MCKENZIE BRENDAN

The Army and Democracy Orient Blackswan

The fundamental mathematical tools needed to understand machine learning include linear algebra, analytic geometry, matrix decompositions, vector calculus, optimization, probability and statistics. These topics are traditionally taught in disparate courses, making it hard for data science or computer science students, or

professionals, to efficiently learn the mathematics. This self-contained textbook bridges the gap between mathematical and machine learning texts, introducing the mathematical concepts with a minimum of prerequisites. It uses these concepts to derive four central machine learning methods: linear regression, principal component analysis, Gaussian mixture models and support vector machines. For students and others with a mathematical background, these derivations provide a starting point to machine learning texts. For those learning

the mathematics for the first time, the methods help build intuition and practical experience with applying mathematical concepts. Every chapter includes worked examples and exercises to test understanding. Programming tutorials are offered on the book's web site.

In the Line of Fire Praeger

“In the summer of 1947, when the creation of the new state of Pakistan was formally announced, ten million people—Muslims and Hindus and Sikhs—were in flight, By the time the monsoon broke, almost a million of them

were dead, and all of northern India was in arms, in terror, or in hiding. The only remaining oases of peace were a scatter of little villages lost in the remote reaches of the frontier. One of these villages was Mano Majra." It is a place, Khushwant Singh goes on to tell us at the beginning of this classic novel, where Sikhs and Muslims have lived together in peace for hundreds of years. Then one day, at the end of the summer, the "ghost train" arrives, a silent, incredible funeral train loaded with the bodies of thousands of refugees, bringing the village its first taste of the horrors of the civil war. Train to Pakistan is the story of this isolated village that is plunged into the abyss of religious hate. It is also the story of a Sikh boy and a Muslim girl whose love endures and transcends the ravages of war.

Train To Pakistan (malyalam) "O'Reilly Media, Inc."

Now Filmed as 1947, a motion picture by Deepa Mehta Few novels have caught the turmoil of the Indian subcontinent during Partition with such immediacy, such wit and tragic power.

Treasure Island Rowman & Littlefield Although he starts out in a hurry to reach

his destination, Edwin Blink comes to enjoy his unusual trip on a slow train. **Mathematics for Machine Learning** Om Books International Aristotle's "Nicomachean Ethics" is considered to be one of the most important treatises on ethics ever written. In an incredibly detailed study of virtue and vice in man, Aristotle examines one of the most central themes to man, the nature of goodness itself. In Aristotle's "Nicomachean Ethics," he asserts that virtue is essential to happiness and that man must live in accordance with the "doctrine of the mean" (the balance between excess and deficiency) to achieve such happiness.

The Circle Pickle Partners Publishing This book describes the new generation of discrete choice methods, focusing on the many advances that are made possible by simulation. Researchers use these statistical methods to examine the choices that consumers, households, firms, and other agents make. Each of the major models is covered: logit, generalized extreme value, or GEV (including nested and cross-nested logits), probit, and mixed logit, plus a variety of specifications that

build on these basics. Simulation-assisted estimation procedures are investigated and compared, including maximum stimulated likelihood, method of simulated moments, and method of simulated scores. Procedures for drawing from densities are described, including variance reduction techniques such as anithetics and Halton draws. Recent advances in Bayesian procedures are explored, including the use of the Metropolis-Hastings algorithm and its variant Gibbs sampling. The second edition adds chapters on endogeneity and expectation-maximization (EM) algorithms. No other book incorporates all these fields, which have arisen in the past 25 years. The procedures are applicable in many fields, including energy, transportation, environmental studies, health, labor, and marketing.

Train to India Infobase Publishing It is almost unprecedented for a head of state to publish a memoir while still in office. But Pervez Musharraf is no ordinary head of state. As President of Pakistan since 1999, his is one of the most dangerous jobs in the world, and he continues to play a crucial role in the

global war on terror. A one-time supporter of the Taliban, a general who fought in several wars, President Musharraf took a decisive turn against militant Islam in 2001. Since then he has survived two assassination attempts; rooted out militants in his own government; helped direct countless raids against al-Qaeda both in his cities and in the mountains; and tracked Osama bin Laden with technical and human intelligence. *IN THE LINE OF FIRE* is astonishingly revealing and honest about dozens of topics of intense interest to the world. Among its many revelations: exactly how Pakistani authorities tracked down and smashed three major al-Qaeda control centres in the mountains; how al-Qaeda's many-layered structure was revealed after the assassination attempts; Bin Laden's current position within the al-Qaeda hierarchy; what it has been like to deal with Bush and Blair; how Pakistan and India have avoided nuclear confrontation; and much more. The terrible earthquake of 2005, killing nearly 40,000 Pakistanis, is just one chapter in a life and career that has been filled with danger and drama. The worldwide launch of President

Musharraf's memoir promises to be a sensation.

