The King's Buccaneer Yale University Press

Fans of emotional tearjerkers will love this story about love, hope, strength and survival.

Loudermilk University Press of Colorado

In an age of globalization characterized by the dizzying technologies of the First World, and the social disintegration of the Third, is the concept of utopia still meaningful? *Archaeologies of the Future*, Jameson's most substantial work since *Postmodernism, Or, the Cultural Logic of Late Capitalism*, investigates the development of this form since Thomas More, and interrogates the functions of utopian thinking in a post-Communist age. The relationship between utopia and science fiction is explored through the representations of otherness/alien life and alien worlds and a study of the works of Philip K. Dick, Ursula LeGuin, William Gibson, Brian Aldiss, Kim Stanley Robinson and more. Jameson's essential essays, including "The Desire Called Utopia," conclude with an examination of the opposing positions on utopia and an assessment of its political value today. *Archaeologies of the Future* is the third volume, after *Postmodernism* and *A Singular Modernity*, of Jameson's project on the Poetics of Social Forms.

An Alpha Zone Novel Penguin

A job she loves, free time with Zen—Shirayuki's life couldn't be better. But the return of Zen's brother, Crown Prince Izana, puts everyone on edge. Even worse, Izana has much to say about Zen's red-haired friend. Will Shirayuki be able to overcome this new obstacle in her relationship with Zen? -- VIZ Media

3,684 Things You Should Have Learned but Probably Didn't Abrams

Through a number of case studies from the West African Sahel, this book links and explores natural resources management from the perspectives of politics, property and production.

The ESL/ELL Teacher's Book of Lists Spectra

Provides an accessible introduction to psychoanalytic explanations of consumer desire. Topics are drawn widely to reflect the scope of Freud's vision and include dreams, sexuality and hysteria. Discussion is widened to selectively include authors such as Melanie Klein and Jacques Lacan, and to include evaluation of current research.

Between a Rock and a Hard Place JHU Press

The 1st standalone novel in The Pucked Series With a famous NHL player for a stepbrother, Violet Hall is well acquainted with the playboy reputation of many a hockey star. So of course she isn't interested in legendary team captain Alex Waters or his pretty, beat-up face and rock-hard six-pack abs.

When Alex inadvertently obliterates Violet's misapprehension regarding the inferior intellect of hockey players, he becomes much more than just a hot body with the face to match. Suffering from a complete lapse in judgment, Violet discovers just how good Alex is with the hockey stick in his pants. Violet believes her night of orgasmic magic with Alex is just that: one night. But Alex starts to call. And text. And email and send extravagant--and quirky--gifts. Suddenly, he's too difficult to ignore, and nearly impossible not to like. The problem is, the media portrays Alex as a total player, and Violet doesn't want to be part of the game.

Snow White with the Red Hair, Vol. 3 Princeton Architectural Press

On Sunday April 27, 2003, 27-year old Aron Ralston set off for a day's hiking in the Utah canyons. Dressed in a t-shirt and shorts, Ralston, a seasoned climber, figured he'd hike for a few hours and then head off to work. 40 miles from the nearest paved road, he found himself on top of an 800-pound boulder. As he slid down and off of the boulder it shifted, trapping his right hand against the canyon wall. No one knew where he was; he had little water; he wasn't dressed correctly; and the boulder wasn't going anywhere. He remained trapped for five days in the canyon: hypothermic at night, de-hydrated and hallucinating by day. Finally, he faced the most terrible decision of his life: braking the bones in his wrist by snapping them against the boulder, he hacked through the skin, and finally succeeded in amputating his right hand and wrist. The ordeal, however, was only beginning. He still faced a 60-foot rappell to freedom, and a walk of several hours back to his car - along the way, he miraculously met a family of hikers, and with his arms tourniqued, and blood-loss almost critical, they heard above them the whir of helicopter blades; just in time, Aron was rescued and rushed to hospital. Since that day, Aron has had a remarkable recovery. He is back out on the mountains, with an artificial limb; he speaks to select groups on his ordeal and rescue; and amazingly, he is upbeat, positive, and an inspiration to all who meet him. This is the account of those five days, of the years that led up to them, and where he goes from here. It is narrative non-fiction at its most compelling.

