Algonquin Books
A classic he-said-she-
said romantic comedy!
This updated
anniversary edition
offers story-behind-the-
story revelations from

author Wendelin Van
Draanen. The first time
she saw him, she
flipped. The first time
he saw her, he ran.
That was the second
grade, but not much
has changed by the
seventh. Juli says: "My
Bryce. Still walking
around with my first
kiss." He says: "It's
been six years of
strategic avoidance
and social discomfort."

But in the eighth grade everything gets turned upside down: just as Bryce is thinking that there's maybe more to Juli than meets the eye, she's thinking that he's not quite all he seemed. This is a classic romantic comedy of errors told in alternating chapters by two fresh, funny voices. The updated anniversary edition contains 32 pages of extra backmatter: essays from Wendelin Van Draanen on her sources of inspiration, on the making of the movie of *Flipped*, on why she'll never write a sequel, and a selection of the amazing fan mail she's received. Awards and accolades for *Flipped*: SLJ Top 100 Children's Novels of all time IRA-CBC Children's Choice IRA Teacher's Choice

Honor winner, Judy Lopez Memorial Award/WNBA Winner of the California Young Reader Medal "We flipped over this fantastic book, its gutsy girl Juli and its wise, wonderful ending." — The Chicago Tribune "Van Draanen has another winner in this eighth-grade 'he-said, she-said' romance. A fast, funny, egg-cellent winner." — SLJ, Starred review "With a charismatic leading lady kids will flip over, a compelling dynamic between the two narrators and a resonant ending, this novel is a great deal larger than the sum of its parts." — Publishers Weekly, Starred review *Daniel Goleman Omnibus* Penguin I am very much aware that it is an act of

extreme rashness to attempt to write an elementary book about structures. Indeed it is only when the subject is stripped of its mathematics that one begins to realize how difficult it is to pin down and describe those structural concepts which are often called 'elementary'; by which I suppose we mean 'basic' or 'fundamental'. Some of the omissions and oversimplifications are intentional but no doubt some of them are due to my own brute ignorance and lack of understanding of the subject. Although this volume is more or less a sequel to *The New Science of Strong Materials* it can be read as an entirely separate book in its own right. For this

reason a certain amount of repetition has been unavoidable in the earlier chapters. I have to thank a great many people for factual information, suggestions and for stimulating and sometimes heated discussions. Among the living, my colleagues at Reading University have been generous with help, notably Professor W. D. Biggs (Professor of Building Technology), Dr Richard Chaplin, Dr Giorgio Jeronimidis, Dr Julian Vincent and Dr Henry Blyth; Professor Anthony Flew, Professor of Philosophy, made useful suggestions about the last chapter. I am also grateful to Mr John Bartlett, Consultant Neurosurgeon at the Brook Hospital.

Professor T. P. Hughes of the University of the West Indies has been helpful about rockets and many other things besides. My secretary, Mrs Jean Collins, was a great help in times of trouble. Mrs Nethercot of Vogue was kind to me about dressmaking. Mr Gerald Leach and also many of the editorial staff of Penguins have exercised their accustomed patience and helpfulness. Among the dead, I owe a great deal to Dr Mark Pryor - lately of Trinity College, Cambridge - especially for discussions about biomechanics which extended over a period of nearly thirty years. Lastly, for reasons which must surely be obvious, I owe a humble oblation to Herodotus, once a

citizen of Halicamassus.

Flipped McGraw-Hill Companies

Two teens who build a friendship out of elaborate lies have to decide whether or not their love is true in this witty YA contemporary romance by debut author Tiffany Pitcock. The Ugly Truth MIT Press

