Each section opens with a lively presentation page which introduces the point of grammar. Grammar explanations are short, clear and easy to remember. Colour is used to highlight grammatical contrasts. Each grammar explanation is followed immediately by an activity, so that students can practise before moving on to the next explanation. Engaging practice activities include internet exercises which enable students to see how language is used in real life, and personalisation activities allow students to use the grammar to talk about themselves. The interactive e-books allow students to do all the exercises on a tablet or computer, both online and offline. Recordings of texts provide added listening practice.