Kashmir in Conflict Rowman & Littlefield Publishers

The winners of the Nobel Prize show how economics, when done right, can help us solve the thorniest social and political problems of our day. Figuring out how to deal with today's critical economic problems is perhaps the great challenge of our time. Much greater than space travel or perhaps even the next revolutionary medical breakthrough, what is at stake is the whole idea of the good life as we have known it. Immigration and inequality, globalization and technological disruption, slowing growth and accelerating climate change--these are sources of great anxiety across the world, from New Delhi and Dakar to Paris and Washington, DC. The resources to address these challenges are there--what we lack are ideas that will help us jump the wall of disagreement and distrust that divides us. If we succeed, history will remember our era with gratitude; if we fail, the potential losses are incalculable. In this revolutionary book, renowned MIT economists Abhijit V. Banerjee and Esther Duflo take on this

challenge, building on cutting-edge research in economics explained with lucidity and grace. Original, provocative, and urgent, *Good Economics for Hard Times* makes a persuasive case for an intelligent interventionism and a society built on compassion and respect. It is an extraordinary achievement, one that shines a light to help us appreciate and understand our precariously balanced world.

The Battle for Pakistan Harvard University Press

This is the autobiography of Abdul Salam Zaeef, a senior former member of the Taliban. His memoirs, translated from Pashto, are more than just a personal account of his extraordinary life. *My Life with the Taliban* offers a counter-narrative to the standard accounts of Afghanistan since 1979. Zaeef describes growing up in rural poverty in Kandahar province. Both of his parents died at an early age, and the Russian invasion of 1979 forced him to flee to Pakistan. He started fighting the jihad in 1983, during which time he was associated with many major figures in the anti-Soviet resistance, including the current Taliban head Mullah Mohammad

Omar. After the war Zaeef returned to a quiet life in a small village in Kandahar, but chaos soon overwhelmed Afghanistan as factional fighting erupted after the Russians pulled out. Disgusted by the lawlessness that ensued, Zaeef was one among the former mujahidin who were closely involved in the discussions that led to the emergence of the Taliban, in 1994. Zaeef then details his Taliban career as civil servant and minister who negotiated with foreign oil companies as well as with Afghanistan's own resistance leader, Ahmed Shah Massoud. Zaeef was ambassador to Pakistan at the time of the 9/11 attacks, and his account discusses the strange "phoney war" period before the US-led intervention toppled the Taliban. In early 2002 Zaeef was handed over to American forces in Pakistan, notwithstanding his diplomatic status, and spent four and a half years in prison (including several years in Guantanamo) before being released without having been tried or charged with any offence. *My Life with the Taliban* offers a personal and privileged insight into the rural Pashtun village communities that are the Taliban's bedrock. It helps to explain what drives

men like Zaeef to take up arms against the foreigners who are foolish enough to invade his homeland.

The Kite Runner Columbia University Press
FROM THE AUTHOR OF OPEN SECRETS,
THE UNTOLD STORY OF THE HUMAN
TRAGEDY IN BENGAL BEFORE, DURING
AND AFTER PARTITION. Maloy and his mother board the Dacca- Sylhet Express from Bhairab in 1950. The young boy notices a tick mark in white chalk on the side of the carriage, a sign that worries him. The train enters the Anderson Bridge, and a blob, of fresh blood hits Maloy's face. Bodies roll down to the river... As a young boy, Maloy Krishna Dhar, made the perilous journey to India from the East Pakistan. Politics had taken a communal colour in this region-age-old bonds between Hindi and Muslim Bengalis had deteriorated. The situation was made worse by near famine conditions and the brutal suppression of unrest. Villages were torched, marauding attackers had a free hand, and trains became charnel houses on wheels. The partition in Bengal had its share of tragedy, of lives unmade and lost, but it is relatively less chronicled than events in Punjab. Maloy Krishna Dhar's

Train to India is a graphic and moving account of that turbulent and unforgotten era of Bengal History.

The Sunset Club Oxford University Press
INTERNATIONAL BESTSELLER • A bestselling dystopian novel that tackles surveillance, privacy and the frightening intrusions of technology in our lives—a "compulsively readable parable for the 21st century" (Vanity Fair). When Mae Holland is hired to work for the Circle, the world's most powerful internet company, she feels she's been given the opportunity of a lifetime. The Circle, run out of a sprawling California campus, links users' personal emails, social media, banking, and purchasing with their universal operating system, resulting in one online identity and a new age of civility and transparency. As Mae tours the open-plan office spaces, the towering glass dining facilities, the cozy dorms for those who spend nights at work, she is thrilled with the company's modernity and activity. There are parties that last through the night, there are famous musicians playing on the lawn, there are athletic activities and clubs and brunches, and even an aquarium of rare fish retrieved from the

Marianas Trench by the CEO. Mae can't believe her luck, her great fortune to work for the most influential company in the world—even as life beyond the campus grows distant, even as a strange encounter with a colleague leaves her shaken, even as her role at the Circle becomes increasingly public. What begins as the captivating story of one woman's ambition and idealism soon becomes a heart-racing novel of suspense, raising questions about memory, history, privacy, democracy, and the limits of human knowledge.

