*Structural Analysis* Haynes Manuals N. America, Incorporated  
This fascinating tale relates the story of the Italian Gilera marque, from the first belt-driven bike introduced in 1909 through the marque's 1935 takeover of Rondine; its moderately successful mid-1930s to early-1960s, four-cylinder race models; its acquisition by Piaggio in 1969; and the last Gilera built in 1993. Prolific motorcycle author Mick Walker offers background histories and complete specs for all road and race models, along with a generous selection of archival photography and a special eight-page color section. A final chapter brings the Gilera story full circle with the latest on Piaggio's resurrection of the marque in the form of a new road bike produced under the auspices of Bimota.

From its origins the Italian battlefields of the Second World War, to movie roles as Audrey Hepburn's transport in Roman Holiday and Sting's stylish companion in Quadrophenia and on through the current vintage revival, the classic Italian motor scooter is an enduring design classic from the 20th century. Scootermania celebrates the superbly simple vehicles that are so symbolic of freedom, style and the modern world. Originating in the 1940s in Milan and Pontedera, Tuscany, the scooter became an enduring transport choice for young people and urban environments. Early

chapters look at scooter racing and long-distance attempts, and their role as an anti-tank weapon in the French army. There is engaging coverage of place of scooters in popular culture from films, music and fashion including the way that a host of disparate groups has made the bikes their own - from the British Mods of the 1960s and 1980s to their role in American and Japanese fashion and in their Italian homeland. The evolution and design of classic models as the Vespa 150 GS and the Lambretta Li 150 Series 3 are covered while scooter stars such as Enrico Piaggio and Georges Monneret are celebrated in their own words. The book also includes a number of specially photographed features on modern scooter designers, collectors and artists.
