Special Features: · Accordant with the syllabi of various technical universities· Structured to support the objective of Engineering Chemistry course for undergraduates· Excellent correlation of concepts with their applications· Systematic chapter organization based on logical

progression of concepts.ü Builds the fundamentals of the subject in the initial chaptersü Comprehensively covers the applied topics in the field of engineering in the later chapters.ü Coherent chapter layout withü Clearly defined learning objectives.ü Introduction of topics, their precise and adequate explanation.ü Ample illustrations and diagrams.ü Solved examples at the end of relevant subtopics to strengthen the concepts.· Multiple-author model with content sourced from experts in respective areas of expertise (Inorganic, Organic, Physical, Analytical and Applied Chemistry) across geographies.· Comprehensive question bank at the end of each chapter containingü Objective type questions (classified into multiple-choice questions and fill in the blanks).ü Review questions (categorized into short-answer and long-answer type questions).ü Numerical problems.· Extensively reviewed content with single or multiple reviews by academicians of various technical universities for each chapter to generate error-free and accurate content. About The Book: The Engineering Chemistry course for undergraduate students is designed to strengthen the fundamentals of chemistry and then build an interface of theoretical concepts with their industrial/engineering applications. This book is structured keeping in view the objective of the course and is intended as a textbook for first year B.Tech/B.E. students of all engineering disciplines. The book aims to impart in-depth knowledge of the subject and highlight the role of chemistry in the field of engineering. The lucid explanation of the topics will help students understand the fundamental concepts and apply them to design engineering materials and solve problems related to them. An attempt

has been made to logically correlate the topic with its application. The extension of fundamentals of electrochemistry to energy storage devices such as commercial batteries and fuel cells is one such example. The layout for a topic is designed after detailed study and analysis of the syllabi of various technical universities. The chapter for each topic begins with clearly defined learning objectives, followed by introduction of subtopics, their precise and adequate explanation supported with ample illustrations and diagrams. Solved examples are given at the end of relevant subtopics to strengthen the concepts. The chapters conclude with a set of review and practice questions.

The company that is now Google began as a partnership of ideas between two Stanford University graduate students, Sergey Brin and Larry Page, with a shared vision. They both had the confidence and nerve to set out on their own to start up a technology company together. Eric Schmidt was recruited as CEO in 2001 to help guide the company with his management expertise, without changing its exuberant corporate culture. Google has grown from an ambitious little start-up with the dream of changing the world into a global giant that really could, and has, changed the world. In this compelling text, readers learn about Google's business model, the range of products and services—most of which the company gives away for free—and its mission: "to organize the world's information and make it universally accessible and useful." This perceptive book includes sidebars on the company's innovations, a biographical fact sheet on Brin, Page,

and Schmidt, as well as a fact sheet that profiles the company's key accomplishments. A timeline offers readers a concise overview of significant events in the history of Google.

In this student-friendly text, Jones and Singh explore the phenomenon of language change, with a particular focus on the social contexts of its occurrence and possible motivations, including speakers' intentions and attitudes. Presenting new or little-known data, the authors draw a distinction between "unconscious" and "deliberate" change. The discussion on "unconscious" change considers phenomena such as the emergence and obsolescence of individual languages, whilst the sections on "deliberate" change focus on issues of language planning, including the strategies of language revival and revitalization movements. There is also a detailed exploration of what is arguably the most extreme instance of "deliberate" change; language invention for real-world use. Examining an extensive range of language situations, *Exploring Language Change* makes a clear, but often ignored distinction between concepts such as language policy and planning, and language revival and revitalization. Also featured are a number of case studies which demonstrate that real-life language use is often much more complex than theoretical abstractions might suggest. This is a key text for students on a variety of courses, including sociolinguistics, historical linguistics and language policy and planning.

