 * The Independent's Best Fashion Book on Sustainability* An investigation into the damage wrought by the colossal clothing industry and the grassroots, high-tech, international movement fighting to reform it What should I wear? It's one of the fundamental questions we ask ourselves every day. More than ever, we are told it should be something new. Today,

the clothing industry churns out 80 billion garments a year and employs every sixth person on Earth. Historically, the apparel trade has exploited labor, the environment, and intellectual property—and in the last three decades, with the simultaneous unfurling of fast fashion, globalization, and the tech revolution, those abuses have multiplied exponentially,

primarily out of view. We are in dire need of an entirely new human-scale model. Bestselling journalist Dana Thomas has traveled the globe to discover the visionary designers and companies who are propelling the industry toward that more positive future by reclaiming traditional craft and launching cutting-edge sustainable technologies to produce better fashion. In

Fashionopolis, Thomas sees renewal in a host of developments, including printing 3-D clothes, clean denim processing, smart manufacturing, hyperlocalism, fabric recycling—even lab-grown materials. From small-town makers and Silicon Valley whizzes to such household names as Stella McCartney, Levi's, and Rent the Runway, Thomas highlights the

companies big and small that are leading the crusade. We all have been casual about our clothes. It's time to get dressed with intention. Fashionopolis is the first comprehensive look at how to start. Arrogant Bastard Forever The second book in The Mortimers: Wealthy & Wicked series by international bestselling author Zara Cox becomes scandalously sexy when Neve Nolan

vows to get even with the ruthless Damian Mortimer in the boardroom...by getting on top in the bedroom! The irresistible Damian Mortimer nearly destroyed me. First, he gave me mind-blowing pleasure in the bedroom—the n he tricked me out of a business deal. Now we're both mentors on a TV show for budding entrepreneurs, and I'm not going to let him fool me

again. My plan for revenge is simple: sex. The only problem is that Damian is even more devastatingly handsome than I remember. The idea of pleasurable payback excites me, but his body and what he does to me excite me far more. And being close to him has shown me how sensitive and passionate he is. Yes, he hurt me—but he's been on the receiving end of his fair share of pain.

I don't know what's in store for me and Damian Mortimer...but I know I'll enjoy finding out! Sexy. Passionate. Bold. Discover Harlequin Dare, a new line of fun, edgy and sexually explicit romances for the fearless female. *Take It Back* Simon and Schuster 'An interesting and important account.' Daily Telegraph Have you ever stopped and wondered where your jeans came

from? Who made them and where? Ever wondered where they end up after you donate them for recycling? Following a pair of jeans, Clothing Poverty takes the reader on a vivid around-the-world tour to reveal how clothes are manufactured and retailed, bringing to light how fast fashion and clothing recycling are interconnected. Andrew Brooks shows how recycled clothes are

traded across continents, uncovers how retailers and international charities are embroiled in commodity chains which perpetuate poverty, and exposes the hidden trade networks which transect the globe. Stitching together rich narratives, from Mozambican markets, Nigerian smugglers and Chinese factories to London's vintage clothing scene, TOMS shoes and Vivienne

Westwood's ethical fashion lines, Brooks uncovers the many hidden sides of fashion.

We Are All That's Left

From author Kia Abdullah, *Take It Back* is a harrowing and twisting courtroom thriller that keeps you guessing until the last page is turned. One victim. Four accused. Who is telling the truth? Zara Kaleel, one of London's brightest legal minds, shattered the expectations placed on her

by her family and forged a brilliant legal career. But her decisions came at a high cost, and now, battling her own demons, she has exchanged her high profile career for a job at a sexual assault center, helping victims who need her the most. Victims like Jodie Wolfe. When Jodie, a sixteen-year-old girl with facial deformities, accuses four boys in her class of an unthinkable

crime, the community is torn apart. After all, these four teenage defendants are from hard-working immigrant families and they all have proven alibis. Even Jodie's best friend doesn't believe her. But Zara does—and she is determined to fight for Jodie—to find the truth in the face of public outcry. And as issues of sex, race and social justice collide, the most explosive criminal trial of the year

builds to a shocking conclusion. The End Beaverstone Press GmbH (LLC) In a vast and all-embracing study of Africa, from the origins of mankind to the AIDS epidemic, John Iliffe refocuses its history on the peopling of an environmentally hostile continent. Africans have been pioneers struggling against disease and nature, and their social, economic and political institutions

have been designed to ensure their survival. In the context of medical progress and other twentieth-century innovations, however, the same institutions have bred the most rapid population growth the world has ever seen. Africans: The History of a Continent is thus a single story binding living Africans to their earliest human ancestors. *Love and Blarney* Knopf "An exotically
