TRAVIS JULISSA

The Daily Show (The Book) G.P. Putnam's Sons
 A perfect and irresistible idea: A cookbook filled with delicious, healthful recipes created for everyone on a tight budget. While studying food policy as a master's candidate at NYU, Leanne Brown asked a simple yet critical question: How well can a person eat on the \$4 a day given by SNAP, the U.S. government's Supplemental Nutrition Assistance Program informally known as food stamps? The answer is surprisingly well: Broiled Tilapia with Lime, Spicy Pulled Pork, Green Chile and Cheddar Quesadillas, Vegetable Jambalaya, Beet and Chickpea Salad—even desserts like Coconut Chocolate Cookies and Peach Coffee Cake. In addition to creating nutritious recipes that maximize every ingredient and use economical cooking methods, Ms. Brown gives tips on shopping; on creating pantry basics; on mastering certain staples—pizza dough, flour tortillas—and saucy extras that make everything taste better, like spice oil and tzatziki; and how to make fundamentally smart, healthful food choices. The idea for Good and Cheap is already proving itself. The author launched a

Kickstarter campaign to self-publish and fund the buy one/give one model. Hundreds of thousands of viewers watched her video and donated \$145,000, and national media are paying attention. Even high-profile chefs and food writers have taken note—like Mark Bittman, who retweeted the link to the campaign; Francis Lam, who called it “Terrific!”; and Michael Pollan, who cited it as a “cool kickstarter.” In the same way that TOMS turned inexpensive, stylish shoes into a larger do-good movement, Good and Cheap is poised to become a cookbook that every food lover with a conscience will embrace.

A teen at boarding school grapples with life, love, and rugby in this unforgettable novel that is "alternately hilarious and painful, awkward and enlightening" (Publishers Weekly, starred review). Ryan Dean West is a fourteen-year-old junior at a boarding school for rich kids. He's living in Opportunity Hall, the dorm for troublemakers, and rooming with the biggest bully on the rugby team. And he's madly in love with his best friend Annie, who thinks of him as a little boy. Ryan Dean manages to survive life's complications with the help of his sense of humor, rugby buddies, and his penchant for doodling comics. But when the unthinkable happens, he has to figure out how to hold on to what's important, even when it feels like everything has fallen apart. Filled with hand-drawn infographics and illustrations and told in a pitch-perfect voice, this realistic depiction of a teen's experience strikes an exceptional balance of hilarious and heartbreaking.

In the Path of Falling Objects Simon and Schuster

The best-selling author of the No. 1 Ladies' Detective Agency series deftly escorts Jane Austen's beloved, meddlesome heroine into the twenty-first century in this delightfully inventive retelling. The summer after university, Emma Woodhouse returns home to the village of Highbury to prepare for the launch of her interior design business. As she cultivates grand plans for the future, she re-enters the household of her hypochondriac father, who has been living alone on a steady diet of vegetables and vitamin supplements. Soon Emma befriends Harriet Smith, the naïve but charming young teacher's assistant at an English-language school run by the hippie-ish Mrs. Goddard. Harriet is Emma's inspiration to do the two things she does best: offer guidance to those less wise in the ways of the world and put her matchmaking skills to good use. Happily, this summer presents abundant opportunities for her to do just that, as many friends, both old and new, are drawn into the sphere of Emma's occasionally injudicious counsel: Frank Churchill, the attractive stepson of Emma's former governess; George Knightley, Emma's brother-in-law and dear friend; the charming yet self-important Philip Elton; and, of course, the perfect (and perfectly vexing) Jane Fairfax. Alexander McCall Smith's gentle satire and cozy, old-fashioned sensibility prove to be the perfect match for Jane

Austen's wit and characters. Though carriages have been replaced by Mini Coopers and cups of tea with cappuccinos, Emma's story is wonderfully timeless.

"So real it hurts."—David Arnold, New York Times bestselling author of *Mosquitoland*. A summer of basketball, first love, and the friends who've got your back when life gets crazy, set in a trailer park in small town America. Travis never gives up. Not when his mom takes off. Not when he gets suspended from basketball. Not when he cracks four ribs jumping off a bridge to impress a girl. Not when he and his best friend Creature get into trouble deeper than they know how to handle. From acclaimed author Peter Brown Hoffmeister comes a painfully-funny, sometimes-crushing story of growing up, making mistakes, and pressing on, against the odds. "In my mind the best storytellers walk that high tight wire between tragedy and comedy. This is the Part Where You Laugh is exactly the part where you laugh. And ache. This is a really good book!"—Chris Crutcher "A courageous novel. Incandescent and unflinching." —Jeff Zentner, author of *The Serpent King* "A raw offbeat novel with an abundance of honesty and heart." —Publishers Weekly, starred review "Hoffmeister crushes it. There is blood and truth on every page." —Estelle Laure, author of *This Raging Light*