This grammar is a complete reference guide to the language of Indonesia as used by native speakers. The book is organised to promote a thorough understanding of Indonesian grammar. It presents the complexities of Indonesian in a concise and readable form. An extensive index, cross-referencing and a generous use of headings will provide readers with immediate access to the information they require. Key features: to aid clarity, all word groups and structures discussed are illustrated by natural examples of frequently used

words and expressions each section can be read independently, enabling the reader to focus on a specific aspect of the language, if required all major structures of Indonesian, from words to complex sentences are described in detail common grammatical terms used are all clearly defined in an extensive glossary. By providing a comprehensive description of Indonesian in a clear and non-technical manner, this grammar makes an ideal reference source for all users of the language, whether in colleges, universities or adult education classes of all types. James Neil Sneddon was Associate Professor in the Faculty of Asian and International Studies at Griffith University, with long experience teaching Indonesian language and linguistics. He is also author of *Understanding Indonesian Grammar*. Alexander Adelaar is Principal Fellow in the Asia Institute at the University of Melbourne. The Islamic Turks were poised to overrun Europe at The Battle of Vienna on September 11/12 of 1683, but were defeated. The Islamic Invasion As Mosques appear across the country people are asking-"What do I need to Know about Islam?" Islam-once an obscure Middle Eastern religion-has

rapidly grown into the second largest religion in the world. There are now more Muslims than Episcopalians in the United States! What attraction does Islam hold for its followers? What part does it play in shaping the outlook and attitudes of nearly one billion people? Noted author Dr. Robert A. Morey, internationally recognized authority on the origins of the teachings and rituals of Islam—explores the pre-Islamic history of Allah, and the doctrines and customs of Islam reveals Islam's teaching about current issues such as religious freedom and the role of women. *The Islamic Invasion* will give you the insight you need to understand Islam and the challenge it poses today. Dr. Morey warned the United States and Europe about Islam during the early 1980's long before 9/11. Most books on Islam since 9/11 have used his analysis of the Qur'an or Hadith. Special thanks to Professor Colin Akridge—who is a Vietnam Veteran and black scholar in the field of comparative religions—for his valuable and insightful contributions and working with him for researching and writing the section entitled *The Black Muslim Movement in America*. #### **Four Theories of the Press** Springer Science & Business Media

Presented here are four major theories behind the functioning of the world's presses: (1) the Authoritarian theory, which developed in the late Renaissance and was based on the idea that truth is the product of a few wise men; (2) the Libertarian theory, which arose from the works of men like Milton, Locke, Mill, and Jefferson and avowed that the search for truth is one of man's natural rights; (3) the Social Responsibility theory of the modern day: equal radio and television

time for political candidates, the obligations of the newspaper in a one-paper town, etc.; (4) the Soviet Communist theory, an expanded and more positive version of the old Authoritarian theory.

Non-literal language is ubiquitous in everyday life, and while hyperbole is a major part of this, it has so far remained relatively unexplored. This volume provides the first investigation of hyperbole in English, drawing on data from genres such as spoken conversation, TV, newspapers, and literary works from Chaucer to Monty Python. Combining quantitative and qualitative analyses, it uses approaches from semantics, pragmatics, discourse analysis and classical rhetoric to investigate in detail both speaker-centered and emotive aspects of hyperbole, and also addressee-related aspects, such as interpretation and interactional uptake. Illustrated with a range of diachronic case studies, hyperbole is also shown to be a main means of linguistic creativity, and an important contributor to language change. The book concludes with an exploration of the role of hyperbole in political speaking, humour, and literature. Original and in-depth, it will be invaluable to all those working on meaning, discourse, and historical linguistics.

