Originally drawn to Yaqui Indian spiritual leader don Juan Matus for his knowledge of psychotropic plants, bestselling author Carlos Castaneda immersed himself in the sorcerer's magical world. Ten years after his first encounter with the shaman,

Castaneda examines his field notes and comes to understand what don Juan knew all along—psychotropic plants are merely a means to understanding alternative realities that one cannot fully embrace on one's own. Journey to Ixtlan introduces these clear new ideas—omitted from Castaneda's classic volumes *The Teachings of Don Juan* and *A Separate Reality*—to the reader for the first time. Castaneda explores, as he comes to experience it himself, his own final voyage into the teachings of don Juan, and shares with us what it is like to truly "stop the world" and perceive reality on his own terms.

The inspiring story of Brad Snyder's journey from the Naval Academy to Afghanistan, from being blinded by an IED explosion to winning Paralympic gold. In Afghanistan, Lieutenant Brad Snyder had one of the world's most dangerous jobs: to find and destroy enemy bombs, as an elite US Navy Special Operations warrior. On September 7, 2011, the former Naval Academy captain of the swim team stepped on an improvised explosive device while helping save the lives of his patrol's Afghan counterparts. The subsequent explosion left Snyder permanently blind. Through unrelenting pain, hard work, and dedication, Snyder qualified for the US Paralympic Team and on September 7, 2012—none year to the day after suffering his devastating injury—he won a gold medal in men's swimming for Team USA in London. Brad Snyder's journey from darkness to light embodies the courage of America's new "Greatest Generation" and serves as an inspiration to all of us.

The urge to forge one's character by fighting, in daily life as well as on the mat, appeals to something deep within us. More than a collection of fighting techniques, martial arts constitute a path to developing body, spirit, and awareness. On the *Warrior's Path* connects the martial arts with this larger perspective, merging subtle philosophies with no-holds-barred competition, Nietzsche with Bruce Lee, radical Taoism and Buddhism with the *Star Wars* Trilogy, traditional martial arts with basketball and American Indian culture. At the center of all these phenomena is the warrior. Though this archetype seems to manifest contradictory values, author Daniele Bolelli describes the heart of this tension: how the training of martial technique leads to a renunciation of violence, and how overcoming fear leads to a unique freedom. Aimed at students at any level or tradition of martial arts but also

accessible to the armchair warrior, *On the Warrior's Path* brings fresh insights to why martial arts remains an enduring and widespread art and discipline. Two new chapters in this second edition focus on spirituality in the martial arts and the author's personal journey in the field.

This is my personal journey through one of the greatest warrior and leadership cultures of today, which ultimately provided me with defining leadership characteristics and the skills of a serious warrior. Nobody is born a great leader, they are made through hard work and determination. My first Indian name given to me by the medicine man when I was a child was Bobcat. As I grew and became a young man, I returned home from my first combat experience and was given my warrior's name, Evergreen Mountain. I am an American, first and foremost, but I am also a Pueblo and Yaqui Indian. I am a former member of the US Army's 18th Airborne Corps, 75th Ranger Regiment, and spent most of my career as an operational member of a Special Missions Unit under the United States Army Special Operations Command. These are some of my most important leadership lessons learned from the battlefield of the war on terror. It is my sincere hope that this book serves as a resource and a compass, providing direction and guidance for individuals seeking or in a leadership position.

The knowledge in this book is derived from decades of instructing every branch of the U.S. military, as well as the Department of Defense, police agencies, SWAT teams, and elite-level bodyguards. The information and wisdom is also gleaned from over forty years spent in the martial arts and gaining over fifteen black belts in various arts. During that time, I have run numerous academies and been able to work as private protection for numerous VIPs, including the stars of film and TV shows such as *The Walking Dead*, *Arrow*, and others. The lessons I've learned have shown me that, despite the many obstacles that make life feel impossible at times, there is a way forward for anyone dreaming of becoming an elite-level performer, athlete, businessman, or anyone simply seeking a happier, fuller life. I have been low and discovered what it took to get back up. And I have had people from all across the spectrum come to me for

guidance, and I have shown them the steps that I took, and that other masters before me took. We are all down at some point. It is inevitable in this life. But there is a process to recovery, steps that one can take to redeem one's body, mind and spirit. This book is a collection of those steps, a set of guidelines I have found to be universally beneficial to those that have decided to opt out of the quitter's mentality and finally seek a higher awareness and greater happiness. A sigma personality. I have taught soldiers, and soldiers have taught me. I have been in the company of killers and monks, and found that there are a surprising number of foundational habits that they all have in common, habits allowing them to reach a higher state and keep themselves sane, aware, healthy and clearheaded. In this book you will learn techniques on breathing and exercising more intelligently, but you will also see highlighted the many ways you can alter your thinking to reach greater physical and mental goals. This book is not just about how you should think differently about your body, but also how you should rethink your thinking, and begin a journey of self-discovery that, if you're lucky, will last until your dying day. There is a way forward, a path one can take to rejuvenate themselves and ascend past the normal limitations set not just by others, but by oneself. It is not hopeless. You are not hopeless. There is a path forward. Let me show you.