The powerful and long-anticipated companion to *The Skin I'm In*, Sharon Flake's bestselling modern classic, presents the unflinching story of Char, a young woman trapped in the underworld of human trafficking. My feet are heavy as stones when I walk up the block wondering why I can't find my old self. In *The Skin I'm In*, readers saw into the life of Maleeka Madison, a

teen who suffered from the ridicule she received because of her dark skin color. For decades fans have wanted to know the fate of the bully who made Maleeka's life miserable, Char. Now in Sharon Flake's latest and unflinching novel, *The Skin I'm In*, we follow Charlese Jones, who, with her raw, blistering voice speaks the truths many girls face, offering insight to some of the causes and conditions that make a bully. Turned out of the only home she has known, Char boards a bus to nowhere where she is lured into the dangerous web of human trafficking. Much is revealed behind the complex system of men who take advantage of vulnerable teens in the

underbelly of society. While Char might be frightened, she remains strong and determined to bring herself and her fellow victims out of the dark and back into the light, reminding us why compassion is a powerful cure to the ills of the world. Sharon Flake's bestselling, Coretta Scott King Award-winning novel *The Skin I'm In* was a game changer when it was first published more than twenty years ago. It redefined young adult literature by presenting characters, voices, and real-world experiences that had not been fully seen. Now Flake offers readers another timely and radical story of a girl on the brink and how her choices will lead her to either fall, or fly.

Son of Hamas Taylor & Francis

The second book in the Marshmallow Pie Cat Superstar series by Clara Vulliamy, the author-illustrator of Dotty Detective.

Perfect for fans of Toto the Ninja Cat or The Secret Life of Pets.

The Refusal of Work Vintage

Provides a practical guide to get started and execute on machine learning within a few days without necessarily knowing much about machine learning. The first five chapters are enough to get you started and the next few chapters provide you a good feel of more advanced topics to pursue.

The Wine Bible

Authentic

“A powerful YA novel about identity and

prejudice.”

—Entertainment

Weekly Bijan Majidi is: Shy around girls Really into comics Decent at basketball Bijan Majidi is not: A terrorist What happens when a kid who’s flown under the radar for most of high school gets pulled off the bench to make the winning basket in a varsity playoff game? If his name is Bijan Majidi, life is suddenly high fives in the hallways and invitations to exclusive parties—along with an anonymous photo sent by a school cyberbully that makes Bijan look like a terrorist. The administration says they’ll find and punish the culprit. Bijan wants to pretend it never happened. He’s not ashamed of his Middle Eastern heritage; he just doesn’t want to be

a poster child for Islamophobia. Lots of classmates rally around Bijan. Others make it clear they don't want him or anybody who looks like him at their school. But it's not always easy to tell your enemies from your friends. Here to Stay is a painfully honest, funny, authentic story about growing up, speaking out, and fighting prejudice.

The Life I'm In Disney-Hyperion

"Through this pitch-perfect rom-com, Kristina Forest explores the legacy of family and what it means to be young and full of artistic passion. I was utterly charmed from start to finish."

—Maurene Goo, author of *Somewhere Only We Know Now That I've Found You* is a YA

novel about searching for answers, love, and your eccentric grandma in all the wrong places.

Following in the footsteps of her überfamous grandma, eighteen-year-old Evie Jones is poised to be Hollywood's next big star. That is until a close friend's betrayal leads to her being blacklisted . . .

Fortunately, Evie knows just the thing to save her floundering career: a public appearance with America's most beloved actress—her grandma Gigi, aka the Evelyn Conaway. The only problem? Gigi is a recluse who's been out of the limelight for almost twenty years. Days before Evie plans to present her grandma with an honorary award in front

of Hollywood's elite, Gigi does the unthinkable: she disappears. With time running out and her comeback on the line, Evie reluctantly enlists the help of the last person to see Gigi before she vanished: Milo Williams, a cute musician Evie isn't sure she can trust. As Evie and Milo conduct a wild manhunt across New York City, romance and adventure abound while Evie makes some surprising discoveries about her grandma—and herself.

Tom Fleck Zed Books Ltd.

Emotional Intelligence
Does IQ define our destiny? Daniel Goleman argues that our view of human intelligence is far too narrow, and that our emotions play a major role in thought,

decision making and individual success. Self-awareness, impulse control, persistence, motivation, empathy and social deftness are all qualities that mark people who excel: whose relationships flourish, who are stars in the workplace. With new insights into the brain architecture underlying emotion and rationality, Goleman shows precisely how emotional intelligence can be nurtured and strengthened in all of us. Working with **Emotional Intelligence** Do you want to be more successful at work? Do you want to improve your chances of promotion? Do you want to get on better with your colleagues? Daniel Goleman draws on unparalleled access

to business leaders around the world and the thorough research that is his trademark. He demonstrates that emotional intelligence at work matters twice as much as cognitive abilities such as IQ or technical expertise in this inspiring sequel.

