An Introduction to Language  
Revitalization Createspace Independent  
Publishing Platform  
This book examines how style and  
intersubjective meanings emerge  
through language use. It is innovative in  
theoretical scope and empirical focus. It  
brings together insights from discourse-  
functional linguistics, stylistics, and

conversation analysis to understand how  
language resources are used to enact  
stances in intersubjective space. While  
there are numerous studies devoted to  
youth language, the focus has been  
mainly on face-to-face interaction. Other  
types of youth interaction, particularly in  
mediated forms, have received little  
attention. This book draws on data from  
four different text types - conversation,  
e-forums, comics, and teen fiction - to  
highlight the multidirectional nature of  
style construction. Indonesia provides a

rich context for the study of style and intersubjectivity among youth. In constructing style, Indonesian urban youth have been moving away from conventions which emphasized hierarchy and uniformity toward new ways of connecting in intersubjective space. This book analyzes how these new ways are realized in different text types. This book makes a valuable addition to sociolinguistic literature on youth and language and an essential reading for those interested in Austronesian sociolinguistics.

What's an honorable Scot to do when a beautiful woman washes ashore beneath the family castle? Give her to his

brother? When Tavish Graham stumbles upon the naked body of Sophie d'Alembert, he thinks she is dead. But it doesn't take him long to discover that Sophie is very much alive and more woman than he can handle, so he leaves her with his brother, James, the Earl of Monleigh. Beautiful, young and French, Sophie finds herself in the wild, strange land of the Scots. Terrified and not willing to trust James, she fails to tell him that she is the granddaughter of Louis XIV-and that she is fleeing a forced marriage to the hated English Duke of Rockingham. Reluctantly, Sophie begins to fall in love with the rugged Highlander. And before she can reveal the truth of her past, James discovers her royal connection, and wonders what else she is keeping from him. Can James

resist her, or will he defy the might of England and France for a lover as wild and passionate as himself?

This work contains the first comprehensive description of Abui, a language of the Trans New Guinea family spoken approximately by 16,000 speakers in the central part of the Alor Island in Eastern Indonesia. The description focuses on the northern dialect of Abui as spoken in the village Takalelang. This study is based on primary data collected by the author on Alor. With Pantar island, Alor Island is the western-most area where Papuan languages are spoken. Abui syntax is characterized by rigid head-final word order. The language presents a number of typologically interesting features such as semantic alignment. Characteristic for Abui is the extensive use of generic verbs. Generic verbs appear as parts of

complex verbs or in serial verb constructions. This grammar covers the phonology, morphology and basic syntax of Abui. The appendix contains several Abui texts and word lists. Not being written against any particular theoretical background, this book is of interest to scholars of both Papuan and Austronesian languages, as well as linguistic typology.

School refusal affects up to 5% of children and is a complex and stressful issue for the child, their family and school. The more time a child is away from school, the more difficult it is for the child to resume normal school life. If

school refusal becomes an ongoing issue it can negatively impact the child's social and educational development.

Psychologist Joanne Garfi spends most of her working life assisting parents, teachers, school counsellors, caseworkers, and community policing officers on how best to deal with school refusal. Now her experiences and expertise are available in this easy-to-read practical book. Overcoming School Refusal helps readers understand this complex issue by explaining exactly what school refusal is and provides them with a range of strategies they can use to assist children in returning to school. Areas covered include: • types of school refusers • why children refuse to go to school • symptoms • short term and long term consequences • accurate

assessment • treatment options • what parents can do • what schools can do • dealing with anxious high achievers • how to help children on the autism spectrum with school refusal
