Learning in the Fast Lane Penguin

Current research is pushing schools to adopt more student-centered approaches to the classroom experience, and educators—librarians and classroom teachers alike—are being challenged to revise their curricula and instruction to be student-centered, personalized, and differentiated. This book empowers librarians, teachers, and administrators to be empathic problem-solvers and decision-makers. By reframing the challenges that members of a learning community face as opportunities to better meet teaching and learning needs, readers will find that adoption of a mindset focused on users—namely, design thinking—elevates and creates opportunities for innovating pedagogy. Moreover, it can enhance school culture as well as build channels of communication among various stakeholders in schools and districts. When educators of any subject or discipline apply design thinking skills to their curriculum implementation, authentic

student-centered learning experiences become the core of the learning experience. The case studies shared in this book provide examples of student-centered approaches being used in elementary, middle, and high schools, so that readers have many models on which to base their work and from which to build confidence in shifting their pedagogy to keep the student at the center of teaching and learning decisions.

What happens when learning is approached as a creative transaction between teachers, students, texts, and methods? Based on classroom action research conducted in a diverse suburban school district, the author shares a framework that encourages teachers to approach their work with a restorative mindset by focusing on four elements of instruction: methods; literature; relationships; and culture, identity, and language. In each chapter, Faughey shares a scenario or problem from her ELA classroom, the action she took to address it, and the outcomes. Examples include a 9th-grade classroom where students developed podcasts to share their thinking about Romeo and Juliet, a 10th-grade classroom where multilingual learners created graphic essays to share their

comparative analysis of Things Fall Apart and the film Black Panther, and a 12th-grade classroom where students reimagined Dracula in order to connect personally with the text through restorying. This accessible text provides resources, lesson plans, and examples of student work, as well as suggestions for teacher preparation programs. Book Features: Shares the perspective of a classroom teacher who understands the daily interactions teachers have with students, as well as the possibilities and limitations of teaching in today's schools. Demonstrates a problem-solving thought process with a step-by-step explanation of the author's teaching process. Includes vivid anecdotes about students, pictures of students working together, and examples of student work. Situates each scenario within a body of theoretical and research literature, introducing concepts such as cosmopolitan theory, reader response theory, and literary theory. Offers lesson plans, rubrics, and handouts that teachers can use to inform their own practice. Provides lists of podcasts, videos, articles, and books that can be used when teaching classic texts such as The Great Gatsby, as well as multicultural texts like Things Fall Apart." It's not enough for students to just understand a text. In order for students to achieve academic excellence and succeed in today's society, they must also be able to exercise critical awareness over what they read. But how do you cultivate comprehension and help kids sharpen their analytical skills? The answer, writes Barbara King-Shaver, lies in thinking outside the book by studying texts in tandem. In *When Text Meets Text*, King-Shaver lays out rationales and strategies for using an approach called intertextuality, where a reading of carefully paired texts increases students' grasp of content while honing their command of crucial critical tools. Making connections among texts, students delve deeper into each by observing similarities and differences in literary characteristics such as syntax, plot, character, and structure, propelling them toward greater meaning making. King-Shaver presents the research supporting intertextual instruction, techniques for adding it to your curriculum, suggestions for a wide array of books to teach together, and, best of all, practical ideas for units of study covering key aspects of teaching literature, including: genre theme author archetypes. Find an exciting new way to build literature connections in your classroom, as you extend the comprehension abilities of your students. Read Barbara King-Shaver's *When Text Meets Text*, and find out why two texts are better than one.

Written by leaders in the field of literacy and language arts Education, this volume defines Dialogic Literary Argumentation, outlines its key principles, and provides in-depth analysis of classroom social practices and teacher-student interactions to illustrate the possibilities of a social perspective for a new vision of teaching, reading and understanding literature. Dialogic Literary Argumentation builds on the idea of arguing to learn to engage teachers and students in using literature to explore what it means to be human situated in the world at a particular time and place. Dialogic Literary Argumentation fosters deep and complex understandings of literature by engaging students in dialogical social practices that foster dialectical spaces, intertextuality, and an unpacking of taken-for-granted assumptions about rationality and personhood. Dialogic Literary Argumentation offers new ways to engage in argumentation aligned with new ways to read literature in the high school classroom. Offering theory and analysis to shape the future use of literature in secondary classrooms, this text will be great interest to researchers, graduate and postgraduate students, academics and libraries in the fields of English and Language Arts Education, Teacher Education, Literacy Studies, Writing and Composition.

