Guns of the Civil War Henry Holt and Company

Winner of the Newbery Medal * An ALA Notable Children's Book * Winner of the Lewis Carroll Shelf Award A captivating and richly detailed novel about one young soldier who saw the Civil War from both sides and lived to tell the tale. Earnest, plain-spoken sixteen-year-old Jeff Bussey has finally gotten his father's consent to

join the Union volunteers. It's 1861 in Linn County, Kansas, and Jeff is eager to fight for the North before the war is over, which he's sure will be soon. But weeks turn to months, the marches through fields and woods prove endless, hunger and exhaustion seem to take up permanent residence in Jeff's bones, and he learns what it really means to fight in battle—and to lose friends. When he finds himself among enemy troops, he'll have to put his life on the line to advance the Union cause. Thoroughly researched and based on firsthand accounts, Rifles for Watie

"should hold a place with the best Civil War fiction for young people" (The Horn Book). A strong choice for independent reading and for sharing in a classroom and for homeschooling. As a homeschool cooperative teacher commented: "The book has launched many discussions in our class. When a person is on one side of a conflict, it is important to remember that people on the other side are also people. Jeff is a perfect model for how treating people with respect can happen even in war."

"The Guns of Bull Run" is the first in a series of eight books chronicling the Civil War. The Guns of Bull Run follows the adventures of Harry Kenton, a Southern sympathizer from Kentucky, who travels to South Carolina to volunteer his services to the new Confederacy. He soon finds himself swept up into greater events, being present at the inauguration of Jefferson Davis, the firing on Fort Sumter, and on to the battle of Bull Run. Written in 1913, this gripping story will transport readers back to a different place and time. Joseph Altsheler does a good job of presenting the Southern side in a realistic, non-preachy manner. Highly recommended to anyone interested in the Civil War.

Shocked by the epidemic of gun violence in America, acclaimed writer Peter Manseau found himself absorbed by the 'melancholy accidents' that appeared in 19th century newspapers: daily accounts of accidental gun deaths that seemed as unfortunate as they were unavoidable. In *Melancholy Accidents*, Manseau collects, annotates and introduces many of these articles, painting a devastating portrait of America's long, bloody relationship with firearms.

Winter of 1864, General Robert E. Lee finds himself and his Army of Northern Virginia huddled on the banks of the Rapidan, trying to fight a war despite meager rations and a terrible lack of equipment - indeed, some of his men do not even have shoes. But when Lee finds a way to arm his forces, the tide suddenly turns; the rebels win a decisive victory at the Battle of Wilderness. Lee presses his advantage, marching on Washington. But if Lincoln surrenders, and the

He soon finds himself swept up into greater events, being present at the inauguration of Jefferson Davis, the firing on Fort Sumter, and on to the battle of Bull Run. Written in 1913, this gripping story will transport readers back to a different place and time. Joseph Altsheler does a good job of presenting the Southern side in a realistic, non-preachy manner. Highly recommended to anyone interested in the Civil War...Joseph Alexander Altsheler (April 29, 1862 - June 5, 1919) was an American newspaper reporter, editor and author of popular juvenile historical fiction. He was a prolific writer, and produced fifty-one novels and at least fifty-three short stories. Thirty-two of his novels were part of his seven series: The Civil War Series (8 volumes)The French and Indian War Series (6 volumes)The Gold Series (2 volumes)The Great West Series (2 volumes)The Texan Series (3 volumes)The World War Series (3 volumes)The Young Trailers Series (8 volumes)Although each

of the thirty-two novels constitutes an independent story, Altsheler suggested a reading order for each series (i.e., he numbered the volumes). The remaining nineteen novels can be read in any order. [Note, however, that *A Knight of Philadelphia* was later expanded through the addition of nineteen chapters and some minor tweaks to become *Mr. Altsheler's novel In Hostile Red*.] The short stories, of course, can be read in any order. However, some readers might prefer to read them in the order in which they were published. The short story list below is displayed in chronological order with the publication dates shown alongside the titles.

Early life and education Altsheler was born in Three Springs, Hart County, Kentucky, to Joseph and Louise (née Snoddy) Altsheler. He attended Liberty College in Glasgow, Kentucky, before entering Vanderbilt University. **Career** In 1885, he took a job at the Louisville Courier-Journal as a reporter and later worked as an editor. He started working for the New York World in 1892, first as the paper's Hawaiian correspondent and then as the editor of the World's tri-weekly magazine. Due to a

lack of suitable stories, he began writing children's stories for the magazine. **Personal life** Altsheler married Sarah Boles on May 30, 1888; they had one son, Sidney. Altsheler and his family were in Germany in 1914 when World War I began, and they were forced to remain in Germany for a time. The hardships the Altshelers endured in returning to the U.S. damaged Altsheler's health and rendered him a semi-invalid until his death. Upon returning to the U.S., he wrote *The World War Series* of books based on his ordeal. **Death** Altsheler died in New York City on June 5, 1919, aged 57; his obituary appeared in *The Evening World*, on June 6, 1919. His widow, Sarah, died 30 years later. Both are buried at the Cave Hill Cemetery in Louisville, Kentucky.

