A Sunday Times Book of the Year All royalties from sales of this book go to The Big Issue If you could write a letter to your younger self, what would it say? Over 10 years ago, The Big Issue began to ask some of the best-known, most interesting and most successful figures in entertainment, politics, food, sport and business to give advice, offer hope and share a few jokes with their younger selves. They opened up, in ways they never had, to interviewer Jane Graham, reflecting on their lives and themselves with affection, sympathy and sometimes disbelief. This collection of 100 of the most incredible letters includes Paul McCartney on how he found inspiration, Olivia Colman on overcoming

confidence problems, Mo Farah on the importance of losing, Arianna Huffington on knowing your motivations, Jamie Oliver on trusting your instinct and many, many more, including Rod Stewart, Margaret Atwood, Buzz Aldrin, David Cameron, Eddie Izzard, Desmond Tutu, Neil Gaiman, Ruby Wax, Ranulph Fiennes, Tracey Emin, Ian McEwan, Michael Palin, Melanie C, Tim Peake, Dionne Warwick and Ewan McGregor. Letter to My Younger Self is a revelatory and profound exploration into the wit and wisdom that age brings, and of the unique insights that looking back can reveal. Proceeds from the sales of this book go to The Big Issue to continue their work dismantling poverty and promoting social justice. "A truly wonderful book ... a gateway to intelligent, learned and genuinely inspiring stories, moments and people ... We would highly recommend it ... It's a fab cause and put together seamlessly." Magic Radio - October Book Club Pick 'The answers make for great reading.' Sunday Mirror 'This collection is full of insightful stories that will make you think about how you live your own life, and how you want to live it in the future.' Woman's Weekly

There are few days in American history so immortalized in public memory as November 22, 1963, the date of President John F. Kennedy's assassination. Adding to the wealth of information about this tragic day is *We Were There*, a truly unique collection of firsthand accounts from the doctors and staff on scene at the hospital where JFK was immediately taken after he was shot. With the help of his former fellow staff members at Parkland Memorial Hospital, Dr. Allen Childs recreates the horrific day, from the president's arrival in Dallas to the public announcement of his death. Childs presents a multifaceted and sentimental reflection on the day and its aftermath. In addition to detailing the sequence of events that transpired around JFK's death, *We Were There* offers memories of the First Lady, insights on conspiracy theories revolving around the president's assassination, and recollections of the death of Lee Harvey Oswald, who succumbed two days later in the same hospital where his own victim was pronounced dead. A compelling, emotional read, *We Were There* pays tribute to a critical event in American modern history—and to a man whose death was mourned like no other.
