The Theory and Practice of Group Psychotherapy Basic Books

NOW A MAJOR MOTION PICTURE Starring Helen Mirren, Christopher Plummer, & James McAvoy In 1910, Count Leo Tolstoy, the most famous writer in the world, is caught in the struggle between his devoted wife and an equally devoted acolyte over the master's legacy. Sofya Andreyevna fears that she and the children she has borne Tolstoy will lose all to Vladimir Chertkov and the Tolstoyan movement, which preaches the ideals of poverty, chastity, and pacifism. As Tolstoy seeks peace in his final days, Valentin Bulgakov is hired to be his secretary and enlisted as a spy by both camps. But Valentin's loyalty is to the great man, who in turn recognizes in the young idealist his own youthful struggle with worldly passions. Deftly moving among a colorful cast of characters, drawing on the writings of the people on whom they are based, Jay Parini has created a stunning portrait of an enduring genius and a deeply affecting novel.

The Wisdom of Schopenhauer A/T Publishers, San Francisco, California

Written in Irv Yalom's inimitable story-telling style, *Staring at the Sun* is a profoundly encouraging approach to the universal issue of mortality. In this magisterial opus, capping a lifetime of work and personal experience, Dr. Yalom helps us recognize that the fear of death is at the heart of much of our anxiety. Such recognition is often catalyzed by an "awakening experience"—a dream, or loss (the death of a loved one, divorce, loss of a job or home), illness, trauma, or aging. Once we confront our own mortality, Dr. Yalom writes, we are inspired to rearrange our priorities, communicate more deeply with those we love, appreciate more keenly the beauty of life, and increase our willingness to take the risks necessary for personal fulfillment.

As the public grows disillusioned with therapeutic quick fixes, people are looking for a deeper psychotherapeutic experience to make life more meaningful and satisfying. What really happens in therapy? What promises and perils does it hold for them? No one writes about therapy - or indeed the dilemmas of the human condition - with more acuity, style, and heart than Irvin Yalom. Here he

combines the storytelling skills so widely praised in *Love's Executioner* with the wisdom of the compassionate and fully engaged psychotherapist. In these six compelling tales of therapy, Yalom introduces us to an unforgettable cast of characters: Paula, who faces death and stares it down; Magnolia, into whose ample lap Yalom longs to pour his own sorrows; Irene, who learns to seek out anger and plunge into it. And there's Momma, old-fashioned, ill-tempered, who drifts into Yalom's dreams and tramples through his thoughts. At once wildly entertaining and deeply thoughtful, *Momma and the Meaning of Life* is a work of rare insight and imagination.

Love's Executioner Basic Books

Part of the Jewish Encounter series In 1656, Amsterdam's Jewish community excommunicated Baruch Spinoza, and, at the age of twenty-three, he became the most famous heretic in Judaism. He was already germinating a secularist challenge to religion that would be as radical as it was original. He went on to produce one of the most ambitious systems in the history of Western philosophy, so ahead of its time that scientists today, from string theorists to neurobiologists, count themselves among Spinoza's progeny. In *Betraying Spinoza*, Rebecca Goldstein sets out to rediscover the flesh-and-blood man often hidden beneath the veneer of rigorous rationality, and to crack the mystery of the breach between the philosopher and his Jewish past. Goldstein argues that the trauma of the Inquisition's persecution of its forced Jewish converts plays itself out in Spinoza's philosophy. The excommunicated Spinoza, no less than his excommunicators, was responding to Europe's first experiment with racial anti-Semitism. Here is a Spinoza both hauntingly emblematic and deeply human, both heretic and hero—a surprisingly contemporary figure ripe for our own uncertain age. From the Hardcover edition.

Group Counseling HarperCollins

From the bestselling author of *Love's Executioner* and *When Nietzsche Wept* comes a provocative exploration of the unusual relationships three therapists form with their patients. Seymour is a therapist of the old school who blurs the boundary of sexual propriety with one of his clients. Marshal, who is haunted by his own obsessive-compulsive behaviors, is troubled by the role money plays in his dealings with his patients. Finally, there is Ernest Lash. Driven by his sincere desire to help and his faith in psychoanalysis, he invents a radically new approach to therapy -- a totally open and honest relationship with a patient that threatens to have devastating results. Exposing the many lies that are told on and off the psychoanalyst's couch, *Lying on the Couch* gives readers a tantalizing, almost illicit, glimpse at what their therapists might really be thinking during their sessions. Fascinating, engrossing and relentlessly intelligent, it ultimately moves readers with a denouement of surprising humanity and redemptive faith.

