More than ever, people
are talking about
leadership. But much of
today's discourse is
advancing the same old
misconceptions. In The

Book on Leadership, best-selling author, pastor, and teacher John MacArthur sets the record straight: Leadership does not come from a job title. It isn't a matter of personality or charisma. And it isn't the same thing as iron-fisted authority. True leadership?the kind that refuses to bend to a shifting, fickle world?comes from a much deeper source. Based on the writings of one of the most effective spiritual leaders of all time?the apostle Paul?MacArthur presents the "26

Characteristics of a True Leader." Whether you are a business leader, civic leader, church leader, parent, teacher, or student, the life of Paul will empower you to unleash your own capacity for leadership. Rooted Leadership B&H Publishing Group Understanding Christian Leadership offers an examination of a distinctly Christian understanding of leadership offering a critical appraisal of insights from secular theories of leadership, exploring biblical and

other theological insights into the nature and practice of leadership. Whilst arguing for a form of leadership which is widely dispersed and collaborative, the book seeks to explain the distinctive role of leaders within such a leadership economy. It also seeks to establish a proper relationship between sacred and secular leadership thinking, tackling some of the common philosophical and theological reservations to do with leadership discourse,

whilst offering a critical framework for discerning the suitability for the Church of different sources of leadership thinking. Designed as core reading for leadership modules currently taught by the author across a large number of training contexts in the UK, this book is an indispensable text for those taking undergraduate or postgraduate-level qualifications in Christian leadership as well as those in other less formal leadership training contexts. Foreword by

Justin Welby, Archbishop of Canterbury
The Book on Leadership
A&C Black
This book argues that ethical leadership without a theological foundation is lacking a firm foundation. It begins with a critical assessment of ethical leadership as a leadership theory, showing how ethics and theology became separated, creating the space for ethical leadership outside of theology. Nevertheless, the author argues that ethical leadership without a biblical basis is weak,

though one need not be religious to embrace the leadership principles of biblical theology. Unfolding Christology, anthropology, eschatology, and contextualized leadership as four key aspects of biblical theology for ethical leadership, this book will appeal to those studying leadership, business, innovation, and entrepreneurship. *Leadership in Paul* Wipf and Stock Publishers

An introduction to missiological Christian leadership. The book's focus is on the need to empower and equip the people of God to carry out God's mission in the world. Exploring principles of leadership, it suggests practical skills and stimulates further discussion. The emphasis of the book is on theological engagement with practical issues, and

each chapter gives concrete, applied illustrations of the theological approach.

Reading this book won't make Christian leadership easy. But it will make it easier. The strategies and principles here won't remove all frustration from Christian leadership. But they will make it less frustrating. This book won't solve every problem. But it will help you solve a whole bunch of unnecessary

problems that you really don't need to face.- Craig Hamilton, Author.- Back cover.

Leadership by the Book
Randall House Publications

Change the Way You Think about Leadership At the age of thirty-three, Dr. Albert Mohler became the youngest president in the 164-year history of Southern Baptist Theological Seminary. He was the driving force behind the school's transformation into a thriving institution with an international reputation

characterized by a passionate conviction for truth. In the process he became one of the most important and prominent Christian voices in contemporary culture. What will it take to transform your leadership? Effective leaders need more than administrative skills and vision. They need to be able to change the hearts and minds of those they lead. Leadership like this requires passionate beliefs that can stand up to pressure from without and within. In this

updated edition Dr. Mohler has added a new introduction and conclusion based on an additional 10 years of leadership. He has also completely rewritten the chapter "The Digital Leader." The Conviction to Lead will crystallize your convictions while revolutionizing your thinking, your decision-making, your communication, and ultimately, those you lead. "Dr. Al Mohler has written a book that shakes us up and challenges our thinking.

The Conviction to Lead is poised to become one of the all-time classic works on Christian leadership."-- JIM DALY, President - Focus on the Family "Having rarely thought about leadership, I was hooked from the first chapter--to my complete surprise. This is a powerful book and gracefully written."--FRED BARNES, Executive Editor--The Weekly Standard *Servants and Fools* InterVarsity Press Down through the centuries church leaders have studied the Gospels

to discover patterns of leadership development that can be applied to their own context. Yet the word leader does not appear in the Gospels...Could it be that leadership has more to do with learning to follow than learning to command, supervise, or manage? On right attitudes than on mastery of certain skills?...Many of the insights we need are embedded in the images which Jesus used to describe his followers. So David W. Bennett introduces his stimulating

