Empower students to become sophisticated thinkers with THINKING CRITICALLY, 12th Edition, which teaches the fundamental cognitive process that allows students to develop higher-order thinking abilities needed for academic and career success. Students learn to think critically about subjects drawn from academic disciplines, current issues, and life experiences. Author John Chaffee begins with basic skills related to personal experience and then progresses to the more sophisticated reasoning skills required for abstract contexts. Each chapter provides an overview of an aspect of critical thinking, such as problem solving, perception, and the nature of beliefs. Activities and writing assignments invite active participation and prompt students to critically examine others' thinking, as well as their own. Readings engage students in thinking about complex issues from various perspectives. What happens when media and politics become forms of entertainment? As our world begins to look more and more like Orwell's 1984, Neil's Postman's essential guide to the modern media is more

relevant than ever. "It's unlikely that Trump has ever read Amusing Ourselves to Death, but his ascent would not have surprised Postman." -CNN Originally published in 1985, Neil Postman's groundbreaking polemic about the corrosive effects of television on our politics and public discourse has been hailed as a twenty-first-century book published in the twentieth century. Now, with television joined by more sophisticated electronic media—from the Internet to cell phones to DVDs—it has taken on even greater significance. Amusing Ourselves to Death is a prophetic look at what happens when politics, journalism, education, and even religion become subject to the demands of entertainment. It is also a blueprint for regaining control of our media, so that they can serve our highest goals. "A brilliant, powerful, and important book. This is an indictment that Postman has laid down and, so far as I can see, an irrefutable one." -Jonathan Yardley, The Washington Post Book World *The California Critical Thinking Skills Test : CCTST* Cengage Learning CRITICAL THINKING, THOUGHTFUL WRITING begins with the premise that thinking well involves using language well, and vice versa. This rhetoric with readings—written by critical-thinking scholar John Chaffee and English professors Christine McMahon and Barbara Stout—provides thorough coverage of the writing process, going beyond the traditional rhetoric to teach students how to evaluate sources, images, and arguments. Each chapter focuses on a critical-thinking skill—such as problem solving or analysis of complex issues—that is explored through "Thinking-Writing Activities" and thematically linked readings. The text helps students develop these skills through carefully sequenced pedagogy and a cross-disciplinary approach that asks them to complete writing assignments and critically evaluate readings drawn from a variety of disciplines. The Fifth Edition offers new readings, a new "Thinking Critically About New Media" feature in each chapter, and more photos, which emphasize visual rhetoric.

This comprehensive, evidence-based examination looks at violence and security across the entire spectrum of education, from preschool through college. In *Violence and Security on Campus: From Preschool through College* two expert authors take an evidence-based look at this important issue, dispelling myths and misconceptions about the problem and offering appropriate responses to it. Their book examines patterns, trends, correlations, and causes of violence, crime, and disorder in diverse educational settings, from elementary schools through colleges and universities. It reviews data and research evidence related to forms of violence, from bullying to murder, and it explores the varied security concerns that confront schools of different levels. In addition to describing the nature and extent of the school violence problem, which is often divergent from media reports, the authors point to other security issues that need to be considered and addressed by administrators and security personnel. Finally, they assess a variety of policy responses and security solutions--some popular yet ineffective, some challenging yet promising--offering advice that will enhance the security of any institution of learning.
