Molecular Biology of the Cell (MBoC)
What is your favorite class? My favorite MCB class has been MCB 150 (Molecular Immunology). The class is structured to help you understand the basis of

immunology and then challenges you to apply that knowledge to common diseases that we've all heard of.
Department of Molecular & Cell Biology
Cell and Molecular Biology Online, an informational resource for cell and molecular biologists. Features resources for biology research and education, including protocols, lab home pages, journals, grants, professional societies, conferences, career information, online courses and biological images.
Cell and Molecular Biology Online
The Cell and Molecular Biology Graduate Group (CAMB) is an

interdisciplinary graduate program, providing rigorous training in modern cell and molecular biology. Within this integrated program are six discipline areas: Cancer Biology (CB); Cell Biology, Physiology, and Metabolism (CPM); Developmental, Stem Cell, and Regenerative Biology (DSRB); Genetics and Epigenetics (G&E); Gene Therapy and ...Welcome to CAMB | Cell & Molecular Biology Graduate Group ...After starting an NSF-funded collaboration with Associate Professor of Pharmaceutical Sciences Marcy Balunas, Spencer Nyholm, associate professor in the Department of Molecular and Cell

Biology, began studying the squid's specialized reproductive gland, called the accessory nidamental gland, whose function was until then the subject of speculation.Home | Department of Molecular and Cell BiologyCell Reports Medicine is an open access journal publishing original concepts in translational and clinical researchCell Press: Molecular CellRobert Brzozowski, a Ph.D. student in the laboratory of Dr. Prahathees Eswara was presented with the 2019 Outstanding Student Researcher Award at the Moffitt Cancer Biology-CMMB Reception for Fall 2019 semester.
