The Olympics: The Basics is an accessible, contemporary introduction to the Olympic movement and Games. Chapters explain how the Olympics transcend sports, engaging us with a range of contemporary philosophical, social, cultural and political matters, including: peace development and diplomacy management and economics corruption, terror and activism the rise of human enhancement ethics and environmentalism. This book explores the controversy and the legacy of the Olympics, drawing attention to the deeper values of Olympism, as the Olympic movement's most valuable intellectual property. This engaging, lively, and often challenging book, is essential reading for newcomers to Olympic studies and offers new insights for Olympic scholars.

Silicosis and the On-going Struggle to Protect Workers' Health
 Wilfrid Laurier Univ. Press

Contains papers presented at the symposium of the same name held in Bal Harbour, Fla., Oct. '87. A useful review. Annotation copyright Book News, Inc. Portland, Or.

The Olympics: The Basics Psychology Press

When the war ended on August 15, 1945, I was a naval engineering cadet at the Kure Navy Yard near Hiroshima, Japan. A week later, I was demobilized and returned to my home in Tokyo, fortunate not to find it ravaged by firebombing. At the beginning of September, a large contingent of the American occupation forces led by General Douglas MacArthur moved its base from Yokohama to Tokyo. Near my home I watched a procession of American military motor vehicles snaking along Highway 1. This truly awe-inspiring cavalcade included jeeps, two-and-a-half-ton trucks, and enormous trailers mounted with tanks and artillery. At the time, I was a 21-year-old student in the Machinery Section of Engineering at the Tokyo Imperial University. Watching that magnificent parade of military vehicles, I was more than impressed by the gap in industrial strength between Japan and the U. S. That realization led me to devote my whole life to the development of the Japanese auto industry. I wrote a small article concerning this incident in *Nikkei Sangyo Shimbun* (one of the leading business newspapers in Japan) on May 2, 1983. The English translation of this story was carried in the July 3, 1983 edition of the *Topeka Capital-Journal* and the September 13, 1983 issue of the *Asian*

Wall Street Journal. The *Topeka Capital-Journal* headline read, "MacArthur's Jeeps Were the Toyota Catalyst.

veloped and written in cooperation with the American Academy of Physician Assistants (AAPA) and the Association of Physician Assistant Programs (APAP), this authoritative manual for the National Commission on Certification of Physician Assistants Examinations (NCCPA) contains review material covering the critical content areas of the Certification (PANCE) and Recertification (PANRE) exams. Edited by a leader in PA education with contributions from PA instructors and practitioners, this manual includes a comprehensive 360-question exam in the last chapter and on CD-ROM (for Windows 95 and higher)

The Complete Course for Beginners Mosby Incorporated
 During the Depression, silicosis, an industrial lung disease, emerged as a national social crisis. Experts estimated that hundreds of thousands of workers were at risk of disease, disability, and death by inhaling silica in mines, foundries, and quarries. By the 1950s, however, silicosis was nearly forgotten by the media and health professionals. Asking what makes a health threat a public issue, David Rosner and Gerald Markowitz examine how a culture defines disease and how disease itself is understood at different moments in history. They also explore the interlocking relationships of public health, labor, business, and government to discuss who should assume responsibility for occupational disease. Back Cover "If there is a paradigmatic tale of occupational health . . . Deadly Dust is it." —James L. Weeks, *Science* "Rosner and Markowitz have produced a carefully crafted history of the rise and fall of this occupational disease, focusing especially on the political forces behind changing disease definitions. . . Deadly Dust comes as a fresh breeze into one of the more stuffy and too often ignored alleys of medical history."

—Robert N. Proctor, *The Journal of the American Medical Association* "A thought-provoking, densely referenced, uncompromising history. . . Like all good history, it challenges our basic assumptions about how the world is ordered and offers both factual information and a conceptual framework for rethinking what we 'know'." —Rosemary K. Sokas, *The New England Journal of Medicine* Back Cover continued "Deadly Dust raises an important methodological problem that has long gone underarticulated in medical historical circles: how can social historians of medicine offer political or economic explanations for the scientific efforts of their professional subjects without losing a grip on the biological aspects of disease?" —Christopher Sellers, *The Journal of the History of Medicine* "A sophisticated understanding of how class and conflict shape social, economic, political, and intellectual change underlies this first attempt at a history of occupational health spanning the twentieth century."

—Claudia Clark, *The Journal of American History*; FONT-FAMILY: Arial" "This volume is well worth reading as a significant contribution to American social history." —Charles O. Jackson, *The American Historical Review* David Rosner is Distinguished Professor of History and Sociomedical Sciences, and Director of the Center for the History and Ethics of Public Health, Columbia University. Gerald Markowitz is Professor of History at John Jay College of Criminal Justice of the City University of New York. *Colloquial Portuguese* Lusaka Punk and Other Stories: The Caine Prize for African Writing 2015

In an age of skepticism and disenchantment, people long for something that satisfies our mind's search for truth and our heart's desire for beauty and meaning. *Stand Firm: Apologetics and the Brilliance of the Gospel* argues that the gospel satisfies both of these needs. It is true and rational, but it is also inherently attractive and provides meaning and purpose. In short, the gospel is brilliant. It is brilliant, in one sense, because of the broad variety of evidences for its truth. But it is also brilliant given its beauty, goodness and the meaningful life it offers. The book provides up to date responses to questions about the existence of God, the reliability of the Bible, Jesus and the resurrection, and the problem of evil. It also treats unique topics such as understanding truth, knowledge and faith, the claims of alternate faiths, religious disagreement, etc. Each chapter attempts to connect these considerations with the gospel so that we may stand firm in our faith.