The Generation of Postmemory

Now with a new introduction for the Tor Essentials line, *A Fire Upon the Deep* is sure to bring a new generation of SF fans to Vinge's award-winning works. A Hugo Award-winning Novel! "Vinge is one of the best visionary writers of SF today."-David Brin Thousands of years in the future, humanity is no longer alone in a universe where a mind's potential is determined by its location in space, from superintelligent entities in the Transcend, to the limited minds of the Unthinking Depths, where only simple creatures, and technology, can

function. Nobody knows what strange force partitioned space into these "regions of thought," but when the warring Straumli realm use an ancient Transcendent artifact as a weapon, they unwittingly unleash an awesome power that destroys thousands of worlds and enslaves all natural and artificial intelligence. Fleeing this galactic threat, Ravna crash lands on a strange world with a ship-hold full of cryogenically frozen children, the only survivors from a destroyed space-lab. They are taken captive by the Tines, an alien race with a harsh medieval culture, and used as pawns in a ruthless power struggle. [Train to Pakistan](#) Penguin UK

A 2019 NEWBERY HONOR BOOK "A gripping, nuanced story of the human cost

of conflict appropriate for both children and adults." -Kirkus, starred review In the vein of *Inside Out* and *Back Again* and *The War That Saved My Life* comes a poignant, personal, and hopeful tale of India's partition, and of one girl's journey to find a new home in a divided country It's 1947, and India, newly independent of British rule, has been separated into two countries: Pakistan and India. The divide has created much tension between Hindus and Muslims, and hundreds of thousands are killed crossing borders. Half-Muslim, half-Hindu twelve-year-old Nisha doesn't know where she belongs, or what her country is anymore. When Papa decides it's too dangerous to stay in what is now Pakistan, Nisha and her family become refugees and embark first by train but later on foot to reach her new home. The journey is long, difficult, and dangerous, and after losing her mother as a baby, Nisha can't imagine losing her homeland, too. But even if her country has been ripped apart, Nisha still believes in the possibility of putting herself back together. Told through Nisha's letters to her mother, *The Night Diary* is a heartfelt story of one girl's search for home, for her own

identity...and for a hopeful future.

Nicomachean Ethics Rowman & Littlefield

Traces the unlikely friendship of a wealthy Afghan youth and a servant's son in a tale that spans the final days of Afghanistan's monarchy through the atrocities of the present day.

Nature Watch Tor Science Fiction

Gadsby is a novel by Ernest Vincent Wright. A fading fictitious city known as Branton Hills is rejuvenated due to the efforts of central character John Gadsby and a youth organizer. A humorous read!

Back to Pakistan DigiCat

In 1962, a newly-minted college graduate answered the call of President John F. Kennedy and joined the fledgling Peace Corps. Leslie Noyes Mass was assigned to Pakistan and given the directive to start a program-any kind of educational program she could muster-in a small Muslim village where she was the only Westerner and the only Peace Corps volunteer. After a year, she left the village, frustrated and feeling that she had made no impact at all. Nearly 50 years later, she returned to discover a much-changed Pakistan-and a village that still remembers her. She tells both her

stories, from 1962 and today, by deftly interweaving her journal entries from 50 years ago with her current day story as a volunteer training female teachers for a Pakistani non-governmental institution. Leslie Mass captures the heart and the attention of the reader with her story of Pakistanis in 1962 and those of a new generation who are engaged in building a sustainable education system for their country's forgotten children. In a series of interviews with Pakistanis from every social class and educational level, Dr. Mass gives voice to those who are taking responsibility for their country's educational problems and solving these problems within the traditions, culture, and religious understanding of their people. *Back to Pakistan: A Fifty-Year Journey* is a compelling look into a country as it goes from its infancy into the 21st century.

Slow Train to Oxmoor Farrar, Straus & Giroux (BYR)

"...story of the onslaught of partition and its effect on the small Punjabi village of Mano Majra, where Sikh landowner and Muslim tenant have lived peaceably for centuries."--Kirkus.

Train To Pakistan Everbind

"Why has the valley of Kashmir, famed for its beauty and tranquillity, become a major flashpoint, threatening the stability of a region of great strategic importance and challenging the integrity of the Indian state? This book examines the Kashmir conflict in its historical context, from the period when the valley was an independent kingdom right up to the struggles of the present day. Located on the borders of China, Central Asia and the Sub-Continent, the insurgency in the valley has also created serious tensions between India and Pakistan. Drawing upon research in India and Pakistan, as well as historical sources, this book traces the origins of the state in the 19th century and the controversial "sale" by the British of the predominantly Muslim valley to a Hindu Maharaja in 1846. Through an exploration of the implications for Kashmir of independence in 1947, it gives a critical account of why, for Kashmir, self-determination may seem a more attractive option than affiliation to a larger multi-racial whole."--Bloomsbury Publishing. *Truth, Love & A Little Malice* Penguin Books India

Train to Pakistan is the story of this isolated village that is plunged into the abyss of religious hate. It is also the story of a Sikh boy and a Muslim girl whose love endured and transcends the ravages of war.