The riveting story of how a young boy's upbringing with outlaw culture and charismatic role models forged him into an elite Marine and a decorated Pararescueman. "Absence of self is my sword" comprises the final line in "The Warrior's Creed," a 14th century poem written by an unknown Japanese Samurai, and this

is the code Master Sergeant Roger Sparks embodied as a Recon Marine turned Alaskan Pararescueman. A living legend in the military, Sparks first made a name for himself within elite Marine Reconnaissance units. He went on to become an instructor where he trained future Reconnaissance Marines with unorthodox and ancient indigenous warrior techniques. A decade later, the same methods would keep him and others alive, when he hoisted into a maelstrom of violence to rescue an embattled platoon in the rugged mountains of eastern Afghanistan. Introduced to a tough code of honor, family, and brotherhood from birth, Roger Sparks rose to become a distinguished instructor in Marine Reconnaissance and a Silver Star recipient as an Alaska Pararescueman. A raw and exhilarating tale of guts, grit, and heart, Warrior's Creed recounts the hidden side of special operations training, heroic and heartbreaking Alaskan wilderness rescues, and the surreal and deadly rescues during Operation Bulldog Bite in Afghanistan's Watapur Valley. This powerful and inspirational story is as much of a self-help book as it is an edge of your seat military memoir. Warrior's Creed reveals a motivating and mindful approach to overcoming the odds, facing the impossible, and finding mercy and grace in the aftermath.

"Approaching the multifaceted world of traditional Japanese martial arts, one can experience moments of profound mystery. It can happen when you receive a lesson from a true Master while visiting their places of origin, or the first time you hold a forged sword, a sublime but sanguinary work of art. It can happen when you are weighing a simple, old, rusty, weighted chain in the

palms of your hands." The Kusari - also known as Kusarifundō or Manrikigusari, is a traditional minor weapon used by the warriors and police officers in the Japanese feudal period. Tracing its historical, philosophical and technical traits, Christian Russo, practitioner and teacher of Japanese Martial Arts, accompanies us through an evanescent time and place, where this small weapon has been secretly guarded for centuries. History, legend, anthropology, philosophy, martial arts, folklore and mysticism alternate in Kusari-Dō. Christian Russo was born and lives in Turin, Italy. He began practicing Jutaijutsu at the Yoshin Ryu School of Martial Arts in 1993; among the other armed specializations of the School, Hojojutsu, the Art of the Rope, and Kusarijutsu, the Art of the Chain which fascinated him at first sight. He is a passionate scholar of martial arts history and collector of Kakushi-Buki, the hidden weapons of Japanese warriors.

WARS CHANGE, WARRIORS DON'T We are all warriors. Each of us struggles every day to define and defend our sense of purpose and integrity, to justify our existence on the planet and to understand, if only within our own hearts, who we are and what we believe in. Do we fight by a code? If so, what is it? What is the Warrior Ethos? Where did it come from? What form does it take today? How do we (and how can we) use it and be true to it in our internal and external lives? The Warrior Ethos is intended not only for men and women in uniform, but artists, entrepreneurs and other warriors in other walks of life. The book examines the evolution of the warrior code of honor and "mental toughness." It goes back to the ancient Spartans and Athenians, to Caesar's

Romans, Alexander's Macedonians and the Persians of Cyrus the Great (not excluding the Garden of Eden and the primitive hunting band). Sources include Herodotus, Thucydides, Plutarch, Xenophon, Vegetius, Arrian and Curtius--and on down to Gen. George Patton, Field Marshal Erwin Rommel, and Israeli Minister of Defense, Moshe Dayan.

The inspiring story of Nate Ebner's bond with his unconventional father and its remarkable consequences Nate Ebner and his father were inseparable. From an early age, they worked side-by-side in the family junkyard and worked out side-by-side in their grungy homemade gym. Nate followed his father's passion for rugby and started playing for the same club as his father when he was only thirteen years old. But eventually, he had to face the fact that there was no way to make a living as a professional rugby player in this country. So Nate gave his dad the news that he planned to quit rugby and go out for the football team at Ohio State University, with an eye toward making the NFL. As a goal for someone who hadn't even played high school football, this was completely ridiculous. Without blinking, his father told him that if he gave up what he had built in rugby, he had to see it

through. It was the last conversation they ever had--the next day, his father was brutally murdered at work by a would-be robber. Three Super Bowl rings later, Nate's legacy football is secure. But he got an unexpected chance to honor his father's memory when the Olympics admitted rugby as a sport for the 2016 Games. Against long odds, he made the team and competed in Rio in the sport he and his father loved above all others. An astonishing story of what a father will do for a son and what a son will do for a father, *Finish Strong* is a powerful reminder that the lessons parents embody for their children continue to bear fruit long after they are gone.
