Decolonization in Africa
Oxford University
Press, USA
On 21st November
2017 Robert Mugabe
resigned as President
of Zimbabwe after 37
years in power. A week

earlier the military had
seized control of the
country and forced him
to step down as leader
of the ruling Zanu-PF
party. In this revised
and updated edition of
his classic biography,
Stephen Chan seeks to
explain and interpret
Mugabe in his role as a
key player in the
politics of Southern

Africa. In this masterly portrait of one of Africa's longest-serving leaders, Mugabe's character unfolds with the ebb and flow of triumph and crisis. Mugabe's story is Zimbabwe's - from the post-independence hopes of idealism and reconciliation to electoral victory, the successful intervention in the international politics of Southern Africa and the resistance to South Africa's policy of apartheid. But a darker picture emerged early with the savage crushing of the Matabeleland rising, the elimination of political opponents, growing corruption and disastrous intervention in the Congo war, all worsened by drought and the HIV/AIDS crisis. Stephen Chan's highly

revealing biography, based on close personal knowledge of Zimbabwe, depicts the emergence and eventual downfall of a ruthless and single-minded despot amassing and tightly clinging to political power. We follow the triumphant nationalist leader who reconciled all in the new multiracial Zimbabwe, degenerate into a petty tyrant consumed by hubris and self-righteousness and ultimately face an ignominious endgame at the hands of his own army.

The History of Africa
Aldridge

In a single volume, "History of Africa" offers an illustrated and critical narrative introduction to the history of the continent from earliest times to

the present. Beginning with the evolution of mankind itself, the book traces the history of Africa through the millennia of the ancient world to the centuries of medieval and modern Africa. The clear and simple language the wealth of carefully chosen maps combine to make an essential and accessible text.

Africa and Africans

Markus Wiener Pub
Tells the story of two popular revolutions in Ghana, both of them led by the same man, Flight Lieutenant Jerry Rawlings, now Head of Ghana's government, the Provisional National Defence Council. The book includes interviews with many of the key players in the drama, including Rawlings himself.

The Scramble for

Africa Langaa RPCIG

This is an illustrated "graphic history" based on an 1876 court transcript of a West African woman named Abina, who was wrongfully enslaved and took her case to court. The main scenes of the story take place in the courtroom, where Abina strives to convince a series of "important men"--A British judge, two Euro-African attorneys, a wealthy African country "gentleman," and a jury of local leaders --that her rights matter.--

Abdi Ismail Samatar provides a clear and foundational history of Somalia at the dawn of the country's

independence when Africa's first democrats appeared. While many African countries were dominated by authoritarian rulers when they entered the postcolonial era—and scholars have assumed this as a standard feature of political leadership on the continent—Somalia had an authentic democratic leadership. Samatar's political biography of Aden A. Osman and Abdirazak H. Hussen breaks the stereotype of brutal African tyranny. Samatar discusses the framing of democracy in Somalia following the years of control by fascist Italy, the formation of democratic organizations during the political struggle, and the establishment of democratic

foundations in the new nation. Even though this early state of affairs did not last, these leaders left behind a strong democratic legacy that may provide a model of good governance for the rest of the continent.

African history before 1885 Routledge

Luka Jantjie is today a largely forgotten hero of resistance to British colonialism. His place in South African history has tended to be overshadowed by events elsewhere in the region. This book attempts to redress the balance by recording his remarkable story. In 1870, at the beginning of the Kimberley diamond mining boom that was to transform southern Africa, Luka Jantjie was the first independent

African ruler to lose his land to the new colonialists, who promptly annexed the diamond fields. His outspoken stand against the hypocrisy of colonial 'justice' earned him the epithet: "a wild fellow who hates the English". As the son of an early Christian convert, Luka was brought up to respect peace and non-violence; his boycott of rural trading stores in the early 1890s was perhaps the earliest use of non-violent resistance in colonial South Africa. His steady refusal to bow to colonial demands of subservience intensified the enmity of local colonists determined to 'teach him a lesson'. As many of his people succumbed to colonial pressures, Luka was

twice forced to take up arms to defend himself and his people from colonial attacks. His life ended in a dramatic and heroic last stand in the ancestral sanctuary of the Langeberg mountain range; its tragic consequences stretched far into the next century.

A History of Africa

Bloomsbury Publishing
Drawing on many years of African experience, John Reader has written a book of startling

grandeur and scope that recreates the great panorama of African history, from the primeval cataclysms that formed the continent to the political upheavals facing much of the continent today. Reader tells the extraordinary story of humankind's adaptation to the ferocious obstacles of forest, river and desert, and to the threat of debilitating parasites, bacteria and viruses unmatched elsewhere in the world. He also shows how the world's richest assortment of animals and plants has helped - or hindered - human progress in Africa.

