also a deeply personal story. It is an odyssey of self-discovery as the author grapples with his own owl and UFO encounters. What plays out is a story of transformation with the owl at the heart

of this journey.

This thought-provoking book will answer this question and many more in a non speculitive or guessing manner! Though parts of this work are fictional, this is done to connect the vast number of subjects covered in these 600+ pages! This could easily be the UFO "book of the year" for several decades! Aliens from Above Harper Collins

A Science Fiction story based on the best selling book ALIEN INTERVIEW. "There are several obvious reasons that The Domain, and other space civilizations do not land on Earth or make their presence known. It takes a very brave IS-BE to come down through the atmosphere and land on Earth, because it is a prison planet, with a very uncontrolled, psychotic population. And, no IS-BE is entirely proof against the risk of entrapment, as with the members of The Domain Expeditionary Force who were captured in the Himalayas 8,200 years ago." -- excerpt from the book ALIEN INTERVIEW, edited by

The classic work on the evaluation of city form. What does the city's form actually mean to the people who live there? What can the city planner do to make the city's image more vivid and memorable to the city dweller? To answer these questions, Mr. Lynch, supported by

studies of Los Angeles, Boston, and Jersey City, formulates a new criterion—imageability—and shows its potential value as a guide for the building and rebuilding of cities. The wide scope of this study leads to an original and vital method for the evaluation of city form. The architect, the planner, and certainly the city dweller will all want to read this book.

The content of this book is the letter, Top Secret interview transcripts and personal notes received from the late Matilda O'Donnell MacElroy, an Army Air Force nurse who stationed at the Roswell Army Air Field 509th Bomb Group. Her letter asserts that this material is based on a series of interviews she conducted with an extraterrestrial being as part of her official duty as a nurse in the U.S. Army Air Force. During July and August she interviewed a saucer pilot who crashed near Roswell, New Mexico on

July 8th, 1947. The being identified itself as an officer, pilot and engineer of The Domain Expeditionary Force, a race of beings who are using the asteroid belt in our solar system as an intergalactic base of operations.

Interview with an Alien Alien Interviews Addressing a field that has been dominated by astronomers, physicists, engineers, and computer scientists, the contributors to this collection raise questions that may have been overlooked by physical scientists about the ease of establishing meaningful communication with an extraterrestrial intelligence. These scholars are grappling with some of the enormous challenges that will face humanity if an information-rich signal emanating from another world is detected. By drawing on issues at the core of contemporary archaeology and anthropology, we can be much better prepared for contact with an extraterrestrial civilization, should that day ever come.