Learn the Secret to Success in AP U.S. History! Ever wonder why learning comes so easily to some people? This remarkable workbook reveals a system that shows you how to learn faster, easier and without frustration. By mastering the hidden language of the course and exams, you will be poised to tackle the toughest of questions with ease. We've discovered that the key to success in AP United States History lies with mastering the Insider's Language of the subject. People who score high on their exams have a strong working vocabulary in the subject tested. They know how to decode the course vocabulary and use this as a model for test success. People with a strong Insider's Language consistently: Perform better on their Exams Learn faster and retain more information Feel more confident in their courses Perform better in upper level courses Gain more satisfaction in learning The Advanced Placement U.S. History Vocabulary Workbook is different from traditional review books because it focuses on the exam's Insider's Language. It is an outstanding supplement to a traditional review program. It helps your preparation for the exam become easier and more efficient. The strategies, puzzles, and questions give you enough exposure to the Insider Language to use it with confidence and make it part of your long-term memory. The AP U.S. History Vocabulary Workbook is an awesome tool to use before a course of study as it will help you develop a strong working Insider's Language before you even begin your review. Learn the Secret to Success! After nearly 20 years of teaching Lewis Morris discovered a startling fact: Most students didn't struggle with the subject, they struggled with the language. It was never about brains or ability. His students simply didn't have the knowledge of the specific language needed to succeed. Through experimentation and research, he discovered that for any subject there was a list of essential words, that, when mastered, unlocked a student's ability to progress in the subject. Lewis called this set of vocabulary the "Insider's Words". When he applied these "Insider's Words" the results were incredible. His students began to learn with ease. He was on his way to developing the landmark series of workbooks and applications to teach this "Insider's

Language" to students around the world.

"More than three million high-school students take five million Advanced Placement exams each May, yet remarkably little is known about how this sixty-year-old, privately-run program, has become one of U.S. education's greatest successes. From its mid-century origin as a tiny option for privileged kids from posh schools, AP has also emerged as a booster rocket into college for hundreds of thousands of disadvantaged youngsters. It challenges smart kids, affects school ratings, affords rewarding classroom challenges to great teachers, tunes up entire schools, and draws vast support from philanthropists, education reformers and policymakers. AP stands as America's foremost source of college-level academics for high school pupils. Praised for its rigor and integrity, more than 22,000 schools now offer some-or many-of its thirty-eight subjects, from Latin to calculus, art to computer science. But challenges abound today, as AP faces stiffening competition (especially dual credit), curriculum wars, charges of elitism, misgivings by elite schools and universities, and the arduous work of infusing rigor into schools that lack it and academic success into young people unaccustomed to it. In today's polarized climate, can Advanced Placement maintain its lofty standards and overcome the hostility, politics and despair that have sunk so many other bold education ventures? Advanced Placement: The Unsung Success Story of American Education is a unique account-richly documented and thoroughly readable-of the AP program in all its strengths and travails, written by two of America's most respected education analysts"--

Inspiring Dialogue helps new English teachers make dialogic teaching practices a central part of their development as teachers, while also supporting veteran teachers who would like new ideas for inspiring talk in their classrooms. Chapter by chapter, the book follows novice teachers as they build a repertoire of practices for planning for, carrying out, and assessing their efforts at dialogic teaching across the secondary English curriculum. The text also includes a section to support dialogic teacher learning communities through video study and discourse analysis. Providing a thorough discussion of the benefits of dialogic curriculum in meeting the objectives of the Common Core State Standards, this book with its companion website is an ideal resource for teacher development. Book Features: Dialogic tools for step-by-step planning within a lesson, over the course of a unit, or during an entire academic year.A user-friendly, interactive layout designed for new teachers who are pressed for time.Classroom examples addressing the challenges English teachers may face in stimulating rich learning talk in an era of standardization. A companion website with additional examples, activities, and course material. "Real talk. Real classrooms. Real students. The authors of Inspiring Dialogue have given teacher education programs a tool for introducing dialogic teaching in culturally and linguistically diverse classrooms while meeting Common Core State Standards objectives." —Maisha T. Winn, Susan J. Cellmer Chair in English Education, University of Wisconsin-Madison, author of *Girl Time: Literacy, Justice and the School-to-Prison Pipeline* "Inspiring Dialogue covers a comprehensive and practical set of tools and strategies for implementing dialogic instruction. . . . It is a program that has been fully tested at Michigan State University in one of the most thorough and carefully crafted teacher education programs nationally." —From the Foreword by Martin Nystrand, professor emeritus, University of Wisconsin-Madison "One of the most exciting aspects of English language arts is the discussion that can occur in the classroom. For many teachers, however, it is often a struggle to structure and implement real dialogue. Inspiring Dialogue provides specific guidance to encourage authentic conversations between teachers and students with practical advice for implementation." —Leila Christenbury Chair, Department of Teaching and Learning, Commonwealth Professor, English Education, School of Education, Virginia Commonwealth University Mary M. Juzwik is associate professor of language and literacy in the Department of Teacher Education at Michigan State University (MSU), and co-editor of the journal *Research in the Teaching of English*. Provoking Curriculum Studies pushes forward a strong reading of the theoretical and methodological innovations taking place within curriculum studies research. Addressing an

important gap in contemporary curriculum studies—conceptualizing scholars as poets and the potential of the poetic in education—it offers a framework for doing curriculum work at the intersection of the arts, social theory, and curriculum studies. Drawing on poetic inquiry, psychoanalysis, phenomenology, life writing, and several types of arts-based research methodologies, this diverse collection spotlights the intellectual genealogies of curriculum scholars such as Ted Aoki, Geoffrey Milburn and Roger Simon, whose provocations, inquiries, and recursive questioning link the writing and re-writing of curriculum theory to acts of strong poetry. Readers are urged to imagine alternative ways in which professors, teachers, and university students might not only engage with but disrupt, blur, and complicate curriculum theory across interdisciplinary topographies in order to seek out blind impresses—those areas of knowledge that are left over, unaddressed by 'mainstream' curriculum scholarship, and that instigate difficult questions about death, trauma, prejudice, poverty, colonization, and more.