The Journals of André Gide, 1889-1949: 1924-1949 Nordic Africa Institute

A beautifully imagined tale of the Brontë sisters and the writing of Jane Eyre. Sheila Kohler's memoir *Once We Were Sisters* is now available. The year is 1846. In a cold parsonage on the gloomy Yorkshire moors, a family seems cursed with disaster. A mother and two children dead. A father sick, without fortune, and

hardened by the loss of his two most beloved family members. A son destroyed by alcohol and opiates. And three strong, intelligent young women, reduced to poverty and spinsterhood, with nothing to save them from their fate. Nothing, that is, except their remarkable literary talent. So unfolds the story of the Brontë sisters. At its center are Charlotte and the writing of Jane Eyre. Delicately unraveling the connections between one of fiction's most indelible heroines and the remarkable woman who created her, Sheila Kohler's *Becoming Jane Eyre* will appeal to fans of historical fiction and, of course, the millions of readers who adore Jane Eyre, as well as biographies about the Brontës like Claire Harman's *Charlotte Brontë: A Fiery Heart*.

Hearts of Darkness Springer Science & Business Media

Transference of orientalist images and identities to the American landscape and its inhabitants, especially in the West—in other words, portrayal of the West as the “Orient”—has been a common aspect of American cultural history. Place names, such as the Jordan River or Pyramid Lake, offer notable examples, but the imagery and its varied meanings are more widespread and significant. Understanding that range and significance, especially to the western part of the continent, means coming to terms with the complicated, nuanced ideas of the Orient and of the North American continent that European Americans brought to the West. Such complexity is what historical geographer Richard Francaviglia unravels in this book. Since the publication of Edward Said's book, *Orientalism*, the term has come to signify something one-dimensionally negative. In essence, the orientalist vision was an ethnocentric characterization of the peoples of Asia (and Africa and the “Near East”) as exotic, primitive “others” subject to conquest by the nations of Europe. That now well-established point, which expresses a postcolonial perspective, is critical, but Francaviglia suggest that it overlooks much variation and complexity in the views of historical actors and writers, many of whom thought of western places in terms of an idealized and romanticized Orient. It likewise neglects positive images and interpretations to focus on those of a decadent and ostensibly inferior East. We cannot understand well or fully what the pervasive orientalism found in western cultural history meant, says Francaviglia, if we focus only on its role as an intellectual engine for European imperialism. It did play that role as well in the American West. One only need think about characterizations of American Indians as Bedouins of the Plains destined for displacement by a settled frontier. Other roles for orientalism, though, from romantic to commercial ones, were also widely in play. In *Go East, Young Man*, Francaviglia explores a broad range of orientalist images deployed in the context of European settlement of the American West, and he unfolds their multiple significances.

Imagining the American West as the Orient Random House
For clients in the Hamptons, the Jersey shore, and in New England, Andrew Geller built dozens of houses, most of wood, and most on modest budgets. These spirited houses, many shown here for the first time through vintage photos and drawings, still delight today and will inspire anyone interested in beach house living. 85 photos, 25 in color.

And Other Things I've Learned EverAfter Romance

This book highlights the manufacturing and applications of acoustic textiles in various industries. It also includes examples from different industries in which acoustic textiles can be used to absorb noise and help reduce the impact of noise at the workplace. Given the importance of noise reduction in the working environment in several industries, the book offers a valuable guide for companies, educators and researchers involved with acoustic materials.

Andrew Geller St. Martin's Griffin

Official U.S. edition with full color illustrations throughout. NEW YORK TIMES BESTSELLER Yuval Noah Harari, author of the critically-acclaimed New York Times bestseller and international phenomenon *Sapiens*, returns with an equally original, compelling, and provocative book, turning his focus toward humanity's future, and our quest to upgrade humans into gods. Over the past century humankind has managed to do the impossible and rein in famine, plague, and war. This may seem hard to accept, but, as Harari explains in his trademark style—thorough, yet riveting—famine, plague and war have been transformed from incomprehensible and uncontrollable forces of nature into manageable challenges. For the first time ever, more people die from eating too much than from eating too little; and more people die from old age than from infectious diseases; and more people commit suicide than are killed by soldiers, terrorists and criminals put together. The average American is a thousand times more likely to die from bingeing at McDonalds than from being blown up by Al Qaeda. What then will replace famine, plague, and war at the top of the human agenda? As the self-made gods of planet earth, what destinies will we set ourselves, and which quests will we undertake? *Homo Deus* explores the projects, dreams and nightmares that will shape the twenty-first century—from overcoming death to creating artificial life. It asks the fundamental questions: Where do we go from here? And how will we protect this fragile world from our own destructive powers? This is the next stage of evolution. This is *Homo Deus*. With the same insight and clarity that made *Sapiens* an international hit and a New York Times bestseller, Harari maps out our future.

The List Simon and Schuster

Welcome to the Parker Palm Springs, where you'll experience a

delightful time away, filled with everything you'd expect from a sunny, California vacation. There's tennis courts and a lemonade stand, a gorgeous pool, and a lawn for croquet. But, the other guests and staff are more than a little unexpected. . . . From the New York Times bestselling photographer of *Beaches*, Gray Malin, comes *Be Our Guest!*, Malin's first children's picture book, compiled from his acclaimed series of photographs *Gray Malin at the Parker Palm Springs*. If Eloise had lived in an animal-only hotel, it would have had the style and whimsy of the Parker. Just reading *Be Our Guest!* will whisk children away on a temporary holiday, which is nothing less than extraordinary.

