"All about the USA 4 is a high-intermediate reader for students of English as a second language. Twenty-four units will introduce typically American people, places, and things. A host of facts presented in the units will not only provide students with information about the USA but will also stimulate cross-cultural exchange. The vocabulary and structures used in the text have been carefully controlled at a high-intermediate level, while every effort has been made to keep the language natural."--P. iv.

The Story of Dolores Huerta and Cesar Chavez/La historia de Dolores Huerta y Cesar Chavez Pearson

Teaching Gradually is a guide for anyone new to teaching and learning in higher education. Written for graduate student instructors, by graduate students with substantive teaching experience, this resource is among the first of its kind to speak to graduate students as comrades-in-arms with voices from alongside them in the trenches, rather than from far behind the lines. Each author featured in this book was a graduate student at the time they wrote their contribution. Consequently, the following chapters give scope to a newer, diverse generation of educators who are closer in experience and professional age to the book's intended audience. The tools, methods, and ideas discussed here are ones that the authors have found most useful in teaching today's students. Each chapter offers a variety of strategies for successful classroom practices that are often not explicitly covered in graduate training. Overall, this book consists of 42 chapters written by 51 authors who speak from a vast array of backgrounds and viewpoints, and who represent a broad spectrum of experience spanning small, large, public, and private institutions of higher education. Each chapter offers targeted advice that speaks to the learning curve inherent to early-career teaching, while presenting tangible strategies that readers can leverage to address the dynamic professional landscape they inhabit. The contributors' stories and reflections provide the context to build the reader's confidence in trying new approaches in their his or her teaching. This book covers a wide range of topics designed to appeal to graduate student instructors across disciplines, from those teaching discussion sections, to those managing studio classes and lab sessions, to those serving as the instructor of record for their own course. Despite the medley of content, two common threads run throughout this volume: a strong focus on diversity and inclusion, and an acknowledgment

of the increasing shift to online teaching. As a result of engaging with Teaching Gradually, readers will be able to: Identify best teaching practices to enhance student learning Develop a plan to implement these strategies in their teaching Expand their conception of contexts in which teaching and learning can take place Evaluate and refine their approaches to fostering inclusion in and out of the classroom Assess student learning and the efficacy of their own teaching practices Practice professional self-reflection

Winner of the Alex Award "Mike Muñoz Is a Holden Caulfield for a New Millennium--a '10th-generation peasant with a Mexican last name, raised by a single mom on an Indian reservation' . . . Evison, as in his previous four novels, has a light touch and humorously guides the reader, this time through the minefield that is working-class America." --The New York Times Book Review For Mike Muñoz, life has been a whole lot of waiting for something to happen. Not too many years out of high school and still doing menial work--and just fired from his latest gig as a lawn boy on a landscaping crew--he's smart enough to know that he's got to be the one to shake things up if he's ever going to change his life. But how? He's not qualified for much of anything. He has no particular talents, although he is stellar at handling a lawn mower and wielding clipping shears. But now that career seems to be behind him. So what's next for Mike Muñoz? In this funny, biting, touching, and ultimately inspiring novel, bestselling author Jonathan Evison takes the reader into the heart and mind of a young man determined to achieve the American dream of happiness and prosperity--who just so happens to find himself along the way.