An illustrated guide to sex, blood and madness in Japanese exploitation cinema, including over 200 explicit and rare photographs.

For Business Men and Students of Affairs Lippincott Williams & Wilkins

Colloquial Portuguese: The Complete Course for Beginners has been carefully developed by an experienced teacher to provide a step-by-step course to Portuguese as it is written and spoken today. Combining a clear, practical and accessible style with a methodical and thorough treatment of the language, it equips learners with the essential skills needed to communicate confidently and effectively in Portuguese in a broad range of situations. No prior knowledge of the language is required. *Colloquial Portuguese* is exceptional; each unit presents a wealth of grammatical points that are reinforced with a wide range of exercises for regular practice. A full answer key, a grammar summary, bilingual glossaries and English translations of dialogues can be found at the back as well as useful vocabulary lists throughout. Key features include: A clear, user-friendly format designed to help learners progressively build up their speaking, listening, reading and writing skills Jargon-free, succinct and clearly structured explanations of grammar An extensive range of focused and dynamic supportive exercises Realistic and

entertaining dialogues covering a broad variety of narrative situations. Helpful cultural points explaining the customs and features of life in Portugal. An overview of the sounds of Portuguese. Balanced, comprehensive and rewarding. Colloquial Portuguese is an indispensable resource both for independent learners and students taking courses in Portuguese. Audio material to accompany the course is available to download free in MP3 format from www.routledge.com/cw/colloquials. Recorded by native speakers, the audio material features the dialogues and texts from the book and will help develop your listening and pronunciation skills.

The Constitution of Barbados Editions Quae

Violence is one of the most important challenges, not only for public health systems, but also for public mental health. Violence can have immediate as well as long-term and even transgenerational effects on the mental health of its victims. This book provides a comprehensive and wide-ranging assessment of the mental health legacy left by violence. It addresses the issues as they affect states, communities and families, in other words at macro-, meso- and microlevels, beginning by describing the impact of violence on neurobiology and mental health, as well as the spectrum of syndromes and disorders associated with different forms of violence. The work moves on to tackle violence at the international—and intranational—level before zeroing in on the nature of violence in communities such as villages or city districts. It also examines the results of violence in the family. Each type of violence has distinct effects on mental health and in each chapter specific groups are explored in depth to demonstrate the heterogeneity of violence as well as the diversity of its outcomes in the realm of public mental health. Finally, the book addresses the notion of 'undoing violence' by detailing case studies of effective interventions and prevention occurring in countries, communities and families. These cases give us pause to reflect on the nature of resilience and dignity in the context of violence and mental health. All the chapters have been written by leading authors in the field and provide a state-of-the-art perspective. The authors, from different fields of expertise, facilitate interdisciplinary and international insights into the impact of violence on mental health.

A Companion to Latin American Literature Arms & Armour We began with the intention of monographing *Chalara* and very similar fungi (*Excioconidium*, etc.). We soon extended the scope of our study to encompass those dimorphic imperfect genera with *Chalara*-like phialides (*Thielaviopsis*, *Chalaropsis*, *Stilbochalam*, *Hughesiella*), then to cover two other genera with *Chalara*-like phialides but having characteristic ancillary sterile structures (*Chaetochalara*, *Sporoschisma*). Finally we considered several

other genera with phialides having more or less cylindrical collarettes and deep-seated conidiogenous loci (*Bloxamia*, *Endosporostilbe*, *Ascoconidium*, *Sporendocladia*) or whose descriptions raised the suspicion that they had such attributes (*Endoconidium*, *Columnophora*, *Milowia*). To have extended the study further would have meant including phialidic genera which, although often having relatively deep collarettes, were otherwise not particularly morphologically comparable to *Chalara* (*Catenularia*, *Phialophora*, *Phialocephala*, *Sporoschismopsis*). Our study, which began as an attempt to revise one genus, thus finished up by considering fifteen existing generic names (five reduced to synonymy, one to the status of *nomen dubium*) and adding one additional generic name (first published elsewhere). Readers will find in the taxonomic part of this book a compilation of descriptions and illustrations of species of *Sporoschisma* and *Fusichalara*. Some may consider these redundant, especially since we have added nothing significantly new to what is already known about them: our purpose in including them is solely to bring together all taxonomic data relating to *Chalara* and other closely allied genera in a single source-book.

Winter, White and Wicked Routledge

Mad Max: Fury Road meets **Frozen** in this striking YA fantasy about a rig driver's journey to save her friend. Twice-orphaned Sylvi has chipped out a niche for herself on Layce, an island cursed by eternal winter. Alone in her truck, she takes comfort in two things: the solitude of the roads and the favor of Winter, an icy spirit who has protected her since she was a child. Sylvi likes the road, where no one asks who her parents were or what she thinks of the rebels in the north. But when her best friend, Lenore, runs off with the rebels, Sylvi must make a haul too late in the season for a smuggler she wouldn't normally work with, the infamous Mars Dresden. Alongside his team—Hyla, a giant warrior woman and Kyn, a boy with skin like stone—Sylvi will do whatever it takes to save her friend. But when the time comes, she'll have to choose: safety, anonymity, and the favor of Winter—or the future of the island that she calls home.