Year with Swollen Appendices Brian Eno's Diary

A completely updated, revised edition of the classic, outfitted with a whole new arsenal of indispensable knowledge on global affairs, popular culture, economic trends, scientific principles, and modern arts. Here's your chance to brush up on all those subjects you slept through in school, acquaint yourself with all the facts you once knew (then promptly forgot), catch up on major developments in the world today, and become the Renaissance man or woman you always knew you could be! How do you tell the Balkans from the Caucasus? What's the difference between fission and fusion? Whigs and Tories? Shiites and Sunnis? Deduction and induction? Why aren't all Shakespearean comedies necessarily thigh-slappers? What are transcendental numbers and what are they good for? What really happened in Plato's cave? Is postmodernism dead or just having a bad hair day? And for extra credit, when should you use the adjective continual and when should you use continuous? *An Incomplete Education* answers these and thousands of other questions with incomparable wit, style, and clarity. *American Studies, Art History, Economics, Film, Literature, Music, Philosophy, Political Science, Psychology, Religion, Science, and World History: Here's the bottom line on each of these major disciplines, distilled to its essence and served up with consummate flair. In this revised edition you'll find a vitally expanded treatment of international issues, reflecting the seismic geopolitical upheavals of the past decade, from economic free-fall in South America to Central Africa's world war, and from violent radicalization in the Muslim world to the crucial trade agreements that are defining globalization for the twenty-first century. And don't forget to read the section "A Nervous American's Guide to Living and Loving on Five Continents" before you answer a personal ad in the International Herald Tribune. As delightful as it is illuminating, *An Incomplete Education* packs ten thousand years of culture into a single superbly readable volume. This is a book to celebrate, to share, to give and receive, to pore over and browse through, and to return to again and again.*

Becoming Jane Eyre Simon and Schuster

A Year with Swollen Appendices Brian Eno's Diary Faber & Faber

The American Pageant Ink & Cupcakes, Incorporated Includes 12 illustrated essays, these case studies on artists and concepts present Dada as a coherent movement with a set of operating principles.

Brian Eno's Diary Penelope Ward Books, Inc.

The diary and essays of Brian Eno republished twenty-five years on with a new introduction by the artist in a beautiful hardback edition. 'A cranium tour of one of the most creative minds of our age. . . . [Eno] delivers razor-sharp commentary with devilish snarkiness and brutal honesty.' *Wired* At the end of 1994, Brian Eno resolved to keep a diary. His plans to go to the cinema, theatre and galleries fell quickly to the wayside. What he did do - and write - however, was astonishing: ruminations on his collaborative work with David Bowie, U2, James and Jah Wobble, interspersed with correspondence and essays dating back to 1978. These 'appendices' covered topics from the generative and ambient music Eno pioneered to what he believed the role of an artist and their art to be, alongside adroit commentary on quotidian tribulations and happenings around the world. An intimate insight into one of the most influential creative artists of our time, *A Year with Swollen Appendices* is an essential classic.

Notes to Literature HarperCollins

He's one of America's most recognizable and acclaimed actors-a star on Broadway, an Oscar nominee for *The Aviator*, and the only person to ever win Emmys for acting, writing, and directing, during his eleven years on *M*A*S*H*. Now Alan Alda has written a memoir as elegant, funny, and affecting as his greatest performances. "My mother didn't try to stab my father until I was six," begins Alda's irresistible story. The son of a popular actor and a loving but mentally ill mother, he spent his early childhood backstage in the erotic and comic world of burlesque and went on, after early struggles, to achieve extraordinary success in his profession. Yet *Never Have Your Dog Stuffed* is not a memoir of show-business ups and downs. It is a moving and funny story of a boy growing into a man who then realizes he has only just begun to grow. It is the story of turning points in Alda's life, events that would make him what he is-if only he could survive them. From the moment as a boy when his dead dog is returned from the taxidermist's shop with a hideous expression on his face, and he learns that death can't be undone, to the decades-long effort to find compassion for the mother he lived with but never knew, to his acceptance of his father, both personally and professionally, Alda learns the hard way that change, uncertainty, and transformation are what life is made of, and true happiness is found in embracing them. *Never Have Your Dog Stuffed*, filled with curiosity about nature, good humor, and honesty, is the crowning achievement of an actor, author, and director, but surprisingly, it is the story of a life more filled with turbulence and laughter than any Alda has ever played on the stage or screen.
