Did you know that an estimated 5,000 blacks were an early and integral part of the California Gold Rush? Did you know that black history in California precedes Gold Rush history by some 300 years? Did you know that in California during the Gold Rush, blacks created one of the wealthiest, most culturally advanced, most politically active communities in the nation? Few people are aware of the intriguing, dynamic often wholly inspirational stories of African American argonauts, from backgrounds as diverse as those of their less sturdy-complexioned peers. Defying strict California fugitive slave laws and an unforgiving court testimony ban in a state that declared itself free, black men and women combined skill, ambition and courage and rose to

meet that daunting challenge with dignity, determination and even a certain élan, leaving behind a legacy that has gone starkly under-reported. Mainstream history tends to contribute to the illusion that African Americans were all but absent from the California Gold Rush experience. This remarkable book, illustrated with dozens of photos, offers definitive contradiction to that illusion and opens a door that leads the reader into a forgotten world long shrouded behind the shadowy curtains of time. The Gold Rush to California, 1848 to 1850 U of Nebraska Press  
Between 1849 and 1853 shares in nearly 120 public companies to exploit the booming goldfields of California and Australia were offered to the British public. The companies were collectively capitalised at over £15 million, but in the end only some £1.75 million was actually raised between 42 of them, with only one company surviving what the

newspapers of the day described as a 'gold bubble'. This book provides an overview of the entire bubble event, its antecedents and its outcomes. A number of researchers have investigated an earlier boom in the mid-1820s to reopen gold and silver mines in Latin America and several have studied individual company operations of that period. This is the first detailed investigation of the British gold bubble companies of the 1850s and their involvement in the almost simultaneous gold rushes on both sides of the Pacific Ocean.

The story of the California Gold Rush is one of unanticipated, rapid, and momentous change. In 1848, California was a remote and underpopulated province of Mexico; by 1850 it had become part of the United States and produced one-third of the gold in the world. Popularly, the Gold Rush is remembered as a pleasant adventure in which many prospectors not only became wealthy but furthered national expansion. Yet few prospectors struck it rich, the Gold Rush was characterized by appalling

violence, and the environmental consequences of mining were devastating. In this volume, Andrew C. Isenberg confronts these controversies and paradoxes directly. The collection focuses on the social and environmental context and consequences of the Gold Rush, and considers, in the final section, whether the popular memory and scholarly understanding of the Gold Rush reflect that context and those consequences. A Chronology, Questions for Consideration, maps, and a Selected Bibliography all enrich students' understanding of the California Gold Rush. *Women in the California Gold Rush* Ashgate Publishing, Ltd. *The World Rushed In* The California Gold Rush Experience University of Oklahoma Press **A Collection of Documents from the Period 1847 to 1865 in which are Described Some of the Things that Happened to Some of the Indians of California** University of Oklahoma Press "Skillfully selected, translated, and annotated, this compelling compendium of voices bear witness to

the diversity and depth of the Chinese American experience and, significantly, its indispensable centrality to American life and history."--Gary Y. Okihiro, author of *Common Ground: Reimagining American History* "Here at last is a wide-ranging record of Chinese American experiences from the viewpoints of the players. *Chinese American Voices* is an impressive feat of scholarship, an indispensable reference, and a compelling read."--Ruthanne Lum McCunn, author of *Thousand Pieces of Gold* and *The Moon Pearl* "This anthology offers a virtual "Gam Saan" (Gold Mountain) of original sources. The stories burst with telling and re-affirm a vision of men and women as actors in history, who made themselves as Chinese Americans as they helped to make America itself."--Ronald Takaki, author of *Strangers from a Different Shore: A History of Asian Americans* "This volume of sixty-two annotated documents, many translated from Chinese for the first time, is a boon to faculty and students interested in Chinese American history, Asian American history, U.S.

immigration history, and race and ethnic relations. The life stories, in particular, are appealing for students, the reading public, and scholars alike as they hear the voices of individuals long misunderstood, denigrated, and silenced. All of us owe a debt of gratitude to the three editors for their dedicated labor of love."--Sucheng Chan, author of *Chinese American Transnationalism: The Flow of People, Resources, and Ideas between China and America during the Exclusion Era* "This is a superb collection."--Roger Daniels, author of *Guarding the Golden Door: American Immigration Policy and Immigrants since 1882* *Sisters of Fortune* UPNE When The World Rushed In was first published in 1981, the Washington Post predicted, "It seems unlikely that anyone will write a more comprehensive book about the Gold Rush." Twenty years later, no one has emerged to contradict that judgment, and the book has gained recognition as a classic. As the San Francisco Examiner noted, "It is not often that a work of history can be said to

