Elements of Costing McGraw-Hill Education

Financial Accounting for BBA has been written to meet the requirements of undergraduate students, particularly at the BBA level. This book covers the syllabi of major universities across the country, providing basic knowledge of accounting principles and practices in a systematic manner. The topics have been dealt with in a lucid manner to enable better understanding, especially for those students who do not have an accounting background. The text is examination-oriented and is supplemented with relevant solved illustrations for all the topics.

Economic Development and Economic Growth Vikas Publishing House

This book has been written specifically for the students of BCom (Hons) of the University of Delhi in accordance with its prescribed syllabus and that of School of Open Learning. Its basic features are the same as the mother book Cost Accounting—Principles and Practice, which is a UGC recommended text for the last many years. Thus, it gives a thorough grounding in cost concepts,

cost behaviour, and costing methods. The subject matter has been organized on 'first things first' basis to sustain the interest of the students. Every discussion involving conceptual difficulties is immediately followed by a numerical example.

Financial Accounting for BBA SBPD Publishing House

Financial Reporting and Financial Statement Analysis has been designed as per the CBCS syllabus prescribed by University of Calcutta and other allied universities of West Bengal for 6th Semester B.Com students. The book is primarily intended for third year B.Com students but would also be useful for students of professional courses such as CA, CS and CMA. The content has been presented in a systematic manner (theory-illustrations-practice problems) with elaborate explanation on core topics. The Companies Act, 2013, along with Company rules 2014 have been covered in detail. Abundant Solved Examples, illustrations with detailed working notes, previous years' questions and solutions, and practice questions will greatly benefit the students and help them master the subject. Salient Features: 1. In accordance with the CBCS syllabus prescribed by University of Calcutta and other allied universities of West Bengal Financial for 6th Sem, B. Com students 2. Thorough coverage of The Companies Act, 2013, and Company rules 2014 along with

recent amendments and rules updated till 2018 3. New Chapter on "Accounting Standards" which covers AS 1, 16 and 33. 4. Dedicated section on previous year questions with solutions incorporated in every chapter. 5. Include problems from latest professional examinations (CA, ICWA, CS, CMA) which will prove useful for meritorious students.

2019 Pearson Education India

The salient features of the present edition are: All the Problems and Solutions have been thoroughly revised in the light of up-to-date amendments in Income tax Law and Rules for Assessment Year 2020-21. Almost all numerical questions given at the end of the chapters of the authors' other publications on Income-tax (viz., Income-tax Law and Accounts, Aaykar Vidhan evam Lekhe, Law and Practice of Income-tax) have been solved in this book and the number printed within brackets at the end of the questions in other publications is the problem number of this book. The selection and sequence of the questions are well planned and systematic so as to cover all ticklish points within a reasonable number of questions. Wherever needed, detailed explanatory notes have been given at the end of solutions. Candidates preparing for C.A., Company Secretaries, Cost and Works Accountants, and Income-tax Departmental Examinations,

will, particularly, find the book very useful. It will also be useful for candidates preparing for B.Com. and M.Com. Examinations of various Indian Universities.

Spicer and Pegler's Practical Auditing McGraw-Hill Education

The charm of Mathematical Physics resides in the conceptual difficulty of understanding why the language of Mathematics is so appropriate to formulate the laws of Physics and to make precise predictions. Citing Eugene Wigner, this "unreasonable appropriateness of Mathematics in the Natural Sciences" emerged soon at the beginning of the scientific thought and was splendidly depicted by the words of Galileo: "The grand book, the Universe, is written in the language of Mathematics." In this marriage, what Bertrand Russell called the supreme beauty, cold and austere, of Mathematics complements the supreme beauty, warm and engaging, of Physics. This book, which consists of nine articles, gives a flavor of these beauties and covers an ample range of mathematical subjects that play a relevant role in the study of physics and engineering. This range includes the study of free probability measures associated with p-adic number fields, non-commutative measures of quantum discord, non-linear Schrödinger equation analysis, spectral operators related to holomorphic extensions of series expansions, Gibbs phenomenon, deformed wave equation analysis, and optimization methods in the numerical study of material properties.

A solid understanding of how banks operate is crucial to grasp the functioning of modern society. Banks are an intrinsic part of business, finance, and everyday life. Modern banking is regulated by a sophisticated set of laws and regulations that are constantly evolving. Banking Law and Practice from the Hong Kong Institute of Bankers outlines and explains these laws and regulations clearly and in detail. This regulatory framework has a deep impact on banks, bankers, and anyone that deals with them, which is the overwhelming majority of society. This high level of impact makes Banking Law and Practice an important book as well as a necessary and authoritative reference for industry professionals, students, and the public at large. Banking Law and Practice discusses a range of topics that have a direct bearing on the day-to-day operations of banks, from contracts to how to ensure safe and secure lending. It examines the development and current state of banking legislation and regulation and facilitates bankers and their institutions to shape their practice to meet all the necessary legal and regulatory requirements. Students, industry professionals, and the public at large will welcome the thorough and clear explanations of the legal and regulatory framework in which banks operate. This book is essential reading for candidates studying for the HKIB Associateship Examination and anyone else seeking expert knowledge of the legal and regulatory structure affecting banks in Hong Kong. Topics covered in this book include: Contractual Relationships Code of Banking Practice Money Laundering Negotiable Instruments Law Related to Securities Bankruptcy and Insolvency
