**Cruise Ship Passengers Ask the Wackiest Questions** Penguin Books  
 A groundbreaking story about a teenage girl who discovers she's intersex . . . and what happens when her secret is revealed to the entire school. Incredibly compelling and sensitively told, *None of the Above* is a thought-provoking novel that explores what it means to be a boy, a girl, or something in between. What if everything you knew about yourself changed in an instant? When Kristin Lattimer is voted homecoming queen, it seems like another piece of her ideal life has fallen into place. She's a champion hurdler with a full scholarship to college and she's madly in love with her boyfriend. In fact, she's decided that she's ready to take things to

the next level with him. But Kristin's first time isn't the perfect moment she's planned—something is very wrong. A visit to the doctor reveals the truth: Kristin is intersex, which means that though she outwardly looks like a girl, she has male chromosomes, not to mention boy "parts." Dealing with her body is difficult enough, but when her diagnosis is leaked to the whole school, Kristin's entire identity is thrown into question. As her world unravels, can she come to terms with her new self?

 A tale of international intrigue unfolds from the brief encounter of two individuals at Frankfurt airport

**Dear Edward** Simon and Schuster  
 #1 NATIONAL BESTSELLER \* INSTANT NEW YORK TIMES BESTSELLER "T. J. Newman has written the perfect thriller! A must-read." —Gillian Flynn "Stunning and

relentless. This is *Jaws* at 35,000 feet." —Don Winslow "Falling is the best kind of thriller...Nonstop, totally authentic suspense." —James Patterson "Amazing...Intense suspense, shocks, and scares...Chilling." —Lee Child You just boarded a flight to New York. There are one hundred and forty-three other passengers onboard. What you don't know is that thirty minutes before the flight your pilot's family was kidnapped. For his family to live, everyone on your plane must die. The only way the family will survive is if the pilot follows his orders and crashes the plane. Enjoy the flight.

**Come from Away** Bantam  
 Stephen King's unforgettable novella—first included in his 1990, award-winning collection *Four Past Midnight* and made into a highly acclaimed miniseries—about a terrifying plane ride into a most unfriendly sky. On a cross-country, redeye

flight from Los Angeles to Boston, ten passengers awaken in Bangor, Maine, to find that the crew and most of their fellow passengers have disappeared. The airport shows no signs of life. Yet they hear “radio static” in the distance. Craig Toomey, an irritable investment banker on the verge of a breakdown, believes it is “The Langoliers,” monsters he was afraid of as a child who attack those who waste time. It’s mystery author Bob Jenkins who first theorizes that they have flown through a time rip. Bob declares they have entered a place that forbids time travelers to observe or interfere with past events. It turns out that Craig is right, in a way. Two creatures, followed by hundreds more, emerge from the forest and head for the plane, consuming everything in their path. Can the survivors manage to fly the plane back to Los Angeles, back to the correct time, before The Langoliers succeed in their deadly mission to destroy the plane and the world? Dinah Bellman, the young blind girl whose aunt did not survive the time rip, has the greatest insight of all. A spine-tingling, propulsive novella, *The Langoliers* is a brilliant read from the masterful Stephen King.

**Cloud Cuckoo Land (Large Print Edition)** HarperCollins

A New York Times bestseller and a “Best Thriller of the Year” Winner of the Goncourt Prize and now an international phenomenon, this dizzying, whip-smart novel blends crime, fantasy, sci-fi, and thriller as it plumbs the mysteries surrounding a Paris-New York flight. Who would we be if we had made different choices? Told that secret, left that relationship, written that book? We all wonder—the passengers of Air France 006 will find out. In their own way, they were all living double lives when they boarded the plane: Blake, a respectable family man who works as a contract killer. Slimboy, a Nigerian pop star who uses his womanizing image to hide that he’s gay. Joanna, a Black American lawyer pressured to play the good old boys’ game to succeed with her Big Pharma client. Victor Miesel, a critically acclaimed yet largely obscure writer suddenly on the precipice of global fame. About to start their descent to JFK, they hit a shockingly violent patch of turbulence, emerging on the other side to a reality both perfectly familiar and utterly strange. As it charts the fallout of this logic-defying event, *The Anomaly* takes us on a journey from Lagos and Mumbai to the White House and a top-secret hangar. In Hervé Le Tellier’s most ambitious work yet, high literature follows the lead of a bingeable Netflix series, drawing on the best of genre fiction from

“chick lit” to mystery, while also playfully critiquing their hallmarks. An ingenious, timely variation on the doppelgänger theme, it taps into the parts of ourselves that elude us most.

**A Novel Ask the Passengers**

After losing their house to foreclosure, three siblings - India, Finn and Mouse - have less than twenty-four hours to pack their belongings and fly, without their mother, to stay with an uncle in Colorado. But when they land, a mysterious driver meets them at the airport in a pink car adorned with feathers. He has never heard of their Uncle Red. Like Dorothy in Oz, they find themselves in an unknown place, with no idea of how to get home. Time is running out . . .

**United Flight 93 and the Passengers and Crew Who Fought Back** Simon and Schuster

Of the four horrific hijackings on September 11, Flight 93 resonates as one of epic resistance. At a time when the United States appeared defenseless against an unfamiliar foe, the gallant passengers and crew of Flight 93 provided for many Americans a measure of victory in the midst of unthinkable defeat. Together, they seemingly accomplished what all the security guards and soldiers, military pilots and government officials, could not -- they thwarted the terrorists, sacrificing their own lives so that others might live. The culmination of hundreds of interviews with family members and months of investigation, *Among the Heroes* is the definitive story of the courageous men and women aboard Flight 93, and of the day that forever changed the way Americans view the world and themselves.

