 comparable to
 that of
 overseas
 postcolonial
 countries? Or
 are such
 comparisons
 no more than
 patriotic
 victimology to
 mask Scottish

complicity in the British Empire and justify nationalism? These questions have been heatedly debated in recent years, especially in the run-up to the 2014 referendum on independence, and remain topical amid continuing campaigns for more autonomy and calls for a post-Brexit “indyref2.” Gaelic Scotland in the Colonial Imagination offers a general

introduction to the emerging field of postcolonial Scottish studies, assessing both its potential and limitations in order to promote further interdisciplinary dialogue. Accessible to readers from various backgrounds, the book combines overviews of theoretical, social, and cultural contexts with detailed case studies of literary and nonliterary texts. The main focus is

on internal divisions between the anglophone Lowlands and traditionally Gaelic Highlands, which also play a crucial role in Scottish-English relations. Silke Stroh shows how the image of Scotland’s Gaelic margins changed under the influence of two simultaneous developments: the emergence of the modern nation-state and the rise of overseas colonialism.

A Reader's Guide to Contemporary Literary Theory Random House Ngugi wrote his first novels and plays in English but was determined, even before his detention without trial in 1978, to move to writing in Gikuyu.

Colonialism/Postcolonialism Manchester University Press *Feature Films in English Language Teaching* deals with the use of motion pictures in the advanced EFL (English as a foreign language) classroom. It provides a general introduction to film literacy and explains the rationale, methods, and objectives of working with feature films. In addition, the book contains in-depth considerations on sixteen selected films, which are grouped regionally (Australia, New Zealand, South Africa, USA, Great Britain). Each chapter describes the topical focus of the film and its central theme and provides background information on social, historical, political, and geographical issues. A profound analysis of selected scenes lays the foundation for considerations on the teaching potential of the film. In a download section, the chapters are complemented with ready-to-use teaching materials on film-specific aspects

(narrative, dramatic and cinematographic dimensions), which are organised as pre-/while-/post-viewing activities. A glossary on technical terms for film analysis completes the volume.

Critical Theory Today

Manchester University Press
 Unsurpassed as a text for upper-division and beginning graduate students,
 Raman Selden's classic text is the liveliest,

most readable and most reliable guide to contemporary literary theory. Includes applications of theory, cross-referenced to Selden's companion volume, *Practicing Theory and Reading Literature. The Book of Secrets* Manchester University Press
 The concepts of 'youth' and the 'postcolonial' both inhabit a liminal locus where new ways of being in the world

are rehearsed and struggle for recognition against the impositions of dominant power structures. Departing from this premise, the present volume focuses on the experience of postcolonial youngsters in contemporary Britain as rendered in fiction, thus envisioning the postcolonial as a site of fruitful and potentially transformative friction between different identity

variables or sociocultural interpellations . In so doing, this volume provides varied evidence of the ability of literature—and of the short story genre, in particular—to represent and swiftly respond to a rapidly changing world as well as to the new socio-cultural realities and conflicts affecting our current global order and the generations to come. Contributors are: Isabel M. Andrés-Cuevas, Isabel

Carrera-Suárez, Claire Chambers, Blanka Grzegorzczak, Bettina Jansen, Indrani Karmakar, Carmen Lara-Rallo, Laura María Lojo-Rodríguez, Noemí Pereira-Ares, Gérald Préher, Susanne Reichl, Carla Rodríguez-González, Jorge Sacido-Romero, Karima Thomas and Laura Torres-Zúñiga. **Beginning postcolonialism** Open Road Media Explores the substance and significance of

J G Farrell's "The Empire Trilogy" (1970-1978), one of the major achievements of post-war fiction. This study assesses its critique of British colonial rule. It shows how his novels attempt to satirize the perspectives of those who served the Empire and were caught up in its decline. **Season of Adventure** Boydell & Brewer Colonialism/Postcolonialism is a comprehensive

e yet accessible guide to the historical and theoretical dimensions of colonial and postcolonial studies. Ania Loomba deftly introduces and examines: key features of the ideologies and history of colonialism the relationship of colonial discourse to literature challenges to colonialism, including anticolonial discourses recent developments in postcolonial theories and histories

issues of sexuality and colonialism, and the intersection of feminist and postcolonial thought debates about globalization and postcolonialism Recommended on courses across the academic disciplines and around the world, Colonialism/Postcolonialism has for some years been accepted as the essential introduction to a vibrant and politically charged area of literary and cultural study.

With new coverage of emerging debates around globalization, this second edition will continue to serve as the ideal guide for students new to colonial discourse theory, postcolonial studies or postcolonial theory as well as a reference for advanced students and teachers. *Beginning Postcolonialism* Fernwood Publishing This electronic version has been made available under a

Creative Commons (BY-NC-ND) open access license. Considering a wide range of early modern texts, performances and artworks, the essays in this collection demonstrate how attention to the senses illuminates the literature, art and culture of early modern England. Examining canonical and less familiar literary works alongside early modern texts ranging from medical treatises to conduct

manuals via puritan polemic and popular ballads, the collection offers a new view of the senses in early modern England. The volume offers dedicated essays on each of the five senses, each relating works of art to their cultural moments, whilst elsewhere the volume considers the senses collectively in particular cultural contexts. It also pursues the sensory experiences

that early modern subjects encountered through the very acts of engaging with texts, performances and artworks. This book will appeal to scholars of early modern literature and culture, to those working in sensory studies, and to anyone interested in the art and life of early modern England.

