Use These Powerful Passive Income Secrets To Get Your Passive Income Today. Don't Work For The Money, Let The Money Work For You Imagine, rather than you working for money you instead made every dollar work for you 40hrs a week. Better still, imagine each and every dollar working for you 24/7 i.e. 168hrs/week. Figuring out the best ways you can make money work for you is an important step on the road to wealth creation. Passive income is income generated from a trade or business, which does not require the earner to

participate. It is often investment income (i.e. income that is not obtained through working) but not exclusively. The central tenet of this type of income is that it can expect to continue whether you continue working or not. As you near retirement you are most definitely seeking to replace earned income with passive, unearned income. The secret to wealth creation earlier on in life is passive income; positive cash-flow generated by assets that you control or own. One of the reasons people find it difficult to make the leap from earned income to more passive sources of income is that the entire education system is actually pretty much designed to teach us to do a job and hence rely largely on earned income. This works for governments as this kind of income generates large volumes of tax but will not work for you if you're focus is on how to become rich and wealth building. However, to become rich and create wealth you will be required to cross the chasm from relying on earned income only. So find yourself some time and build your empire, and to do just that, you need this book. Here is Just A Preview Of What You Will Learn...