**First Class Passengers on a Sinking Ship** Simon and Schuster

From the Pulitzer Prize-winning author of *All the Light We Cannot See*, perhaps the most bestselling and beloved literary fiction of our time, comes a triumph of imagination and compassion, a soaring novel about children on the cusp of adulthood in a broken world, who find resilience, hope, and story. The heroes of *Cloud Cuckoo Land* are trying to figure out the world around them: Anna and Omeir, on opposite sides of the formidable city walls during the 1453 siege of Constantinople; teenage idealist Seymour in an attack on a public library in present day Idaho; and Konstance, on an interstellar ship bound for an exoplanet, decades from now. Like Marie-Laure and Werner in *All the Light We Cannot See*, Anna, Omeir, Seymour, and Konstance are dreamers and outsiders who find resourcefulness and hope in the midst of

peril. An ancient text—the story of Aethon, who longs to be turned into a bird so that he can fly to a utopian paradise in the sky—provides solace and mystery to these unforgettable characters. Doerr has created a tapestry of times and places that reflects our vast interconnectedness—with other species, with each other, with those who lived before us and those who will be here after we’re gone. Dedicated to “the librarians then, now, and in the years to come,” *Cloud Cuckoo Land* is a hauntingly beautiful and redemptive novel about stewardship—of the book, of the Earth, of the human heart.

**A Novel** HMH Books For Young Readers *Gilded Lives, Fatal Voyage* takes us behind the paneled doors of the Titanic’s elegant private suites to present compelling, memorable portraits of her most notable passengers. The Titanic has often been called “An exquisite microcosm of the Edwardian era,” but until now, her story has not been presented as such. In *Gilded Lives, Fatal Voyage*, historian Hugh Brewster seamlessly interweaves personal narratives of the lost liner’s most fascinating people with a haunting account of the fateful maiden crossing. Employing scrupulous research and featuring 100 rarely seen photographs, he accurately depicts the ship’s brief life and tragic denouement and presents compelling, memorable portraits of her most notable

passengers: millionaires John Jacob Astor and Benjamin Guggenheim; President Taft's closest aide, Major Archibald Butt; writer Helen Churchill Candee; the artist Frank Millet; movie actress Dorothy Gibson; the celebrated couturiere Lady Duff Gordon; aristocrat Noelle, the Countess of Rothes; and a host of other travelers. Through them, we gain insight into the arts, politics, culture, and sexual mores of a world both distant and near to our own. And with them, we gather on the Titanic's sloping deck on that cold, starlit night and observe their all-too-human reactions as the disaster unfolds. More than ever, we ask ourselves, "What would we have done?"

*Dig* Simon and Schuster

Why great powers decline, from Spain to the United States The extent and irreversibility of US decline is becoming ever more obvious as America loses war after war and as one industry after another loses its technological edge. Lachmann explains why the United States will not be able to sustain its global dominance, and contrasts America's relatively brief period of hegemony with the Netherlands' similarly short primacy and Britain's far longer era of leadership. Decline in all those cases was not inevitable and did not respond to global capitalist cycles. Rather, decline is the product of elites' success in grabbing control over resources and governmental powers. Not only are ordinary people harmed, but also capitalists become increasingly unable to coordinate their interests and adopt policies and make investments necessary to counter economic and geopolitical competitors elsewhere in the world. Conflicts among elites and challenges by non-elites determine the timing and mold the contours of decline. Lachmann traces the transformation of US politics from an era of elite consensus to present-day paralysis combined with neoliberal plunder, explains the paradox of an American military with an unprecedented technological edge unable to subdue even the weakest enemies, and the consequences of finance's cannibalization of the US economy.

**Ask the Passengers** Harper Collins

From the bestselling author of *Tides of Honour* and *Promises to Keep* comes a poignant novel about a young couple caught on opposite sides of the Second World War. In the fall of 1939, Grace Baker's three brothers, sharp and proud in their uniforms, board Canadian ships headed for a faraway war. Grace stays behind, tending to the homefront and the general store that helps keep her small Nova Scotian community running. The war, everyone says, will be over before it starts. But three years later, the fighting rages on and rumours swirl about "wolf packs" of German U-Boats lurking in the deep waters along the shores of East Jeddore, a stone's throw from Grace's window. As the harsh realities of war come closer to home, Grace buries herself in her work at the store. Then, one day, a handsome stranger ventures into the store. He claims to be a trapper come from away, and as Grace gets to know him, she becomes enamoured by his gentle smile and thoughtful ways. But after several weeks, she discovers that Rudi, her mysterious visitor, is not the lonely outsider he appears to be. He is someone else entirely—someone not to be trusted. When a shocking truth about her family forces Grace to question everything she has so strongly believed, she realizes that she and Rudi have more in common than she had thought. And if Grace is to have a chance at love, she must not only choose a side, but take a stand. *Come from Away* is a mesmerizing story of love, shifting allegiances, and second chances, set against the tumultuous years of the Second World War.

**A Novel** Random House Digital, Inc.

This book addresses new technologies being considered by the Federal Aviation Administration (FAA) for screening airport passengers for concealed weapons and

explosives. The FAA is supporting the development of promising new technologies that can reveal the presence not only of metal-based weapons as with current screening technologies, but also detect plastic explosives and other non-metallic threat materials and objects, and is concerned that these new technologies may not be appropriate for use in airports for other than technical reasons. This book presents discussion of the health, legal, and public acceptance issues that are likely to be raised regarding implementation of improvements in the current electromagnetic screening technologies, implementation of screening systems that detect traces of explosive materials on passengers, and implementation of systems that generate images of passengers beneath their clothes for analysis by human screeners.