Sowing the Mustard Seed Boydell & Brewer Ltd

This fourth edition of this best-selling core

history textbook offers a richly illustrated, single volume, narrative introduction to African history, from a hugely respected authority in the field. The market-leading range of illustrated material from prior editions is now further improved, featuring not only additional and redrawn maps and a refreshed selection of photographs, but the addition of full colour to make these even more instructive, evocative and attractive. Already hugely popular on introductory African History courses, the book has been widely praised for its engaging and readable style, and is unrivalled in scope, both geographically and chronologically - while many competitors limit

themselves to certain regions or eras, Shillington chronicles the entire continent, from prehistory right up to the present day. For this new edition, both content and layout have been thoroughly refreshed and restructured to make this wealth of material easily navigable, and even more appealing to students unfamiliar with the subject. New to this Edition: - Now in full colour with fresh new design - Part structure and part intros added to help navigation - New and improved online resources include a new testbank, interactive timelines, lecturer slides, debates In African history, essay questions and further readings - Revised and updated in

The Idea of Development in Africa challenges prevailing international development discourses about the continent, by tracing the history of ideas, practices, and 'problems' of development used in Africa. In doing so, it offers an innovative approach to examining the history and culture of development through the lens of the

development episteme, which has been foundational to the 'idea of Africa' in western discourses since the early 1800s. The study weaves together an historical narrative of how the idea of development emerged with an account of the policies and practices of development in colonial and postcolonial Africa. The book highlights four enduring themes in African development, including their present-day ramifications: domesticity, education, health, and industrialization. Offering a balance between historical overview and analysis of past and present case studies, Elisabeth McMahon and Corrie Decker demonstrate that Africans have

always co-opted, challenged, and reformed the idea of development, even as the western-centric development episteme presumes a one-way flow of ideas and funding from the West to Africa.

Chicago Review Press
John Hargreaves examines how the British, French, Belgian, Spanish and Portuguese colonies in tropical Africa became independent in the postwar years, and in doing so transformed the international landscape. African demands for independence and colonial plans for reform - central to the story - are seen here in the wider context of changing international relationships.

Albert Rene is a towering figure of modern Seychelle, an archipelago in the Indian Ocean, east of mainland Southeast Africa and northeast of the island of Madagascar. He arouses intense emotions in both admirers and opponents. This first full-length biography analyzes Rene's early years, his political awakening, and his struggle for full electoral support in the face of strong opposition. Frustrated by the slow pace of Seychelle's economic development and the extent of social division along racial lines, Albert Rene took the fateful decision to seize power by coup d'etat in 1977. It is a dramatic story, which includes

an attempted invasion by South African mercenaries. In 1992-93, Rene finessed a change from a one-party socialist state to multi-party rule. He bequeathed to his successor a transformed nation that had shed its oppressive racial hierarchy and had attained the highest social and economic indicators within the African region. Underlying the political drama is the story of the compassion and romance of the all too human man that is Albert Rene. The book adds authority to this account by the depth of research through archives and contemporary newspapers, as well as extensive interviews covering both his political and personal

life, the latter including interviews with all three of Albert Rene's wives. *** "A saga of political drama, struggle, and ultimately hope...fascinating from cover to cover, and highly recommended especially for public and college library biography collections." -- Midwest Book Review, Library Bookwatch, The Biography Shelf, October 2014 [Subject: Biography, Politics, History, African Studies]Ã?Ã?Ã?Ã?Ã?Ã?Ã?Ã?Ã?Ã?
Africa's First Democrats Cambridge University Press
 In 1870 barely one tenth of Africa was under European control. By 1914 only about one tenth - Abyssinia (Ethiopia) and Liberia - was not.

This book offers a clear and concise account of the 'scramble' or 'race' for Africa, the period of around 20 years during which European powers carved up the continent with little or no consultation of its inhabitants. In her classic overview, M.E. Chamberlain: Contrasts the Victorian image of Africa with what we now know of African civilisation and history Examines in detail case histories from Egypt to Zimbabwe Argues that the history and background of Africa are as important as European politics and diplomacy in understanding the 'scramble' Considers the historiography of the topic, taking into account Marxist and anti-Marxist, financial, economic, political and strategic theories of

European imperialism This indispensable introduction, now in a fully updated third edition, provides the most accessible survey of the 'scramble for Africa' currently available. The new edition includes primary source material unpublished elsewhere, new illustrations and additional pedagogical features. It is the perfect starting point for any study of this period in African history.

The Fortunes of Africa

Routledge

African History For Beginners explores the rich history of this continent of contrasts. Discover the glory of the Pharaohs and Towers of Zimbabwe, the cosmology of the Yoruba, the courage of the Masai and the

golden wonders of Mali, the art treasures of the Bushongo and the sophistication of the Egyptians. It is a unique documentary portrait of the Africans' struggle to preserve their cultural heritage and homeland. Recent archeological discoveries indicate that Africa was the birth place of humankind. Over the ages, the riches and wonders of Africa have attracted the world. Yet the Africans themselves often remained unknown or misunderstood. Here is a book to set the historical record straight.

The Yoruba Routledge
The Yoruba: A New History is the first transdisciplinary study of the two-thousand-year journey of the Yoruba people, from

their origins in a small corner of the Niger-Benue Confluence in present-day Nigeria to becoming one of the most populous cultural groups on the African continent. Weaving together archaeology with linguistics, environmental science with oral traditions, and material culture with mythology, Ogundiran examines the local, regional, and even global dimensions of Yoruba history. The Yoruba: A New History offers an intriguing cultural, political, economic, intellectual, and social history from ca. 300 BC to 1840. It accounts for the events, peoples, and practices, as well as the theories of knowledge, ways of being, and social valuations that shaped the Yoruba experience

at different junctures of time. The result is a new framework for understanding the Yoruba past and present.
