President Eisenhower originally included 'academic' in the draft of his landmark, oft-quoted speech on the military-industrial-complex. Giroux tells why Eisenhower saw the academy as part of the famous complex - and how his warning was vitally prescient for 21st-century America. Giroux details the sweeping post-9/11 assault being waged on the academy by militarization, corporatization, and right-wing fundamentalists who increasingly view critical thought itself as a threat to the dominant political order. Giroux argues that the university has become a handmaiden of the Pentagon and corporate interests, it has lost its claim to independence and critical learning and has compromised its role as a democratic public sphere. And yet, in spite of its present embattled status and the inroads made by corporate power, the defense industries, and the right wing extremists, Giroux defends the university as one of the few public spaces left capable of raising important questions and educating students to be critical and engaged agents. He concludes by making a strong case for reclaiming it as a democratic public sphere.

Everyday Slang from University of Hawaii Press

Korean is the seventh most commonly spoken language in the United States, and Korean heritage students—those with some proficiency in or a cultural connection to the language through family or community—make up a substantial portion of Korean learners at the college level. Many schools offer a separate heritage track for learning Korean, but until now there has been no textbook designed specifically for heritage learners as well as the increasing number of students from diverse backgrounds who are interested in pursuing intensive learning to build on their prior experience with Korean. Integrated Korean: Accelerated 1 and 2 directly address the linguistic needs and abilities of heritage and accelerated learners in a single academic year. Volume 1 presents lessons on thematically organized subjects, starting with familiar topics such as family, friends, daily routines, schoolwork, campus activities, dining out, and shopping. Volume

2 advances to more formal subjects beyond family and friends, such as travel, transportation, housing, holidays, lifestyles, careers, and Korean history and culture. Students approach the lessons with multilevel communicative classroom activities and reading materials with standards-based exercises and projects that not only focus on the particular language requirements of heritage learners, but also encourage them to participate more fully in their own family and community life. Each volume's textbook and workbook offer authentic conversations and texts in both informal and formal contexts, structured tasks, and a wealth of interesting and relevant cultural content. Integrated Korean is a project of the Korean Language Education and Research Center (KLEAR) with the support of the Korea Foundation.
