The Crisis of Authority in American

Evangelicalism Christian Focus

God's Marshall Plan tells the story of the

American Protestants who sought to

transform Germany into a new Christian

and democratic nation in the heart of

twentieth-century Europe. James D.

Strasburg follows the American pastors,

revivalists, diplomats, and spies who

crossed the Atlantic in an era of world

war, responded to the rise of totalitarian

dictators, and began to identify Europe

as a continent in need of saving. He

examines their far-reaching campaigns

to make Germany into the European

cornerstone of a new American-led

global spiritual order. God's Marshall

Plan illuminates the dramatic

ramifications of these efforts by showing

how the mission to remake Germany in

America's image actually remade

American Protestantism itself. American

Protestants realized they had come to

dramatically different conclusions about

how to rebuild the West out of the ruins

of war. European Protestants,

meanwhile, began to sharply protest

America's spiritual advance. Forsaking

their wartime nationalism, a growing number of ecumenical Protestants championed a new ethic of global fellowship, reconciliation, and justice. However, a fresh wave of evangelical Protestants emerged and ensured that the religious struggle would continue into the Cold War. Strasburg argues that the spiritual struggle for Europe ultimately forged two competing visions of global engagement: Christian nationalism and Christian globalism that transformed the United States, diplomacy, and politics in the Cold War and beyond.

Christianity For Dummies Bloomsbury Publishing

This book is a short introduction to one of the most remarkable transformations in the modern world that many people still do not know about. In 1900 more than 80 percent of the world's Christians lived in Europe and North America and nearly all of the world's missionaries were sent out "from the West to the rest." In a dramatic turn of events Christianity experienced a decidedly "Southern shift" during the twentieth century. Today nearly 70 percent of the world's 2.5 billion Christians live in Africa, Asia, and Latin America, while nearly half of all missionaries are being sent out into all the world from places like Brazil, Ethiopia, and South Korea. This book is intended to change the way readers think about the church and challenge the way the Western Christians engage in contemporary missions.

How to Talk About God in a Skeptical Age P & R Publishing

Gabriel Marcel reminds me that I asked him to write for this book. This is quite true, but not the whole story. During the visit with Ernest Hocking which he describes so eloquently in his essay,

"Solipsism Surmounted," he learned from Hocking's hostess, Elizabeth Hazard, that I was planning hopefully for a Hocking Festschrift. On his return to Harvard, where he was preparing his James Lectures, he wrote me offering an essay should these plans develop. Encouraged, I kept his letter while I moved my family to India and settled into a new job. When it was possible to begin work on the book in earnest I then made my request, reminding him of his original offer. I mention this because I discovered that his enthusiasm was to be typical of those who came to know about the project. Charles Moore commented that such a book was "long overdue," and Walter Stace spoke for us all when he said: "I am sure that there is no one in our profession who would not wish to be associated with any project in his honor." Given the wide range of Hocking's interests and influence, it was difficult to know just how the volume should be organized.

Jesus Christ Is the Same Yesterday, Today and Forever Crossway

This book sets out the history of "The American Experiment" in self-government focusing on its original legal documents, The Declaration of Independence and The Constitution. It discusses how and why such a 'Total Heresy' as self-government ever arose and has survived for nearly 250 years. One focus is on the original genius of the 'Separation of Powers' that has become so muddled since the Framers created the Constitution. The horror of the World Wars and key aspects of the Presidents from Eisenhower through Carter and the two Bushes are summarized. Presidents Reagan, Clinton, Obama, and Trump are discussed in increasing levels of detail. The failures of the Federal Department of Justice and the Federal Bureau of

Investigation beginning with the Enron prosecution are summarized. The issues of the appointment of Supreme Court Justices, immigration, and the rise of socialism/communism in America are discussed in some detail. The failed bloodless coup d'etat and impeachment attempts to remove President Trump from office are discussed in depth as are the climate change debate and the Green New Deal. The geopolitical world from Europe, to Russia, the Middle East, China and North Korea are discussed as they are directly affecting future American freedom. One of the last chapters discusses why western man and specifically America arrived at the pinnacle of civilization while others did not. Finally, the author closes with, "The Only Thing That Matters at the End of the Trail" - a summary of his wishes for not only his descendants, but all the World.