Here to Stay Harry Nicholson

An account of the decade-long conflict between humankind and hordes of the predatory undead is told from the perspective of dozens of survivors who describe in their own words the epic human battle for survival, in a novel that is the basis for the June 2013 film starring Brad Pitt.

Reissue. Movie Tie-In.
A Bias Radar for Responsible Policy-Making Anchor
Educators must both

respond to the impact of trauma, and prevent trauma at school.

Trauma-informed initiatives tend to focus on the challenging behaviors of students and ascribe them to circumstances that students are facing outside of school. This approach ignores the reality that inequity itself causes trauma, and that schools often heighten inequities when implementing trauma-informed practices that are not based in educational equity. In this fresh look at trauma-informed practice, Alex Shevrin Venet urges educators to shift equity to the center as they consider policies and professional development. Using a framework of six principles for equity-centered trauma-

informed education, Venet offers practical action steps that teachers and school leaders can take from any starting point, using the resources and influence at their disposal to make shifts in practice, pedagogy, and policy.

Overthrowing inequitable systems is a process, not an overnight change. But transformation is possible when educators work together, and teachers can do more than they realize from within their own classrooms.

Marshmallow Pie The Cat Superstar On TV (Marshmallow Pie the Cat Superstar, Book 2)
CRC Press

The oldest son of Sheikh Hassan Yousef, a founding member of Hamas, reveals new information about the

world's most dangerous terrorist organization, unveils the truth about his own role in the organization, and explains his dangerous decision to make his newfound Christian faith public.

About Face Broadway Books

In the vein of the hit television show *Battlestar Galactica* comes *Earth Strike*—the first book in the action-packed *Star Carrier* science fiction series by Ian Douglas, author of the popular *Inheritance*, *Heritage*, and *Legacy* Trilogies and one of the most adept writers of military sf working today. *Earth Strike* rockets readers into a vast and deadly intergalactic battle, as humankind attempts to bring down an evil

empire and establish itself as the new major power. Fans of Robert Heinlein's Starship Troopers and Joe Haldeman's The Forever War, welcome aboard the Star Carrier!

Into the Wild Diary of a Wimpy Kid Collectio Since the publication of the second edition of "Introduction to Radar Systems," there has been continual development of new radar capabilities and continual improvements to the technology and practice of radar. This growth has necessitated the addition and updating of the following topics for the third edition: digital technology, automatic detection and tracking, doppler technology, airborne radar, and target

recognition. The topic coverage is one of the great strengths of the text. In addition to a thorough revision of topics, and deletion of obsolete material, the author has added end-of-chapter problems to enhance the "teachability" of this classic book in the classroom, as well as for self-study for practicing engineers. Slow Violence and the Environmentalism of the Poor Artech House The essential interaction design guide, fully revised and updated for the mobile age About Face: The Essentials of Interaction Design, Fourth Edition is the latest update to the book that shaped and evolved the landscape of interaction design. This comprehensive guide takes the

worldwide shift to smartphones and tablets into account. New information includes discussions on mobile apps, touch interfaces, screen size considerations, and more. The new full-color interior and unique layout better illustrate modern design concepts. The interaction design profession is blooming with the success of design-intensive companies, priming customers to expect "design" as a critical ingredient of marketplace success. Consumers have little tolerance for websites, apps, and devices that don't live up to their expectations, and the responding shift in business philosophy has become widespread. About Face is the book that

brought interaction design out of the research labs and into the everyday lexicon, and the updated Fourth Edition continues to lead the way with ideas and methods relevant to today's design practitioners and developers. Updated information includes: Contemporary interface, interaction, and product design methods Design for mobile platforms and consumer electronics State-of-the-art interface recommendations and up-to-date examples Updated Goal-Directed Design methodology Designers and developers looking to remain relevant through the current shift in consumer technology habits will find About Face to be a

comprehensive,
essential resource.