Devoted Basic Books

A distinguished psychiatrist and psychotherapist, Irvin D. Yalom is also the United States' most well-known author of psychotherapy tales. His first volume of essays, *Love's Executioner*, became an immediate best seller, and his first novel, *When Nietzsche Wept*, continues to enjoy critical and popular success. Yalom has created a subgenre of literature, the "therapy story," where the therapist learns as much as, if not more than, the patient; where therapy never proceeds as expected; and where the therapist's apparent failure proves ultimately to be a success. Writing the *Talking Cure* is the first book to explore all of Yalom's major writings. Taking an interdisciplinary approach, Jeffrey Berman comments on Yalom's profound contributions to psychotherapy and literature and emphasizes the recurrent ideas that unify his writings: the importance of the therapeutic relationship, therapist transparency, here-and-now therapy, the prevalence of death anxiety, reciprocal healing, and the idea of the wounded healer. Throughout, Berman discusses what Yalom can teach therapists in particular and the common (and uncommon) reader in general.

Philosophical Practice Jorge Pinto Books

In this groundbreaking work, Robert Sternberg opens the book of love and shows you how to discover your own story--and how to read your relationships in a whole new light. What draws us so strongly to some people and repels us from others? What makes some relationships work so smoothly and others burst into flames? Sternberg gives us new answers to these questions by showing that the kind of relationship we create depends on the kind of love stories we carry inside us. Drawing on extensive research and fascinating examples of real couples, Sternberg identifies 26 types of love story--including the fantasy story, the business story, the collector story, the horror story, and many others--each with its distinctive advantages and pitfalls, and many of which are clashingly incompatible. These are the largely unconscious preconceptions that guide our romantic choices, and it is only by becoming aware of the kind of story we have about love that we gain the freedom to create more fulfilling and lasting relationships. As long as we remain oblivious to the role our stories play, we are likely to repeat the same mistakes again and again. But the enlivening good news this book brings us is that though our stories drive us, we can revise them and learn to choose partners whose stories are more compatible with our own. Quizzes in each chapter help you to see which stories you identify with most strongly and which apply to your partner. Are you a traveler, a gardener, a teacher, or something else entirely? *Love is a Story* shows you how to find out.

Love's Executioner offers us the humane and extraordinary insight of renowned psychiatrist Irvin D. Yalom into the lives of ten of his patients - and through them into the minds of us all Why was Saul tormented by three unopened letters from Stockholm? What made Thelma spend her whole life raking over a long-past love affair? How did Carlos's macho fantasies help him deal with terminal cancer? In this engrossing book, Irvin Yalom gives detailed and deeply affecting accounts of his work with these and seven other patients. Deep down, all of them were suffering from the basic human anxieties - isolation, fear of death or freedom, a sense of the meaninglessness of life - that none of us can escape completely. And yet, as the case histories make touchingly clear, it is only by facing such anxieties head on that we can hope to come to terms with them and develop. Throughout, Dr Yalom remains refreshingly frank about his own errors and prejudices; his book provides a rare glimpse into the consulting room of a master therapist. Reviews: 'Dr Yalom demonstrates once again that in the right hands, the stuff of therapy has the interest of the richest and most inventive fiction' Eva Hoffman, *New York Times* 'These remarkably moving and instructive tales of the psychiatric encounter bring the reader into novel territories of the mind - and the landscape is truly unforgettable' Maggie Scarf 'Love's Executioner is one of those rare books that suggests both the mystery and the poetry of the psychotherapeutic process. The best therapists are at least partly