and scholarly study previously published under the title 'Biblical Images for Leaders and Followers.' He examines the many images and metaphors in the Gospels relating to how disciples follow Jesus, and in turn influence others. Then he moves on to survey much of the evidence to be found in the images of the rest of the New Testament. Finally, he draws some judicious conclusions for an understanding of Christian leadership in our own day. The author has

considerable cross-cultural experience, having taught church leaders in Japan, India, the Philippines, Papua New Guinea, Malaysia, India, Nepal, Tanzania, and Kenya, in addition to pastoring churches in California, Oregon and Massachusetts. He has also traveled and done research among church leaders in Malawi, South Africa, Brazil, Argentina, Cambodia, Vietnam, China, Korea, Thailand, Russia and the Czech Republic. His aim is to stimulate thought on

these questions in churches all over the world, not just in the west. *In Pursuit of Leadership* Wipf and Stock Publishers Explores the idea of leadership in our culture today and in the past through theological evaluation, theory and practice, and examples of exemplary leaders. Elders Lead a Healthy Family Kregel Publications Leadership is a much-discussed topic. What does it actually mean for us as Christians? Does Christian leadership have its own distinctive shape

and character? In *Servants and Fools, A Biblical Theology of Leadership*, Arthur Boers examines Jesus's pattern of leadership. Boers shows how this pattern is rooted in service and sacrifice, is cautious about power and hierarchies, and prioritizes the vulnerable. In other words, it often reverses what we expect of leadership, and is different from what we read in most leadership literature. *Servants and Fools* is a unique resource for students and

practitioners across denominations. It offers a foundational perspective on leadership and guidance for practical application in the reader's daily life and ministry. Arthur Boers has at last written the book we have sorely needed, a book that is destined to become the main text in my seminary courses in church leadership, a book that is sure to be enthusiastically received by thousands of contemporary Christian leaders. Boers energetically underscores

the joyful peculiarity of specifically Christian leadership. His book is unique: a biblically based, Christologically grounded defense of leadership in the name of Christ. --Will Willimon, Professor of the Practice of Christian Ministry, Duke Divinity School, United Methodist Bishop, retired, and author of *Pastor: The Theology and Practice of Ordained Leadership Servants and Fools* is a brilliant and essential contribution to any serious study of leadership: Robust,

faithful, insightful biblical teaching. A judicious, knowledgeable harvest of the best contributions from leadership theorists and practitioners. Plus humor, in-the-trenches experiences, and practical applications. I cannot imagine ever teaching another class on leadership without assigning and discussing Arthur Boers's book! --David W. Gill, Mockler-Phillips Professor of Workplace Theology & Ethics, Gordon-Conwell Theological Seminary In *Servants and Fools: A*

Biblical Theology of Leadership, Arthur Boers deconstructs the contemporary cult of "leadership" and serves up a refreshingly Biblical alternative. It is a great cautionary tale for today's churches, seminaries, and Christian non-profits. At the same time, it offers great insight for secular organizations and leaders as well. --John Suk, author, former editor of *The Banner*, and pastor of Lawrence Park Community Church, Toronto, Canada. Servants and Friends

Baker Academic

This book explores the concepts from Scripture for Servant leadership and compare these findings with contemporary models of servant leadership. It is an examination of Christian leadership for the contemporary world in its global and increasing secular context.

Leadership studies typically view leadership externally from the results. This is a good

beginning but leadership needs to also view the inside of leadership in the person of the leader. Scripture is uniquely qualified in this area since its first concern is the person who leads not just in leadership behaviors. The author uses examples from both the Old and New Testament to establish a new shepherd model of leadership that moves beyond the servant mode to the mode of caring direction. This model will provide scholars and researchers as well as leaders

themselves with a way of leading that overcomes negative forms of leadership which lead to failure.

Wisdom in Leadership

Wipf and Stock Publishers

The purpose and aim of this book is to develop an appropriate leadership model for missional churches. This implies a positioning of this book within the broader theology of mission and a consensus on the theology of the *Missio Dei*, originating at the 1952 conference of the International Missionary

