The Access Principle

Harvard University Press
Tamen's concern is to show how inanimate objects take on life through their interpretation--notably, in

our own culture, as they are collected and housed in museums. It is his claim that an object becomes interpretable only in the context of a "society of friends." Thus, he suggests, our inveterate tendency as human beings to interpret the phenomenal world gives objects not only a life but

also a society.

Available for the first time in English, Cruz Miguel Ortiz Cuadra's magisterial history of the foods and eating habits of Puerto Rico unfolds into an examination of Puerto Rican society from the Spanish conquest to the

present. Each chapter is centered on an iconic Puerto Rican foodstuff, from rice and cornmeal to beans, roots, herbs, fish, and meat. Ortiz shows how their production and consumption connects with race, ethnicity, gender, social class, and cultural appropriation in Puerto Rico. Using a multidisciplinary approach and a sweeping array of sources, Ortiz asks whether Puerto Ricans really still are what they ate. Whether judging by a host of social and economic factors--or by

the foods once eaten that have now disappeared--Ortiz concludes that the nature of daily life in Puerto Rico has experienced a sea change.

Questions about access to scholarship have always raged. The great libraries of the past stood as arguments for increasing access. John Willinsky describes the latest chapter in this ongoing story - online open access publishing by scholarly journals and makes a case

for open access as a public good.

Challenging the 'success story' of curiosity from original sin to intellectual virtue, this study uses an innovative methodological approach to the history of ideas as a non-teleological neural network based on current research in information technology and neurophysiology. The network offers a dynamic alternative to the 'development' of curiosity within the progress-

oriented mythology of the Enlightenment, emphasizing the oscillation and interaction of ideas within the processes of their construction, as well as exposing the power relations behind them. The text corpus focuses on enactments of curiosity in English literature of the 'Long' Eighteenth Century (c. 1680-1818), such as transgression of boundaries, breach of taboo, gendered curiosity, sensationalism, or academic endeavour,

bringing together a variety of examples from all major genres. The Age of Curiosity contributes to current debates on a post-Foucauldian renewal of Lovejoy's history of ideas in Enlightenment studies, exploring both curiosity as an indispensable trait for the search of answers to the fundamental yet unresolved questions of 'identity' or 'truth', and its potential as cura, the care for others and the world.

Soon to be a movie titled *The Exception* starring Christopher Plummer, Lily James, and Jai Courtney,

this “crisp, adroit, and subtle tale of great personal power” (The New York Times) follows the exiled Kaiser Wilhelm, the young Nazi officer assigned to guard him, and the Jewish maid who unwittingly comes between them. It is 1940 and the exiled monarch Kaiser Wilhelm is living in his Dutch chateau, Huis Doorn. The old German king spends his days chopping logs and musing on what might have been. When the Nazis invade Holland, the Kaiser’s staff is replaced by SS guards,

led by young and recently commissioned SS officer Martin Krebbs, and an unlikely relationship develops between the king and his keeper. While they agree on the rightfulness of German expansion and on holding the nation’s Jewish population accountable for all ills, they disagree on the solutions. But when Krebbs becomes attracted to Akki, a Jewish maid in the house, he begins to question his belief in Nazism. As the threads of history conspire with the

A lush, dramatic

biographical novel of one

of the most glamorous

and alluring legends of Hollywood's golden age, Marlene Dietrich—from the gender-bending cabarets of Weimar Berlin to the lush film studios of Hollywood, a sweeping story of passion, glamour, ambition, art, and war from the author of *Mademoiselle Chanel*. Raised in genteel poverty after the First World War, Maria Magdalena Dietrich dreams of a life on the stage. When a budding career as a violinist is cut short, the willful teenager vows to become a singer, trading her family's

proper, middle-class society for the free-spirited, louche world of Weimar Berlin's cabarets and drag balls. With her sultry beauty, smoky voice, seductive silk cocktail dresses, and androgynous tailored suits, Marlene performs to packed houses and becomes entangled in a series of stormy love affairs that push the boundaries of social convention. For the beautiful, desirous Marlene, neither fame nor marriage and motherhood can cure her wanderlust.

As Hitler and the Nazis rise to power, she sets sail for America. Rivaling the success of another European import, Greta Garbo, Marlene quickly becomes one of Hollywood's leading ladies, starring with legends such as Gary Cooper, John Wayne, and Cary Grant. Desperate for her return, Hitler tries to lure her with dazzling promises. Marlene instead chooses to become an American citizen, and after her new nation is forced into World War II, she tours with the USO,

performing for thousands of Allied troops in Europe and Africa. But one day she returns to Germany. Escorted by General George Patton himself, Marlene is heartbroken by the war's devastation and the evil legacy of the Third Reich that has transformed her homeland and the family she loved. An enthralling and insightful account of this extraordinary legend, Marlene reveals the inner life of a woman of grit, glamour, and ambition who defied convention, seduced the world, and

forged her own path on her own terms.

A Romeo & Juliet tale for Hamilton! fans. In post-American Revolution New York City, Theodosia Burr,

a scholar with the skills of a socialite, is all about charming the right people on behalf of her father—Senator Aaron Burr, who is determined to win the office of president in the pivotal election of 1800. Meanwhile, Philip Hamilton, the rakish son of Alexander Hamilton, is all about being charming on behalf of his libido. When the two first meet, it seems the ongoing feud between their politically opposed fathers may be hereditary. But soon, Theodosia and Philip must

choose between love and family, desire and loyalty, and preserving the legacy their flawed fathers fought for or creating their own. Love, Theodosia is a smart, funny, swoony take on a fiercely intelligent woman with feminist ideas ahead of her time who has long-deserved center stage. A refreshing spin on the Hamiltonian era and the characters we have grown to know and love. It's also a heartbreaking romance of two star-crossed lovers, an achingly bittersweet "what if." Despite their

fathers' bitter rivalry, Theodosia and Philip are drawn to each other and, in what unrolls like a Jane Austen novel of manners, we find ourselves entangled in the world of Hamilton and Burr once again as these heirs of famous enemies are driven together despite every reason not to be. The Rise and Fall of Julio Lobo, Cuba's Last Tycoon

AuthorHouse

"Fascinating...A richly detailed portrait." - Michiko Kakutani, The New York Times Known in

his day as the King of Sugar, Julio Lobo was the wealthiest man in prerevolutionary Cuba. He had a life fit for Hollywood: he barely survived both a gangland shooting and a firing squad, and courted movie stars such as Joan Fontaine and Bette Davis. Only when he declined Che Guevara's personal offer to become Minister

of Sugar in the Communist regime did Lobo's decades-long reign in Cuba come to a dramatic end. Drawing on stories from the author's own family history and other tales of the island's lost haute bourgeoisie, *The Sugar King of Havana* is a rare portrait of Cuba's glittering past—and a hopeful window into its future.