poets. With this riveting and beautifully written book, Irvin Yalom has joined their ranks' Erica Jong 'Inspired ... He writes with the narrative wit of O. Henry and the earthy humor of Isaac Bashevis Singer' San Francisco Chronicle 'These stories are wonderful. They make us realize that within every human being lie the pain and the beauty that make life worthwhile' Bernie S. Siegel 'This is an impressive transformation of clinical experience into literature. Dr Yalom's case histories are more gripping than 98 percent of the fiction published today, and he has gone to amazing lengths of honesty to depict himself as a realistic flesh-and-blood character: funny, flawed, perverse, and, above all, understanding' Phillip Lopate 'I loved Love's Executioner. Dr Yalom has learned something that fiction writers learned years ago - that people's mistakes are a lot more interesting than their triumphs' Joanne Greenberg About the author: Irvin D. Yalom is Professor Emeritus of Psychiatry at the Stanford University School of Medicine. As well as an award-winning psychiatrist and psychotherapist, he is an extremely prolific author. His many other works include *The Gift of Therapy*, *Staring at the Sun*, *When Nietzsche Wept*, *The Theory and Practice of Group Psychiatry*, *The Schopenhauer Cure*, *Lying on the Couch*, *Momma and the Meaning of Life*, *Existential Psychotherapy*, *I'm Calling the Police*, *Inpatient Group Psychotherapy*, *Every Day Gets a Little Closer* and *The Spinoza Problem*.

"The publication of *Creatures of a Day* is reason to celebrate." -- Steven Pinker In this stunning

collection of stories, renowned psychiatrist Irvin D. Yalom describes his patients' struggles -- as well as his own -- to come to terms with the two great challenges of existence: how to have a meaningful life yet reckon with its inevitable end. We meet a nurse who must stifle the pain of losing her son in order to comfort her patients' pains, a newly minted psychologist whose studies damage her treasured memories of a lost friend, and a man whose rejection of psychological inquiry forces even Yalom himself into a crisis of confidence. *Creatures of a Day* is a radically honest statement about the difficulties of human life, but also a celebration of some of the finest fruits -- love, family, friendship -- it can offer. Marcus Aurelius has written that "we are all creatures of a day." With Yalom as our guide, we will find the means to make our own day not only bearable, but also meaningful and joyful.

A year-long journey by the renowned psychiatrist and his writer wife after her terminal diagnosis, as they reflect on how to love and live without regret. Internationally acclaimed psychiatrist and author Irvin Yalom devoted his career to counseling those suffering from anxiety and grief. But never had he faced the need to counsel himself until his wife, esteemed feminist author Marilyn Yalom, was diagnosed with cancer. In *A Matter of Death and Life*, Marilyn and Irv share how they took on profound new struggles: Marilyn to die a good death, Irv to live on without her. In alternating accounts of their last months together and Irv's first months alone, they offer us a rare window into facing mortality and coping with the loss of one's beloved. The Yaloms had numerous blessings—a loving family, a Palo Alto home under a magnificent valley oak, a large circle of friends, avid readers around the world, and a long, fulfilling marriage—but they faced death as we all do. With the wisdom of those who have thought deeply, and the familiar warmth of teenage sweethearts who've grown up together, they investigate universal questions of intimacy, love, and grief. Informed by two lifetimes of experience, *A Matter of Death and Life* is an openhearted offering to anyone seeking support, solace, and a meaningful life.

Increasingly, we seem to live in a culture of fear, amid threats of terrorism, violence, environmental disasters, and distrust in our leaders. Fear and groundlessness are pervasive, but according to Buddhist teacher Gaylon Ferguson, it is the very potency of this fear that makes it such a powerful tool for personal and cultural transformation. *Natural Bravery* offers wise and pointed teachings for helping us to look at fear with immediacy and courage, and to engage with it as a path to transform ourselves—and the world. Walking this path, we learn to cultivate fearlessness and to connect more deeply with others and with the natural world.

Irvin D. Yalom SAGE Publications

The definitive account of existential psychotherapy. First published in 1980, *Existential Psychotherapy* is widely considered to be the foundational text in its field—the first to offer a methodology for helping patients to develop more adaptive responses to life's core existential dilemmas. In this seminal work, American psychiatrist Irvin Yalom finds the essence of existential psychotherapy and gives it a coherent structure, synthesizing its historical background, core tenets,

and usefulness to the practice. Organized around what Yalom identifies as the four "ultimate concerns of life"—death, freedom, isolation, and meaninglessness—the book takes up the meaning of each existential concern and the type of conflict that springs from our confrontation with each. He shows how these concerns are manifest in personality and psychopathology, and how treatment can be helped by our knowledge of them. Drawing from clinical experience, empirical research, philosophy, and great literature, Yalom provides an intellectual home base for those psychotherapists who have sensed the incompatibility of orthodox theories with their own clinical experience, and opens new doors for empirical research. The fundamental concerns of therapy and the central issues of human existence are woven together here as never before, with intellectual and clinical results that have surprised and enlightened generations of readers.