Reflections on History and Hope Wipf and Stock Publishers

Bishop Stephen Neill was one of the most prolific, accomplished, and fascinating Christian leaders of the global church in the twentieth century. Privileged to live in radically different cultural contexts over the course of his life, Neill was also a supremely gifted individual. He excelled by turns as a missionary, a bishop, an ecumenist, a professor, and a prolific author, all the while travelling around the world to share his tremendous knowledge of the world Christian movement with scholars, clergy and laypersons alike. This is the first complete biography of this influential figure, and builds on Daugherty's previous work *Bishop Stephen Neill: From Edinburgh to South India* (Peter Lang Publications, 2008). It stands to become the authoritative word on a man who understood Christianity's

changing contours better than most during the dramatic diversification that it underwent during his lifetime.

Having devoted my life to the study of history, I am prompted in my latter days to ask whether one can make sense of it all. --from the Introduction In this book, Bainton pauses to reflect on the importance of studying history because of what it can teach us about human nature. The study of history, then, is the study of human behavior and therefore it helps us understand ourselves. And with this greater self-understanding comes the further inquiry beyond the human--to God, Christ, and Christian ideals.

Readers who think history is as dry as dust have never read Bainton! In this book, Bainton shows that history is not only interesting, it's also important. One can indeed make sense of it all.

Apostles of Reason Covenant Books, Inc.

Because God has made himself known in his Word, a commitment to a high view of Scripture is of paramount importance. Sadly, more and more people—not only from outside the church but also from within—are denying the complete truthfulness of God's Word. Edited by

pastor John MacArthur, this compilation of essays by a host of evangelical pastors, theologians, historians, and biblical scholars contends that the Bible is completely true and without error—a foundational belief for those who claim to honor God and his Word. Exploring key Bible passages, events from church history, common criticisms, and pastoral applications, the contributors in this volume instill Christians with both the certainty and the courage to defend the inerrancy of God's Word—the means by which God has revealed himself and awakens sinners from death to life.

Survival and Revival Wm. B. Eerdmans Publishing

The old contrast between OC universalOCO and OC localOCO is now collapsing, but a new paradigm has yet to be defined. The contributors claim that the questions they raise will help redraw the lines of demarcation each in a unique way. Their collaborative result is a re-submission of the century-old question regarding OC the essence of Christianity, OCO and the readers will hear answers to this question resounding in polyphonic voices. The book will make a unique contribution to the scholarship by constructing a common forum connecting diasporic Asians and Oceanians who live and work in regions around the Pacific Ocean. Publication in the field of theology has been thick on the American side of the Pacific, and the agenda of discussion are shaped largely in accordance with the concerns of those living on the North-American continent and in British Isles. Theologians living on the other side of the Pacific, while in daily contact with the multi-religious realities that beg theological attention, sometimes lack means of engaging in sustained discussion with other theologians who are similarly struggling to gain insights into different cultural contexts. This book will provide a shared ground for reflection and discussion."

The Anointing Hassell Street Press Chronicles an important change in evangelicalism's focus, as observed through the pages of Christianity today, 1956-1999. The change is how the place of theology as the foundation for a coherent worldview has been replaced by a variety of interests. Evidence for

this transition is observed through six recognized evangelical leaders or events that have received significant attention in the publication. They are: Carl F. H. Henry, George Gallup, Philip Yancey, abortion activism, and Jim Bakker. Concludes with a study on the life of Billy Graham and his ministry through articles in Christianity today. These articles provide insight into the ability of evangelicalism to remain dedicated to transforming society through knowledge of the person and work of Christ as understood through an authoritative reading of Scripture.