Beat the odds with a bold strategy from McKinsey & Company "Every once in a while, a genuinely fresh approach to business strategy appears" – legendary business professor Richard Rumelt, UCLA McKinsey & Company's newest, most definitive, and most irreverent book on strategy—which thousands of executives are already using—is a must-read for all C-suite executives looking to create winning corporate strategies. *Strategy Beyond the Hockey Stick* is spearheading an empirical revolution in the field of strategy. Based on an extensive analysis of the key factors that drove the long-term performance of thousands of global companies, the book offers a groundbreaking formula that enables you to objectively assess your strategy's real odds of future success. "This book is fundamental. The principles laid out here, with compelling data, are a great way around the social pitfalls in strategy development." —Frans Van Houten, CEO, Royal Philips N.V. The authors have discovered that over a 10-year period, just 1 in 12 companies manage to jump from the middle tier of corporate performance—where 60% of companies reside, making very little economic profit—to the top quintile where 90% of global economic profit is made. This movement does not happen by magic—it depends on your company's current position, the trends it faces, and the big moves you make to give it the strongest chance of vaulting over the competition. This is not another strategy framework. Rather, *Strategy Beyond the Hockey Stick* shows, through empirical analysis and the experiences of dozens of companies that have successfully made multiple big moves, that to dramatically improve performance, you have to overcome incrementalism and corporate inertia. "A different kind of book—I couldn't put it down. Inspiring new insights on the facts of what it takes to move a company's performance, combined with practical advice on how to deal with real-life dynamics in management teams."

—Jane Fraser, CEO, Citigroup Latin America

Moondust Simon and Schuster

Storytelling has come of age in the business world. Today, many of the most successful companies use storytelling as a leadership tool. At Nike, all senior executives are designated "corporate storytellers." 3M banned bullet points years ago and replaced them with a process of writing "strategic narratives." Procter Gamble hired Hollywood directors to teach its executives storytelling techniques. Some forward-thinking business schools

have even added storytelling courses to their management curriculum. The reason for this is simple: Stories have the ability to engage an audience the way logic and bullet points alone never could. Whether you are trying to communicate a vision, sell an idea, or inspire commitment, storytelling is a powerful business tool that can mean the difference between mediocre results and phenomenal success. *Lead with a Story* contains both ready-to-use stories and how-to guidance for readers looking to craft their own. Designed for a wide variety of business challenges, the book shows how narrative can help: * Define culture and values * Engender creativity and innovation * Foster collaboration and build relationships * Provide coaching and feedback * Lead change * And more Whether in a speech or a memo, communicated to one person or a thousand, storytelling is an essential skill for success. Complete with examples from companies like Kellogg's, Merrill-Lynch, Procter Gamble, National Car Rental, Wal-Mart, Pizza Hut, and more, this practical resource gives readers the guidance they need to deliver stories to stunning effect.

This book is the story of how three brilliant scholars and one ambitious freshman crossed paths in the early sixties at a Harvard-sponsored psychedelic-drug research project, transforming their lives and American culture and launching the mind/body/spirit movement that inspired the explosion of yoga classes, organic produce, and alternative medicine. The four men came together in a time of upheaval and experimentation, and their exploration of an expanded consciousness set the stage for the social, spiritual, sexual, and psychological revolution of the 1960s. Timothy Leary would be the rebellious trickster, the premier proponent of the therapeutic and spiritual benefits of LSD, advising a generation to "turn on, tune in, and drop out." Richard Alpert would be the seeker, traveling to India and returning to America as Ram Dass, reborn as a spiritual leader with his "Be Here Now" mantra, inspiring a restless army of spiritual pilgrims. Huston Smith would be the teacher, practicing every world religion, introducing the Dalai Lama to the West, and educating generations of Americans to adopt a more tolerant, inclusive attitude toward other cultures' beliefs. And young Andrew Weil would be the healer, becoming the undisputed leader of alternative medicine, devoting his life to the holistic reformation of the American health care system. It was meant to be a time of joy, of peace, and of love, but behind the scenes lurked backstabbing, jealousy, and outright betrayal. In spite of their personal conflicts, the members of the Harvard Psychedelic

Club would forever change the way Americans view religion and practice medicine, and the very way we look at body and soul.

"Spellbinding...a provocative meditation on lunar travel and humanity's relation to space." — Business Week The Apollo lunar missions of the 1960s and 1970s have been called the last optimistic acts of the twentieth century.
