Opening night at Mary's Place draws a packed house, including Lucky Duck, who has a talent for defying the laws of probability; a member of Ireland's fairy folk; and a mysterious

stranger carrying around a deadly secret Callahan's Crosstime Saloon Prima Lifestyles
'Twas the night (okay, more like the week) before Christmas, and all through the tiny community of Pine Cove, California, people are busy buying, wrapping, packing, and generally getting into the holiday spirit. But not everybody is feeling the joy. Little Joshua Barker is in desperate

need of a holiday miracle. No, he's not on his deathbed; no, his dog hasn't run away from home. But Josh is sure that he saw Santa take a shovel to the head, and now the seven-year-old has only one prayer: Please, Santa, come back from the dead. But hold on! There's an angel waiting in the wings. (Wings, get it?) It's none other than the Archangel Raziel come to Earth seeking a small child with a wish

that needs granting. Unfortunately, our angel's not sporting the brightest halo in the bunch, and before you can say "Kris Kringle," he's botched his sacred mission and sent the residents of Pine Cove headlong into Christmas chaos, culminating in the most hilarious and horrifying holiday party the town has ever seen. Move over, Charles Dickens -- it's Christopher Moore time.

 "The Uplift books are as compulsive reading as anything ever published in the genre."—The Encyclopedia of Science Fiction
 In all the universe, no species has ever reached for the stars without the guidance of a patron—except perhaps mankind. Did some mysterious race begin the uplift of humanity aeons ago? And if so, why did they abandon us?

Circling the sun, under the caverns of Mercury, Expedition Sundiver prepares for the most momentous voyage in our history. A journey into the boiling inferno of the sun . . . to seek our destiny in the cosmic order of life. Callahan's Legacy Tor Books
In New York Times-bestselling science fiction epic *Out of the Dark*, Earth beat back an alien invasion. Now we've got to make sure they don't come back, in

Into the Light. The Shongairi conquered Earth. In mere minutes, half the human race died, and our cities lay in shattered ruins. But the Shongairi didn't expect the survivors' tenacity. And, crucially, they didn't know that Earth harbored two species of intelligent, tool-using bipeds. One of them was us. The other, long-lived and lethal, was hiding in the mountains of eastern Europe, the subject of fantasy and

legend. When they emerged and made alliance with humankind, the invading aliens didn't stand a chance. Now Earth is once again ours. Aided by the advanced tech the aliens left behind, we're rebuilding as fast as we can. Meanwhile, a select few of our blood-drinking immortals are on their way to the Shongairi homeworld, having commandeered one of the alien starships...the

planet-busting kind. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. The Flying Tigers Macmillan A youth who has known only the primitive life of a galaxy slave is purchased by a beggar who turns out to be a man with many extracurricular activities. Callahan's Secret Courier Dover Publications The thrilling story behind

the American pilots who were secretly recruited to defend the nation's desperate Chinese allies before Pearl Harbor and ended up on the front lines of the war against the Japanese in the Pacific. Sam Kleiner's The Flying Tigers uncovers the hidden story of the group of young American men and women who crossed the Pacific before Pearl Harbor to risk their lives defending China. Led by

legendary army pilot Claire Chennault, these men left behind an America still at peace in the summer of 1941 using false identities to travel across the Pacific to a run-down airbase in the jungles of Burma. In the wake of the disaster at Pearl Harbor this motley crew was the first group of Americans to take on the Japanese in combat, shooting down hundreds of Japanese aircraft in the

skies over Burma, Thailand, and China. At a time when the Allies were being defeated across the globe, the Flying Tigers' exploits gave hope to Americans and Chinese alike. Kleiner takes readers into the cockpits of their iconic shark-nosed P-40 planes—one of the most familiar images of the war—as the Tigers perform nail-biting missions against the Japanese. He

profiles the outsize personalities involved in the operation, including Chennault, whose aggressive tactics went against the prevailing wisdom of military strategy; Greg “Pappy” Boyington, the man who would become the nation's most beloved pilot until he was shot down and became a POW; Emma Foster, one of the nurses in the unit who had a passionate romance with a pilot named

John Petach; and Madame Chiang Kai-shek herself, who first brought Chennault to China and who would come to visit these young Americans. A dramatic story of a covert operation whose very existence would have scandalized an isolationist United States, *The Flying Tigers* is the unforgettable account of a group of Americans whose heroism changed the world, and who cemented

an alliance between the United States and China as both nations fought against seemingly insurmountable odds.
