Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A.

B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a

much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

*The Speed of Trust* Lioncrest Publishing From Stephen R. Covey's eldest son come a revolutionary book that will guide business leaders, public figures and their organizations towards unprecedented productivity and satisfaction. Trust, says Stephen M. R. Covey, is the very basis of the 21st century's global economy, but its power is generally overlooked and misunderstood. Covey shows you how to inspire immediate trust in everyone you encounter - colleagues, constituents, the marketplace - allowing you to forego the time-killing and energy-draining check and balance bureaucracies that are so often relied upon in lieu of actual trust.

Rather than focusing on what a business must accomplish to be successful, the four disciplines establish how to accomplish those things. One reason commitments tend to be abandoned in business is that new projects and goals are less urgent than the day-to-day tasks of each individual employee, which the authors call the

"whirlwind." The key to commitment fulfillment is for new tasks to take up only a small portion of each employee's time, but for that employee to be held accountable for completing them. The first discipline is to settle on one or two wildly important goals (WIGs). These are the things that would have the most significant impact on progress toward the business's long-term goals. IDEA TO EXECUTION Simon and Schuster It's not all about the money; the key to true riches Leo Tolstoy said, "Nobody knows where the human race is going. The highest wisdom, then, is to know where you are going." Yet many today chase the false rabbits of success: status, luxury, reputation and material possessions. In the quest to "have it all," our lives often lack real meaning and purpose. Beyond Wealth is the antidote. New York Times bestselling author Alexander Green takes things right down to brass tacks: We are here for a short time. Knowledge is limitless. Therefore, the most critical knowledge is not any particular skill but rather wisdom about "how to live." Fortunately, men and women have had several thousand years to think about what it means to live "the good life." And the answers found here, from Plato and Aristotle to Mahatma Gandhi and Stephen Hawking, will both surprise and delight you. Beyond Wealth provides insightful commentary on the most important aspects of our lives: love, work, honor,

trust, freedom, death, fear, truth, beauty and other timeless issues. The book is both a thought provoking read and the ideal gift, guaranteed to ennoble, uplift and inspire.

The Four Disciplines of Execution is about a simple, proven formula for reaching the goals you want to reach as a business or individual. In Covey's experience, the thing that most undermines the ability to execute goals is what he calls the Whirlwind: those urgent tasks that must be done simply to keep an organization alive. As Covey shows, the only way to execute new, important goals is to separate those goals from the Whirlwind. The Four Disciplines allow leaders to create a strategy that requires a change in behaviour, since only by ensuring that everyone on the team understands the goal, knows what to do to reach it and knows whether progress is being made, will a leader produce consistent breakthrough results while sustaining the urgent work of the Whirlwind. The Four Disciplines of Execution are: 1. Focus on the Wildly Important; 2. Act on the Lead Measures; 3. Keep a Compelling Scoreboard; 4. Create a Cadence of Accountability. For more than a decade

FranklinCovey has been studying what it takes to achieve important goals, and in this book they share success stories from a wide range of companies that have implemented the Four Disciplines to result in greater profits, increased market share and improved customer satisfaction. This way of thinking is essential to any company that wants to not only weather, but thrive in this economy.