Council in Willingen, Germany. In this approach to the theology of mission, mission is understood as the work of the Trinitarian God, and the church is privileged to participate in God's mission. It is against this background that the growing consensus on missional ecclesiology challenges leadership models developed for a different time and a different kind of church (with less or no emphasis on the missional character of the church). The aim is to reflect theologically on

the role of leadership in the missional church. What kind of ideas about power, authority and leadership are appropriate for a missional church? New missional challenges demand new ideas about missional leadership. Church organisation and leadership reflects a theological position – there is a strong relation between ecclesiology and church organisation. The nature of the church provides the framework to understand the character of the church. What the church is determines what

the church does. The church organises what it does and agrees on rules that regulate ministries and organisation. Issues such as the way the church organises and governs what it does, and thus church leadership, need to be answered against this background and understanding. Church polity and organisation, as well as leadership, must reflect the identity, calling, life and order of the church. This book, therefore, addresses life in the Trinity, participation in the

Missio Dei and contours of the missional church as the point of entry to develop leadership insights. It contributes towards the development of an appropriate model of leadership for missional churches, because although recent developments in the theology of mission comprehensively addressed the area of missional ecclesiology, there is a gap in the development of a leadership model based on the concept of authority in the missional

church.
Biblical Servant Leadership Springer
One of the most critical issues confronting the twenty first century church is leadership. The need is great and if the church is to do and be all that God intends, it will only be accomplished through effective biblical leadership. But what is spiritual leadership and how do we recognize it? "In Pursuit of Leadership" addresses these and other questions in an examination of the leadership qualities of

Moses. Drawing from the life of one of the world's greatest leaders, Dr. Greg Morris identifies specific characteristics of authentic spiritual leadership. He peels back the mystery of leadership and offers fresh biblical insights derived from a solid biblical perspective. Dr. Morris offers clear and practical guidance on how leaders can make a positive impact on the people and organizations they lead. If you are in leadership or aspire to leadership, this book will provide the tools to lead

God's way.

Spiritual Leadership

Biblical Theology for the
Chur

This book brings the best of leadership theory and research together with biblical reflection and examples of leadership in action to offer a practical guide to Christian leaders. Combining expertise in leadership studies and biblical studies, Justin Irving and Mark Strauss explore how leadership models have moved from autocratic and paternalistic leader-centered models toward

an increased focus on followers. The authors show how contemporary theories such as transformational leadership, authentic leadership, and servant leadership take an important step toward prioritizing and empowering followers who work with leaders to accomplish organizational goals. Irving and Strauss organize their book around "nine empowering practices," making it accessible to students, church leaders, and business leaders.

Integrating solid research in leadership studies with biblical and theological reflection on the leadership ideas that are most compatible with Christian faith, this book is an important resource for all Christian students of leadership.

"This book is a masterful description of the distinct difference biblical leadership makes. Mike Ayers has addressed this issue in a scholarly, yet very practical way. We

have needed these pages that focus so clearly on the Word of God and the biblical description of leadership." James T. Draper Jr.-President Emeritus, LifeWay Christian Resources "In Power to Lead, Mike Ayers shares a wealth of practical wisdom, but he goes first and foremost at the most important component of biblical leadership-the heart. This challenging and insightful work is a must-read for anyone wanting to learn what leadership shaped by the heart of Jesus looks

like." Jared C. Wilson- Director of Content Strategy for Midwestern Seminary, Managing Editor of For The Church (ftc.co), and author of The Prodigal Church "At a time when leadership books tend to only focus upon certain elements of this important topic, Mike Ayers posits a comprehensive and well-arranged treatment of biblical leadership. He not only stays true to the biblical text but also offers several real-life practical examples and applications. Mike's

experience as a scholar, professor and pastor allows him to thoroughly analyze the subject of leadership as well as integrate his findings into a clear and cohesive presentation. Mike offers a much-needed and unique perspective. I know this will be one book that I will have on my shelf." Robert "Buck" Anderson-Pastor of Leadership Development, Grace Bible Church, College Station, TX Power to Lead offers an in-depth discussion of leadership in both theory and practice,

providing a compelling model of Christian leadership that's rooted in a theological framework. It is comprehensive and extraordinarily rich in biblical content. Most importantly, the book speaks to matters of inner character for those looking to lead through the power of Christ. *Power to Lead* will serve as an indispensable leadership resource for Christian students, pastors, or anyone seeking to deeply understand leadership from the Bible.

Organizational Leadership

Saint Mary's Press
 This book examines the principles and procedures implemented by Moses for developing leaders. Using Exodus 18 as the basis, the author explores how leadership skills are best developed in small group settings. The author then delves into contemporary leadership principles, such as authentic leadership, and how organizations can develop leaders at every level of the organization. Issues such as accountability, ethics, and trust will be discussed at length, with an

examination of the expected outcomes of training leaders at all levels. This book will be a valuable addition to the leadership literature in showing how biblical leadership principles can be used in contemporary organizations.
