and invaluable guide to  
current controversies,

listed at the end of each  
entry. Since its publication  
in 1896 the handbook has

been regularly updated  
and this eighteenth  
edition includes new  
issues such as censorship  
of the internet, genetic

technique, covering the  
rules, structure and type

of debate, and offering tips on how to become a successful speaker. The book is then divided into eight thematic sections, where specific subjects are covered individually. *Pros and Cons* Legare Street Press

Pros and Cons Prabhat Prakashan  
 Success in any walk of life is hard to achieve in this razor-edged highly competitive age. Besides knowledge; one has to be well versed in the art of

forceful communication; an essential pre-requisite of a qualified man; lack of which renders him unfit for high posts in any sector. Participation in debating activities makes a man forceful communicator. Debating is an art and it can be mastered and developed by constant practice. Fluency in speech enables a man to express views effectively and convincingly. Debates are nowadays a regular feature in schools and colleges. Pupils are assigned debatable

statements to argue either in favour or against the motion on occasions like Independence Day or Republic Day. Often inter-school competitions are organized on such eves and the best debater is conferred with prizes. In competitive as well as school tests; examinees are asked to put forward their pros and cons views against a debatable statement. The dearth of books on debatable topics is being felt seriously which could cater to the needs of participants. Most of the participants

exhibit no interest due to lack of guidance and sufficient materials and prefer to remain mute spectators in the debating hall. Here relevant topics of general interests have been compiled and presented both ways—positively and negatively with a view to provide feedback to young debaters.

*The Debater's Handbook*  
Legare Street Press  
Excerpt from *Debaters' Manual*  
Debating is the oral presentation of arguments under such conditions that each speaker may reply

directly to the arguments of the opposing speaker. The debate is opened by the first speaker for the affirmative. He is then followed by the first speaker for the negative, each side speaking alternately until each man has presented his main speech. After all the main speeches have been delivered the negative opens the rebuttal. The speakers in rebuttal alternate negative and affirmative. This order gives the closing speech to the affirmative.
