Cartoons of World War II Titan Books (US, CA)

A fresh, fun, and "thought-provoking" New York Times bestseller about the American electoral college and why every vote counts from bestselling and award-winning duo Kelly DiPucchio and

LeUyen Pham. "Where are the girls?" When Grace's teacher reveals that the United States has never had a female president, Grace decides she wants to be the nation's first and immediately jumpstarts her political career by running in her school's mock election! The race is tougher than she expected: her popular opponent declares that he's the "best man for the job" and seems to have captured the votes of all of the class's boys. But Grace is more determined than ever. Even if she can't be the best man for the job, she can certainly try to be the best person! This timely story not only gives readers a fun introduction to the American electoral system but also teaches the value of hard work, courage, independent thought -- and offers an inspiring example of how to choose our leaders.

Becoming Dr. Seuss Random House Books for Young Readers

Before his worldwide fame as a bestselling children's author, Dr. Seuss was a magazinewriter and cartoonist. His genius mix of visual hilarity, nonsense language, and absurdisthumor illuminates this entertaining compilation of items from the Doctor's early — and oftenforgotten — career. Includes features for periodicals such as Judge, Life, College Humor, andLiberty.Reprint of The

Go, Dog. Go! Naval Institute Press

The definitive, fascinating, all-reaching biography of Dr. Seuss. Dr. Seuss is a classic American icon. Whimsical and wonderful, his work has defined our childhoods and the childhoods of our own children. The silly, simple rhymes are a bottomless well of magic, his illustrations timeless favorites because, quite simply, he makes us laugh. The Grinch, the Cat in the Hat, Horton, and so many more, are his troupe of beloved, and uniquely Seussian, creations. Theodor Geisel, however, had a second, more radical side. It is there that the allure and fasciation of his Dr. Seuss alter ego begins. He had a successful career as an advertising man and then as a political cartoonist, his personal convictions appearing, not always subtly, throughout his books—remember the environmentalist of The Lorax? Geisel was a complicated man on an important mission. He introduced generations to the wonders of reading while teaching young people about empathy and how to treat others well. Agonizing over word choices and rhymes, touching up drawings sometimes for years, he upheld a

rigorous standard of perfection for his work. Geisel took his responsibility as a writer for children seriously, talking down to no reader, no matter how small. And with classics like Green Eggs and Ham, and One Fish, Two Fish, Red Fish, Blue Fish, Geisel delighted them while they learned. Suddenly, reading became fun. Coming right off the heels of George Lucas and bestselling Jim Henson, Brian Jay Jones is quickly developing a reputation as a master biographer of the creative geniuses of our time.

After a major invasion of the Gaza Strip in late 2008, twenty-year-old Mahmoud Barghout decided to become a zookeeper. He saw that the children around him were exhausted by war, and so to provide respite, he set up the Happy Land Zoo. But the war made feeding and caring for the animals impossible—they died of thirst, hunger, or injury—and replacing them meant finding large sums of money and overcoming the blockade or the risk of bringing them in through tunnels connecting the Strip to Egypt. So Mr. Barghout came up with a solution for at least one animal: he dyed two local white donkeys with dark stripes, to create zebras, which visiting children could touch and even ride. The Story of Hurry recounts the tale of these “made in Gaza” zebras, of an inventive zookeeper just like Mr. Barghout, and of the wondrous capacity of the imagination of children. Written by Emma Williams, together with thought-provoking mixed-media illustrations by Ibrahim Quraishi, this picture book for inquisitive children aged 3 to 103 includes an historical note for parents, teachers, and librarians.

Theodor Seuss Geisel, creator of Horton the Elephant, the Grinch, the Cat in the Hat, and a madcap menagerie of the best-loved children's characters of all time, stands alone as the preeminent figure of children's literature. But Geisel was a private man who was happier at the drawing table than he was across from any reporter or would-be biographer. Under the thoughtful scrutiny of Charles D. Cohen, Geisel's lesser known works yield valuable insights into the imaginative and creative processes of one of the 20th century's most original thinkers.

