DICKSON OSBORNE

Halsbury's Laws of Singapore Restitution and Equity Volume 1: Resulting Trusts and Equitable Compensation

In a clear and unambiguous fashion, the authors present the main principles of the functioning of trusts and equity at a level appropriate for both distance learning students and undergraduates.

This volume provides a sense of the history of the equitable jurisdiction in Australia in order to examine the modern operation of equity. Attention is given to such areas as transactional fairness, fiduciary obligation and equitable remedies. The trusts section outlines the basic principles of

trusts as well as outlining a range of commercial, investment and domestic application of trusts.

Each generation of lawyers in common law systems faces an important question: what is the nature of equity as developed in English law and inherited by other common law jurisdictions?

While some traditional explanations of equity remain useful - including the understanding of equity as a system that qualifies the legal rights people ordinarily have under judge-made law and under legislation - other common explanations are unhelpful or misleading. This volume considers a distinct and little noticed view of equity. By examining the ways in which courts of equity have addressed a range of practical problems regarding the administration of deliberately created schemes for the management of others' affairs, modern equity can be seen to have a strongly facilitative character. The extent and limits on this characterisation of equity are explored in chapters covering equity's attitude to administration in various public and private settings in common law systems.

[A Casebook on Equity and Trusts in Ireland](#) Cambridge University Press

This textbook is an ambitious and engaging introduction to the more advanced writings on equity

and trusts, primarily designed to allow students to 'get under the skin' of the topic and begin to build their critical thinking and analysis skills. Each chapter is structured around key questions and debates that provoke deeper thought and, ultimately, a clearer understanding. The aim of the book is therefore not to present a complete overview of theoretical issues in equity and trusts, but rather to illustrate the current debates which are currently going on among those working in shaping the area. The text features summaries of the views of notable experts on key topics and each chapter ends with a list of guided further reading.

[Asia-Pacific Trusts Law, Volume 1](#) Oxford University Press

'Complete Equity and Trusts' provides a blend of explanatory text, cases and materials making it ideal for students new to equity and trusts. In this student-centred and approachable text, complex topics are explained clearly and succinctly.

Focusing on the private law of England, Scotland, France, Quebec and the Netherlands, this volume explores how the private law concepts of trust and patrimony interact in various jurisdictions, with a view to advancing the understanding of the trust as a fundamental legal

concept. It comprises new and previously published papers written by distinguished comparative law scholars. The authors investigate whether the common law trust could be understood as a civil law patrimony by appropriation, and whether civil law and mixed traditions could create local versions of the common law trust using patrimony as the main conceptual building block.

The Law of Finance Bloomsbury Publishing

This volume is designed for students studying trusts and equity on law degree courses and covers all the essential aspects of this area of the law. Attention is given to traditional deed-created trusts and also to the role of equity and trusts in modern commercial contexts. This edition has been updated to include the Trustee Act 2000, the Trustee Delegation Act 1999 and a number of significant cases including the House of Lords' decision in *Foskett v McKeown* and the Court of Appeals decision in *Inner Homes Group plc v Luff Developments Ltd*.

Principles of Equity and Trusts Routledge

"This book contains a collection of peer reviewed papers presented at the 10th biennial 'Modern Studies in Property Law' conference held at the University of Liverpool in April 2014. It is the eighth volume to be published under the name of the conference. The conference and its published proceedings have become an established forum for property lawyers from around the world to showcase current research in the discipline. The collection reflects the diversity and contemporary relevance of modern research in property law. Incorporating a keynote address by Sir John Mummery, retired Lord Justice of Appeal, on 'Property In The Information Age.' A number of chapters consider the contribution of property law to issues central to the human condition -- the home, health, and death. Other papers illustrate an enduring need to question and explore fundamental concepts of the subject, as well as to consider the challenges of reforming the law. Collectively, the chapters demonstrate the vibrancy and importance of property law in dealing with modern concerns across the common law world. At a time when Asia represents the fastest growing economic region, there is no better moment to

consider what trusts law can contribute to societal stability and economic prosperity. This book does this by offering the first work that systematically explores trusts law across the region. Many Asian-Pacific jurisdictions have integrated and developed trusts law in their legal systems; either through colonial heritage or statutory activism. But the diversity of legal traditions and local contexts has resulted in trusts laws having a significantly varied impact across the region. In the modern globalised world there is growing need to adopt an outward looking approach in dealing with matters of common interest. This book answers this need by bringing together leading legal scholars and practitioners in the region to explore the theory and practice of trusts law, contextualised to specific jurisdictions in the Asia-Pacific. Exploring 17 jurisdictions in Asia, it brings both an academic and practitioner perspective to trusts law in the region.

Equity, Trusts and Commerce Oxford University Press

Constructive trusts significantly interfere with the rights of an apparent legal owner of property. This makes it necessary for their imposition to be properly explained and justified. Unfortunately, attempts to rationalise constructive trusts as a whole-as opposed to specific doctrines or particular aspects of constructive trusts-have been few and far between. Rationalising Constructive Trusts proposes a new structure for a coherent understanding of constructive trusts. By using a combination of conceptual tools, it provides answers to a number of crucial questions, for example: What are the ingredients of a constructive trust claim? What are the limits of constructive trusts? How can we rationalise the imposition of constructive trusts in particular situations? Why do judges exercise varying degrees of remedial discretion in different doctrines? From a wider perspective, the structured understanding helps us to appreciate the precise ambit and role of express, constructive, and resulting trusts.

Rationalizing Property, Equity and Trusts Wolters Kluwer Law & Business

The first part of this volume collates papers from the Second Mansfield Symposium, which examined the areas of equity, trusts and restitution. The second part addresses the emerging field of equitable compensation and its implications.

Equity & Trusts Oxford University Press, USA

This collection of essays, written by leading commentators from across the common law world, examines a range of topics concerning Equity and Trusts in the commercial context. The essays investigate the way in which doctrines derived from the equitable jurisdiction interact with and shape various areas of the law, including company law, commercial law and agency law. Subjects

considered include the difficulties in identifying trust assets in the commercial context; the court's role in supervising the trust; and the remedies available in cases of fiduciary or trustee wrongdoing. This book will be of interest to both academics and practitioners working in these difficult areas of equity and commercial law.

This book examines equity, trusts and restitution as well as the emerging field of equitable compensation and its implications.

Restitution and Equity: Resulting trusts and equitable compensation Oxford University Press, USA

"Successor edition to *Scott on trusts*, fourth edition."

Equity and Trusts Cambridge University Press

Previous collections of essays on equity and trusts law have focused on doctrinal issues, only occasionally giving a policy gloss or suggestion of social context and impact. Although a critical approach can be glimpsed in journal articles and student texts, this collection of essays draws together both feminist and critical material. It is unique in being written by feminists, in dealing with equity and trusts as a whole and in being written in the critical tradition.