One of the great transformations presently sweeping the Muslim world involves not just political and economic change but the reshaping of young Muslims' styles of romance, courtship, and marriage. Nancy J. Smith-Hefner takes up the personal lives and sexual attitudes of educated Muslim Javanese

youth in the city of Yogyakarta to explore the dramatic social and ethical changes taking place in Indonesian society. Drawing on more than 250 interviews over a fifteen-year period, her vivid, well-crafted ethnography is full of insights into the real-life struggles of young Muslims and framed by a deep understanding of Indonesia's wider debates on gender and youth culture. The changes among Muslim youth reflect an ongoing if at times unsteady attempt to balance varied ideals, ethical concerns, and aspirations. On the one hand, growing numbers of young people show a deep and pervasive desire for a more active role in their Islamic faith. On the other, even as they seek a more self-conscious and scripture-based profession of faith, many educated youth aspire to personal relationships similar to those seen among youth elsewhere—a greater measure of informality, openness, and intimacy than was typical for their parents' and grandparents' generations. Young women in particular seek freedom for self-expression, employment, and social fulfillment outside of the home. Smith-Hefner pays particular attention to their shifting roles and perspectives because it is young women who have been most dramatically affected by the upheavals transforming this Muslim-majority country. Although deeply personal, the changing aspirations of young Muslims have immense implications for social and public life throughout Indonesia. The fruit of a longitudinal study begun shortly after the fall of the authoritarian New Order government and the return to democracy in 1998–1999, the book reflects Smith-Hefner's nearly forty years of anthropological engagement with the island of Java and her continuing exploration into what it means to be

both “modern” and Muslim. The culture of the new Muslim youth, the author shows, through all its nuances and variations, reflects the inexorable abandonment of traditions and practices deemed incompatible with authentic Islam and an ongoing and profound Islamization of intimacies.

The Ecology of Papua provides a comprehensive review of current scientific knowledge on all aspects of the natural history of western (Indonesian) New Guinea. Designed for students of conservation, environmental workers, and academic researchers, it is a richly detailed text, dense with biogeographical data, historical reference, and fresh insight on this complicated and marvelous region. We hope it will serve to raise awareness of Papua on a global as well as local scale, and to catalyze effective conservation of its most precious natural assets. New Guinea is the largest and highest tropical island, and one of the last great wilderness areas remaining on Earth. Papua, the western half of New Guinea, is noteworthy for its equatorial glaciers,

its vast forested floodplains, its imposing central mountain range, its Raja Ampat Archipelago, and its several hundred traditional forest-dwelling societies. One of the wildest places left in the world, Papua possesses extraordinary biological and cultural diversity. Today, Papua's environment is under threat from growing outside pressures to exploit its expansive forests and to develop large plantations of oil palm and biofuels. It is important that Papua's leadership balance economic development with good resource management, to ensure the long-term well-being of its culturally diverse populace.

Buku ini merupakan kumpulan 160 esai pendek Goenawan Mohamad yang pernah dimuat majalah Tempo dari Januari 1986 sampai Februari 1990. Diawali dengan esai berjudul "Ding" (4 Januari 1986) sampai yang terakhir "Asongan" (24 Februari 1990). Esai-esai yang dikenal sebagai Catatan Pinggir itu berbicara beragam hal, bahkan hampir semua hal yang dekat dengan peristiwa di masyarakat dalam kurun waktu empat tahun itu: tentang kecemasan, kebebasan, kekuasaan, kemerdekaan, keserakahan, kebahagiaan, demokrasi. Mengenai topik yang disebut terakhir, William Liddle, dalam Kata Pengantar untuk buku ini, mengatakan kiranya jelas bahwa Goenawan sangat menyakini demokrasi sebagai jenis pemerintahan yang terbaik bagi negara kebangsaan Dunia Ketiga seperti Indonesia. Tetapi dia tidak berpretensi seolah-olah demokrasi dengan sendirinya mampu menyelesaikan segala persoalan.... Goenawan Mohamad, kata Liddle, adalah burung langka dalam sangkar intelektual modern Indonesia. Dia menolak tegas pengkotakan Timur-Barat. Dalam

sejumlah Catatan Pinggir ini, kata Liddle, dikotomi Timur-Barat beberapa kali ditampik Goenawan.
