Global Marketing Management Cognella Academic Publishing
 The New Global Marketing: Local Adaptation for Sustainability and Profit discusses the ways that marketing managers can assess the potential for global expansion and help their firms capitalize on opportunities. The book explores which companies and products should expand internationally, what countries offer the best opportunities, and which marketing plan will lead each product or company to success. The material adapts well-established frameworks to demonstrate how the global marketer can assess company strengths and weaknesses and analyze opportunities

and risks in foreign markets. It discusses the proper balance between standardization and localization, and addresses the importance of the "triple" bottom line - environmental sustainability, social fairness, and financial performance. Students also learn about bottom-of-the-pyramid markets, the role of digital global marketing, and the importance of adapting to international political, social, and environmental pressures. Featuring more than twenty original case studies, *The New Global Marketing* is an excellent introduction to what it really takes to succeed as a global marketer. Written for students with some marketing education and exposure to international business, the book is ideally suited to upper-level business courses and M.B.A. programs.

Global Marketing provides students with a truly international treatment of the key principles that every marketing manager should grasp. International markets present different challenges that require a marketer to think strategically, and apply tools and techniques creatively in order to respond decisively in a fiercely competitive environment. Alon et al. provide students with everything they need to rise to the challenge: Coverage of small and medium enterprises, as well as multinational corporations, where much of the growth in international trade and global marketing has occurred. A shift toward greater consideration of services marketing as more companies move away from manufacturing. A focus on emerging markets to equip students with the skills necessary to take advantage of the opportunities that these rapidly growing

regions present. Chapters on social media, innovation, and technology teach students how to incorporate these new tools into their marketing strategy. New material on sustainability, ethics, and corporate social responsibility; key values for any modern business. Short cases and examples throughout the text show students how these principles and techniques are applied in the real world. Longer cases provide instructors and students with rich content for deeper analysis and discussion. Covering key topics not found in competing books, *Global Marketing* will equip students with the knowledge and confidence they need to become leading marketing managers. A companion website features an instructor's manual with test questions, as well as additional exercises and examples for in-class use.

This book examines emerging theories, frameworks, and applications of global marketing for the 21st century. It highlights how global marketing is changing in a globalized and digital economy that is fast increasing in complexity and uncertainty. The traditional approach to global marketing is no longer sufficient to address the emerging issues in global markets. Global companies need to challenge traditional assumptions in global marketing in an era of shifting political, cultural, economic, and technological changes. They need to take a fresh look at the contemporary threats and opportunities in markets, institutions,

and technology and how they affect entry and expansion strategies through careful re-calibration of the marketing-mix. This book offers new insights for global marketing that addresses these issues. This book should be an ideal resource to both academic scholars and reflective practitioners globally such as CEOs and chief marketing officers as well as government officials and policy makers interested in formulating strategies/policies for global marketing activities in the face of a globalized and digitized economy. This well-crafted research volume is an excellent addition to the growing literature on new trends in international marketing. The authors present the latest insight on the impact of phenomena such as cross-border e-commerce and digital markets, and they discuss new tools for political risk assessment, international branding and more broadly the reconfiguring of marketing-mix strategies – A powerful reminder that the new global market remains a rugged landscape. - Alain Verbeke, McCaig Research Chair in Management and Editor-in-Chief Journal of International Business Studies, University of Calgary, Canada. Emerging trends in institutions, markets, and societies, along with new technological advances, are redefining the scope and strategy in global marketing. Professors Agarwal and Wu have assembled a remarkable collection of cutting-edge topics and issues that capture the shifting paradigm and contemporary developments in the global marketing field. This is an informative and timely resource that makes a valuable contribution, useful for both scholars and business practitioners of global marketing. - Constantine S. Katsikeas, Arnold Ziff Endowed Research Chair in Marketing & International Management, Editor-in-Chief Journal of International Marketing, University of Leeds, UK. This book presents new and cutting-edge thinking at a time when the traditional views of international marketing need to be scrapped. Convergence forces are creating new opportunities as well as threats on a daily basis, and marketing practitioners as well as scholars must be forewarned as well as forearmed on how to deal with these changes. The real growth is coming from the emerging nations, and the theories that provided sufficient insights ten years ago have been completely outmoded by the ever-accelerating rate of

innovation and technological change as well as the pressures to address the needs of all of the firm's relevant stakeholders. The strategic insights provided here are absolutely invaluable. Don't miss an opportunity to read this book!! - John B. Ford, Professor of Marketing & International Business, Eminent Scholar & Haislip-Rohrer Fellow, Editor-in-Chief, Journal of Advertising Research, Old Dominion University, USA.