The Percy Jackson and
the Olympians, Book
Three: Titan's Curse

Swoon Reads

From agriculture to big
business, from
medicine to politics,
The Cigarette Century
is the definitive
account of how
smoking came to be so
deeply implicated in
our culture, science,
policy, and law. No
product has been so
heavily promoted or
has become so deeply
entrenched in
American
consciousness. The
Cigarette Century
shows in striking detail
how one ephemeral
(and largely useless)
product came to play
such a dominant role in
so many aspects of our
lives—and deaths.

*An Introduction to
Community*

Development Springer
An impassioned look at
games and game
design that offers the
most ambitious
framework for
understanding them to
date. As pop culture,
games are as
important as film or
television—but game
design has yet to
develop a theoretical
framework or critical
vocabulary. In *Rules of
Play* Katie Salen and
Eric Zimmerman
present a much-
needed primer for this
emerging field. They
offer a unified model
for looking at all kinds
of games, from board
games and sports to
computer and video
games. As active
participants in game
culture, the authors
have written *Rules of
Play* as a catalyst for
innovation, filled with
new concepts,

strategies, and methodologies for creating and understanding games. Building an aesthetics of interactive systems, Salen and Zimmerman define core concepts like "play," "design," and "interactivity." They look at games through a series of eighteen "game design schemas," or conceptual frameworks, including games as systems of emergence and information, as contexts for social play, as a storytelling medium, and as sites of cultural resistance. Written for game scholars, game developers, and interactive designers, *Rules of Play* is a textbook, reference book, and theoretical guide. It is the first comprehensive

attempt to establish a solid theoretical framework for the emerging discipline of game design. Earth Strike Routledge Policymakers prepare society for the future and this book provides a practical toolkit for preparing pro-active, future-proof scientific policy advice for them. It explains how to make scientific advisory strategies holistic. It also explains how and where biases, which interfere with the proper functioning of the entire science-policy ecosystem, arise and investigates how emotions and other biases affect the understanding and assessment of scientific evidence. The book advocates explorative foresight, systems thinking, interdisciplinarity, bias

awareness and the anticipation of undesirable impacts in policy advising, and it offers practical guidance for them. Written in an accessible style, the book offers provocative reflections on how scientific policy advice should be sensitive to more than scientific evidence. It is both an appealing introductory text for everyone interested in science-based policy and a valuable guide for the experienced scientific adviser and policy scholar. "This book is a valuable read for all stakeholders in the scientific advisory ecosystem. Lieve Van Woensel offers concrete methods to bridge the gap between scientific advice and policy making, to assess the

possible societal impacts of complex scientific and technological developments, and to support decision-makers' more strategic understanding of the issues they have to make decisions about. I was privileged to see them prove their value as I worked with Lieve on the pilot project of the Scientific Foresight unit for The European Parliament's STOA panel." - Kristel Van der Elst, CEO, The Global Foresight Group; Executive Head, Policy Horizons Canada "A must-read for not only scientific policy advisers, but also those interested in the ethics of scientific advisory processes. Lieve Van Woensel walks readers through a well-structured practical toolkit that

bases policy advice on more than scientific evidence by taking into account policies' potential effects on society and the environment." - Dr Paul Rübige, Former Member of the European Parliament and former Chair of the Panel for the Future of Science and Technology

Homo Deus

HarperCollins

While trying to find a new best friend after feuding with Rowley, middle-school slacker Greg Heffley is warned by older family members that adolescence is a time to act more responsibly and to think seriously about his future.

FMCW Radar Design

Scholastic Inc.

'Sharp as quivering hares are the Flecks. We've eyes and ears for things other folk

miss.' Much later, in the aftermath of Flodden, a young man finally understands his father's words. The year: 1513. The place: North-East England. Tom Fleck, a downtrodden farm worker but gifted archer, yearns to escape his masters. He unearths two objects that could be keys to freedom: a torque of ancient gold and a Tudor seal ring. He cannot know how these finds will determine his future. Rachel Coronel craves an end to her Jewish wanderings. When the torque comes to rest around the neck of this mysterious woman, an odyssey begins which draws Tom Fleck into borderlands of belief and race. The seal ring propels Tom on a journey of self-

knowledge that can only climax in another borderland - among the flowers and banners of Flodden Field.