In 1941 the European war ended in the *Farthing Peace*, a rapprochement between Britain and Nazi Germany. The balls and banquets of Britain's upper class never faltered, while British ships ferried "undesirables" across the Channel to board the cattle cars headed east. Peter Carmichael is commander of the Watch,

Britain's distinctly British secret police. It's his job to warn the Prime Minister of treason, to arrest plotters, and to discover Jews. The midnight knock of a Watchman is the most dreaded sound in the realm. Now, in 1960, a global peace conference is convening in London, where Britain, Germany, and Japan will oversee the final partition of the world. Hitler is once again on British soil. So is the long exiled Duke of Windsor—and the rising gangs of "British Power" streetfighters, who consider the Government "soft," may be the former king's bid to stage a coup d'état. Amidst all this, two of the most unlikely persons in the realm will join forces to oppose the fascists: a debutante whose greatest worry until now has been where to find the right string of pearls, and the Watch Commander himself. From the New York Times bestselling author of *White Rage*, an unflinching, critical new look at the Second Amendment and how it has been engineered to deny the rights of African Americans since its inception. In *The Second*, historian and award-winning,

bestselling author of *White Rage* Carol Anderson powerfully illuminates the history and impact of the Second Amendment, how it was designed, and how it has consistently been constructed to keep African Americans powerless and vulnerable. *The Second* is neither a "pro-gun" nor an "anti-gun" book; the lens is the citizenship rights and human rights of African Americans. From the seventeenth century, when it was encoded into law that the enslaved could not own, carry, or use a firearm whatsoever, until today, with measures to expand and curtail gun ownership aimed disproportionately at the African American population, the right to bear arms has been consistently used as a weapon to keep African Americans powerless--revealing that armed or unarmed, Blackness, it would seem, is the threat that must be neutralized and punished. Throughout American history to the twenty-first century, regardless of the laws, court decisions, and changing political environment, the Second has consistently meant this: That the second a Black person exercises this right, the second they pick up a gun to protect themselves (or the second that they

don't), their life--as surely as Philando Castile's, Tamir Rice's, Alton Sterling's-- may be snatched away in that single, fatal second. Through compelling historical narrative merging into the unfolding events of today, Anderson's penetrating investigation shows that the Second Amendment is not about guns but about anti-Blackness, shedding shocking new light on another dimension of racism in America.

In its last decades, the apartheid regime was confronted with an existential threat. While internal resistance to the last whites-only government grew, mandatory international sanctions prohibited sales of strategic goods and arms to South Africa. To counter this, a global covert network of nearly fifty countries was built. In complete secrecy, allies in corporations, banks, governments and intelligence agencies across the world helped illegally supply guns and move cash in one of history's biggest money laundering schemes. Whistleblowers were assassinated and ordinary people suffered. Weaving together archival material, interviews and newly declassified documents, *Apartheid Guns and Money* exposes some of the darkest secrets of apartheid's economic crimes, their murderous consequences, and those who profited: heads of state, arms dealers, aristocrats, bankers, spies, journalists and secret lobbyists. These revelations, and the difficult questions they pose, will both

allow and force the new South Africa to confront its past.

An engrossing investigation into the true crime story of a sixteen-year family feud that ended in murder in early twentieth-century South Carolina. As compelling as fiction, *The Guns of Meeting Street* reconstructs a series of murders from the early 1940s that rocked rural Edgefield County, South Carolina. Featuring a cast of unlikely antagonists—a prominent store owner, an elementary school teacher, and a law enforcement officer—the acts of revenge resulted in five murders and a trio of executions, including that of the first woman to be electrocuted in South Carolina. Through interviews with members of the two families involved, T. Felder Dorn probes the longstanding feud between the Logues and the Timmermans to uncover this chilling plot of resentment, revenge, and violence. Dorn's careful research weaves together the oral history of family members affected by the shooting with court transcripts, prisoner confessions, and coroners' reports to produce a truly gripping account of the

events. Although most of the deaths took place between 1940 and 1943, the roots of this tragedy can be traced back to killings that occurred in the Meeting Street community in the 1920s. The story climaxes on January 15, 1943, with the execution, within a single hour, of Sue Stidham Logue, George Logue, and Clarence Bagwell for the murder of Davis Timmerman. Dorn's saga concludes with the 1960 parole and rehabilitation of Joe Frank Logue Jr., the only one of Timmerman's killers to escape capital punishment. Not for the faint of heart, *The Guns of Meeting Street* details the circumstances and motivations for the killings, the complexities of the court cases, and the involvement in the proceedings of South Carolina governors Richard Manning Jefferies, Olin D. Johnston, and J. Strom Thurmond. "If you have any interest in history or true crime, *The Guns of Meeting Street* is a winner." —Spartanburg Herald Journal "Dorn's rigorously researched book unfolds in a clear, straightforward style that renders the events all the more disturbing." —The State "Dorn's extremely impressive book has all the elements—is fascinating in its

entirety. And for every reader who loves a good mystery, *The Guns of Meeting Street* is available to intrigue, inform, incite and excite. It'll never get a chance to gather dust on any bookshelf." —Union (N.J.) Leader

Learn about the evolution of weapons by studying the design of the Civil War weapons cataloged in this attractive, full-color reference book. More than three million Americans fought in the Civil War and over six hundred thousand men, or two percent of the population, died in this dreadful conflict. Its impact is still felt today, for the war shaped our nation, and our national character. Studying the weapons used by both the Union army and Confederate forces tells an intriguing story of its own. The well-equipped Union army had access to the best of the industrial North's manufacturing output. By contrast, the South had to get by with imported arms and locally made copies of patented weapons. But the pressure of war quickly led to improvements in both sides' firearms. A War that began with single-shot horse pistols ended with multi-shot

revolvers. Poignant archive photography is used throughout the book, showing the weapons in contemporary action, and placing them in their Civil War context. Evocative paintings by renowned Civil War artist Don Troiani bring the battlefield action to life.
