A REESE'S BOOK CLUB PICK Winner of
the 2022 BookTube Silver Medal in
Fiction * Shortlisted for the Women's
Prize for Fiction "A wise novel of love and
grief, roots and branches, displacement
and home, faith and belief. Balm for our
bruised times." -David Mitchell, author of

Utopia Avenue A rich, magical new novel
on belonging and identity, love and
trauma, nature and renewal, from the
Booker-shortlisted author of *10 Minutes
38 Seconds in This Strange World*. Two
teenagers, a Greek Cypriot and a Turkish
Cypriot, meet at a taverna on the island
they both call home. In the taverna,
hidden beneath garlands of garlic, chili
peppers and creeping honeysuckle,
Kostas and Defne grow in their forbidden
love for each other. A fig tree stretches
through a cavity in the roof, and this tree
bears witness to their hushed, happy
meetings and eventually, to their silent,
surreptitious departures. The tree is

there when war breaks out, when the capital is reduced to ashes and rubble, and when the teenagers vanish. Decades later, Kostas returns. He is a botanist looking for native species, but really, he's searching for lost love. Years later a *Ficus carica* grows in the back garden of a house in London where Ada Kazantzakis lives. This tree is her only connection to an island she has never visited--- her only connection to her family's troubled history and her complex identity as she seeks to untangle years of secrets to find her place in the world. A moving, beautifully written, and delicately constructed story of love, division, transcendence, history, and eco-consciousness, *The Island of Missing Trees* is Elif Shafak's best work yet.

Epic Hikes of Europe Periplus Editions (HK) Limited

Cyprus has a long and eventful history. The island lies in the eastern Mediterranean, where the cultures of Anatolia, Assyria, the Levant, Egypt, and Greece flourished in antiquity. Each of these great civilisations has left its mark on the history of Cyprus, through commercial ties, migration, conflicts, and technological innovations. The mining of

copper in the Troodos Mountains led to lively trade, greatly boosting the prosperity of the island's various kingdoms. These independent states maintained relations with all the neighbouring states, leading to a cultural melting pot of languages, customs, and religions. Yet certain elements can be seen as truly Cypriot down the ages: the widespread veneration of the goddess Aphrodite, who was born from the foam of the waves off the island's west coast, the unique character of the arts in the Bronze and Iron Ages, and a marked capacity to absorb foreign influences without sacrificing the island's own distinctive character. This book introduces readers to the main landmarks in the history of Cyprus. Various topics in the island's

archaeological past are discussed, each one written by a leading expert. You will meet the first inhabitants of the island, who crossed the sea from the mainland in tiny boats and rafts, bringing their livestock with them. And you will read about the ships, which started their journey across the Mediterranean laden with cargoes of copper ingots. Discussions of the history of archaeological investigations of the island range from random acts of plunder in the nineteenth century to ongoing scientific investigations. Several chapters focus on the highlights of Cypriot art in the collections of the museums of Cyprus, Stockholm, and Leiden.00Exhibition: Rijksmuseum van Oudheden, Leiden, the Netherlands (11.10.2019-15.3.2020).