Horton, Thidwick, Yertle, the Lorax, the Grinch, Sneetches, and the Cat in the Hat are just a handful of the bizarre and beloved characters Theodor S. Geisel (1904-1991), alias Dr. Seuss, created in his forty-seven children's books, from 1937's And to Think That I Saw It on Mulberry Street to 1990's Oh, the Places You'll Go! During his lifetime Dr. Seuss was honored with numerous degrees, three Academy Awards, and a Pulitzer, but the man himself remained a reclusive enigma. In this first and only biography of the good doctor, the authors, his close friends for almost thirty years, have drawn on their firsthand insights as well as his voluminous papers; the result is an illuminating, intimate portrait of a dreamer who saw the world "through the wrong end of a telescope," and invited us to enjoy the view.

Elliot Carlson's award-winning biography of Capt. Joe Rochefort is the first to be written about the officer who headed Station Hypo, the U.S. Navy's signals monitoring and cryptographic intelligence unit at Pearl Harbor, and who broke the Japanese navy's code before the Battle of Midway. The book brings Rochefort to life as the irreverent, fiercely independent, and consequential officer that he was. Readers share his frustrations as he searches in vain for Yamamoto's fleet prior to the Japanese attack on Pearl Harbor, but share his joy when he succeeds in tracking the fleet in early 1942 and breaks the code that leads Rochefort to believe Yamamoto's invasion target is Midway. His conclusions, bitterly opposed by some top Navy brass, are credited with making the U.S. victory possible and helping to change the course of the war. The author tells the story of how opponents in Washington forced Rochefort's removal from Station Hypo and denied him the Distinguished Service Medal recommended by Admiral Nimitz. In capturing the interplay of policy and personality and the role played by politics at the highest levels of the Navy, Carlson reveals a side of the intelligence community seldom seen by outsiders. For a full understanding of the man, Carlson examines Rochefort's love-hate relationship with cryptanalysis, his adventure-filled years in the 1930s as the right-hand man to the Commander in Chief of the U.S. Fleet, and his return to codebreaking in mid-1941 as the officer in charge of Station Hypo. He traces Rochefort's career from his enlistment in 1918 to his posting in Washington as head of the Navy's codebreaking desk at age twenty-five, and beyond. In many ways a reinterpretation of Rochefort, the book makes clear the key role his codebreaking played in the outcome of Midway and the legacy he left of reporting actionable intelligence directly to the fleet. An epilogue describes efforts waged by Rochefort's colleagues to obtain the medal denied him in 1942—a drive that finally paid off in 1986 when the medal was awarded posthumously.

Dr. Seuss presents three modern fables in the rhyming favorite Yertle the Turtle and Other Stories. The collection features tales about greed (“Yertle the Turtle”), vanity (“Gertrude McFuzz”), and pride (“The Big Brag”). In no other book does a small burp have such political importance! Yet again, Dr. Seuss proves that he and classic picture books go hand in hand.

Award-winning author Kathleen Krull zeros in on the formative first 22 years of the life of Ted Geisel. This is the first picture book biography of Dr. Seuss, written especially for his young fans who want to know what made him tick. The animals in the zoo that his father ran and his fondness for drawing them, the injustices he suffered as the child of German immigrants, and his inherent sense of humor all fed into the imagination of this boy. He was a square peg in a round hole until he found that he could make a living doing exactly what he pleased—doodling and writing funny things about the world as he saw it. The last section of the book outlines the important events in his adult life. In addition to the evocative paintings by Steve Johnson and Lou Fancher, the book is profusely decorated with art from Dr. Seuss books.

[McElligot's Pool](#) RH Childrens Books

As topical today as when it was first published in 1938, this book tells of Bartholomew Cubbins (from Caldecott Honor winner Bartholomew and the Oobleck) and his unjust treatment at the hands of King Derwin. Each time Bartholomew attempts to obey the king's order to take off his hat, he finds there is another hat on his head. Soon it is Bartholomew's head that is in danger . . . of being chopped off! While The 500 Hats is one of Dr. Seuss's earliest works, it is nevertheless totally Seussian, addressing subjects that we know the good doctor was passionate about: abuse of power (as in Yertle the Turtle), rivalry (as in The Sneetches), and of course, zany good humor! This Read & Listen edition contains audio narration.