A
Cartographic Journey of Race, Gender and Power
 Penguin

In this second edition of *Beginning Theory*, the variety of approaches, theorists, and technical language is lucidly and expertly unraveled and explained, and allows readers to develop their own ideas once first principles have been grasped. Expanded and updated from the original edition first published in 1995, Peter Barry has incorporated all of the recent developments in literary

theory, adding two new chapters covering the emergent Eco-criticism and the re-emerging Narratology. *The Immigrant* Vintage Taking a strikingly interdisciplinary and global approach, *Postcolonialism Cross-Examined* reflects on the current status of postcolonial studies and attempts to break through traditional boundaries, creating a truly comparative and genuinely global

phenomenon. Drawing together the field of mainstream postcolonial studies with post-Soviet postcolonial studies and studies of the late Ottoman Empire, the contributors in this volume question many of the concepts and assumptions we have become accustomed to in postcolonial studies, creating a fresh new version of the field. The volume calls the merits of the field into question,

investigating how postcolonial studies may have perpetuated and normalized colonialism as an issue exclusive to Western colonial and imperial powers. The volume is the first to open a dialogue between three different areas of postcolonial scholarship that previously developed independently from one another: • the wide field of postcolonial studies working on

European colonialism, • the growing field of post-Soviet postcolonial/post-imperial studies, • the still fledgling field of post-Ottoman postcolonial/post-imperial studies, supported by sideways glances at the multidirectional conditions of interaction in East Africa and the East Indies. Postcolonialism Cross-Examined looks at topics such as humanism, nationalism, multiculturalis

m, nostalgia, and the Anthropocene in order to piece together a new, broader vision for postcolonial studies in the twenty-first century. By including territories other than those covered by the postcolonial mainstream, the book strives to reframe the “postcolonial” as a genuinely global phenomenon and develop multidirectional postcolonial perspectives. *Wide Sargasso Sea* OUP

Against those who would

deny, downplay or attempt to forget Britain’s imperial legacy, the various contributions expose and explore how the British Empire and the consequences of its end continue to shape Britain at the local, national and international level. As an important and urgent intervention in a field of increasing relevance within and beyond the academy, the book offers

fresh perspectives on the colonial hangovers in post-colonial Britain from up-and-coming as well as established scholars. **The Post-colonial Studies Reader** Northwestern University Press This book is very useful for the NET/SET/JRF aspirants because it has a short description of all the literary theories with Objective Questions with answer keys at the end of each chapter.

Moreover, It provides an additional Practice Test – I and Practice Test – II with solutions. Literary Theories are made simple for readers to understand. This book is acclaimed as one of the first of this kind in the book industry. Therefore, students of UG, PG, M.Phil, and Ph.D. research scholars, assistant professors, literary theory-aspirants can make use of this book. This book covers chapters such

as structuralism, poststructuralism, deconstruction, phenomenology, hermeneutics, postmodernism, postcolonialism, new historicism and post-humanism, feminism and ecocriticism. *Postcolonialism Cross-Examined* Sydney University Press De-Scribing Empire is a stunning collection of first-class essays. Collectively they examine the formative

role of books, writing and textuality in imperial control and the fashioning of colonial world-views. The volume as a whole puts forward strategies for understanding and neutralising that control, and as such is a major contribution to the field. It will be invaluable for students in post-colonialist criticism. The Routledge Companion To Postcolonial Studies GRIN Verlag Australian Made is a

collection of essays about the writers, the readers and the texts of multicultural Australia. Presenting the work of critics and scholars from both Australia and abroad, this collection creates a synergy between local and international perspectives as it explores what it means for a writer or a reader to be 'Australian' and a text to be 'Australian made'.

 Boasting new extracts from major works in the field, as well as an impressive list of contributors, this second edition of a bestselling Reader is an invaluable introduction to the most seminal texts in post-colonial theory and criticism.
Crossing the River BRILL
 The Oxford Handbook of Postcolonial Studies provides a comprehensive overview of the latest scholarship in postcolonial

studies, while also considering possible future developments in the field. Original chapters written by a worldwide team of contributors are organised into five cross-referenced sections, 'The Imperial Past', 'The Colonial Present', 'Theory and Practice', 'Across the Disciplines', and 'Across the World'. The chapters offer both country-specific and comparative approaches to

current issues, offering a wide range of new and interesting perspectives. The Handbook reflects the increasingly multidisciplinary nature of postcolonial studies and reiterates its continuing relevance to the study of both the colonial past, in its multiple manifestations, and the contemporary globalized world. Taken together, these essays, the dialogues they pursue, and the editorial comments that surround them constitute nothing less than a blueprint for the future of a much-contested but intellectually vibrant and politically engaged field.