supplant every book on the same subject that has gone before it." Through the diary and letters of William Swain-- augmented by interpolations from more than five hundred other gold seekers and by letters sent to Swain from his wife and brother back home--the complete cycle of the gold rush is recreated: the overland migration of over thirty thousand men, the struggle to "strike it rich" in the mining camps of the Sierra Nevadas, and the return home through the jungles of the Isthmus of Panama. In a new preface, the author reappraises our continuing fascination with the "gold rush experience" as a defining epoch in western--indeed, American--history. **The Age of Gold** Vanderbilt University Press A history of the California Gold Rush documents the first discovery of raw gold in 1848, the dangerous and lengthy routes to San Francisco, and the hordes of fortune-seeking people from all over the world who journeyed there. **A Brief History with Documents** Macmillan Pt. The California gold rush of 1849 was a defining era in U.S. History. The discovery of gold led to a mass migration to the country's west coast not only from the East Coast, but from all over the world. Travellers thronged to the area in the hope of becoming rich, but the truth is, few did. Many more made a living selling

goods and services to the gold miners. This volume is packed with fascinating primary sources that bring the gold rush to life for readers. Readers will view and analyze numerous primary sources, including paintings, handwritten documents, political cartoons, photographs, and more. Sidebars encourage students to ask and answer questions about primary sources surrounding the gold rush.

### **The Destruction of California Indians**

Golden Owl Publishers  
John A. Sutter (1803-1880) could have become one of the richest men in California when gold was found on his property. Instead he lost his vast land holdings on the Sacramento and Feather Rivers and eventually left California penniless. Sutter always claimed to be the victim of charlatans, but he bore considerable responsibility for his downfall. He had amassed huge debts before the gold discovery and added even more afterward. In the rough dealings of frontier capitalism in gold rush California, Sutter was easy prey. Soon after the gold discovery, Sutter's eldest son, John Jr., (1826-1897) arrived, but soon moved south to

Mexico. Hoping to obtain compensation for the land that he and his father had lost, John, Jr., returned to California in 1855 to give his lawyer a thorough statement cataloging how both Sutters were swindled. This extensive document describes the dirty deals of the first great gold rush in the western United States. Sutter's statement has not been available for sixty years. Editor Allan R. Ottley reproduced and annotated this statement, providing a full biographical context and offering an appendix, bibliography, and index. Albert L. Hurtado's introduction updates the book, originally published in 1942.

California is a contentious arena for the study of the Native American past. Some critics say genocide characterized the early conduct of Indian affairs in the state; others say humanitarian concerns. Robert F. Heizer, in the

former camp, has compiled a damning collection of contemporaneous accounts that will provoke students of California history to look deeply into the state's record of race relations and to question bland generalizations about the adventuresome days of the Gold Rush. Robert F. Heizer's many works include the classic *The Other Californians: Prejudice and Discrimination under Spain, Mexico, and the United States to 1920* (1971), written with Alan Almquist. In his introduction, Albert L. Hurtado sets the documents in historical context and considers Heizer's influence on scholarship as well as the advances made since his death. A professor of history at Arizona State University, Hurtado is the author of *Indian Survival on the California Frontier*. *California Gold Rush Pioneer* Wayne State University Press

Rare-book dealer Peter Fallon returns in a thrilling historical novel about the California Gold Rush, by New York Times bestselling author William Martin *Bound for Gold* continues New York Times bestselling author William Martin's epic of American

history with the further adventures of Boston rare-book dealer Peter Fallon and his girlfriend, Evangeline Carrington. They are headed to California, where their search for a lost journal takes them into the history of Gold Rush. The journal follows young James Spencer, of the Sagamore Mining Company, on a spectacular journey from staid Boston, up the Sacramento River to the Mother Lode. During his search for a "lost river of gold," Spencer confronts vengeance, greed, and racism in himself and others, and builds one of California's first mercantile empires. In the present, Peter Fallon's son asks his father for help appraising the rare books in the Spencer estate and reconstructing Spencer's seven-part journal, which has been stolen from the California Historical Society. Peter and Evangeline head for modern San Francisco and quickly discover that there's something much bigger and more dangerous going on, and Peter's son is in the middle of it. Turns out, that lost river of gold may be more than a myth. Past and present intertwine as two stories

of the eternal struggle for power and wealth become one. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

In January of 1848, James Marshall discovered gold at Sutter's Mill in the foothills of the Sierra Nevada. For a year afterward, news of this discovery spread outward from California and

started a mass migration to the gold fields. Thousands of people from the East Coast aspiring to start new lives in California financed their journey West on the assumption that they would be able to find wealth. Some were successful, many were not, but they all permanently changed the face of the American West. In this text, Mark Eifler examines the experiences of the miners, demonstrates how the gold rush affected the United

States, and traces the development of California and the American West in the second half of the nineteenth century. This migration dramatically shifted transportation systems in the US, led to a more powerful federal role in the West, and brought about mining regulation that lasted well into the twentieth century. Primary sources from the era and web materials help readers comprehend what it was like for these nineteenth-century Americans who gambled everything on the pursuit of gold.
