Kate Matrosova Algonquin Books

A lawyer ready to die takes one final case...the trial of his life. Attorney Kent "Mac" MacClain has nothing left to live for. Nine years after the horrific accident that claimed the life of his wife and two sons, he's finally given up. His empty house is a mirror for his empty soul, it seems suicide is his only escape. And then the phone rings. Angela Hightower, the beautiful heiress and daughter of the most powerful man in Dennison Springs, has been found dead at the bottom of a ravine. The accused killer, Peter Thomason, needs a lawyer. But Mac has come up against the Hightowers and their ruthless, high-powered lawyers before -- an encounter that left his practice and reputation reeling. The evidence pointing to Thomason's guilt seems insurmountable. Is Mac defending an ingenious psychopath, or has Thomason been framed--possibly by a member of the victim's family? It comes down to one last trial. For Thomason, the opponent is the electric chair. For Mac, it is his own tormented past--a foe that will prove every bit as deadly.

Simon Potter's new message of hope

and courage for a troubled world Nearly twenty years ago in a Chicago parking lot, Og Mandino met a man who changed his life and who inspired millions of readers in the pages of Mandino's classic bestseller *The Greatest Miracle in the World*. The man's name was Simon Potter and he called himself a ragpicker—because he had devoted his life to rescuing people who had ended up on life's refuse pile. But just as suddenly and mysteriously as Simon Potter entered Og Mandino's life, so did he leave it—his work apparently done. Three years ago, however, Simon Potter walked back into Mandino's life. Ninety-five years old and going strong, the ragpicker knew his work was not yet finished; the world was still mired in frustration and despair, plagued by drugs, crime, broken families, and broken dreams. And so, he and Og Mandino vowed to deliver a precious new gift to humankind: a life guide to renewed strength, courage, wisdom, and faith for all.

"The Motivation Manifesto is a poetic and powerful call to reclaim our lives and find our own personal freedom. It's a triumphant work that transcends the title, lifting the reader from mere motivation into a soaringly purposeful and meaningful life. I love this book."

—Paulo Coelho *The Motivation Manifesto* is a pulsing, articulate, ferocious call to claim our personal power. World-renowned high performance trainer Brendon Burchard reveals that the main motive of humankind is the pursuit of

greater Personal Freedom. We desire the grand liberties of choice—time freedom, emotional freedom, social freedom, financial freedom, spiritual freedom. Only two enemies stand in our way: an external enemy, defined as the social oppression of who we are by the mediocre masses, and an internal enemy, a sort of self-oppression caused by our own doubt and fear. The march to Personal Freedom, Burchard argues, can be won only by declaring our intent and independence, stepping into our personal power, and battling through self-doubt and the distractions of the day until full victory is won. Recalling the revolutionist voices of the past that chose freedom over tyranny, Burchard—at times poetic yet always fierce—motivates us to free ourselves from fear and take back our lives once and for all.

Why Good People Do Bad Things

Thomas Nelson

The P-NP problem is the most important open problem in computer science, if not all of mathematics. Simply stated, it asks whether every problem whose solution can be quickly checked by computer can also be quickly solved by computer. The Golden Ticket provides a nontechnical introduction to P-NP, its rich history, and its algorithmic implications for everything we do with computers and beyond. Lance Fortnow traces the history and development of P-NP, giving examples from a variety of disciplines, including economics, physics, and biology. He explores problems that capture the full difficulty of the P-NP dilemma, from discovering the shortest route through all the rides at Disney World to finding large groups of friends on Facebook. The Golden Ticket explores what we truly can and cannot achieve computationally, describing the benefits and unexpected challenges of this compelling problem.

 When Brendon Burchard was 19 years old he was in a life-changing car crash. After speeding around a hairpin turn in the Dominican Republic he and his friend were catapulted into the air and, as the car flipped, Brendon pondered three essential questions: Did I live? When the car landed and to his amazement he was still alive, Brendon realized that he didn't have satisfying answers to those questions, but he did have an idea as to how to get them. He began the process of crafting his life story into one that would make a difference in the world, inspire others and show them how they too could share their passions with a wide audience. In 1921, Paul Amadeus Dienach, a Swiss-Austrian teacher with fragile health, falls into a one-year-long coma. During this time, his consciousness slides into the future and enters the body of another man in 3906 A.D. When Dienach awakens from his coma, he finds himself back in 1922. Knowing that he doesn't have much time left, he writes a diary,

recording whatever he could remember from his amazing experience: the mankind's history in the forthcoming centuries, from the nightmare of overpopulation and World Wars up until the world-changing globalisation, the radical new administration system, the colony on Mars and the next human evolutionary stage. Without any close friends and relatives to entrust, he doesn't say a word to anyone out of fear of being branded a lunatic. Before he dies, he hands his diary to his favourite student, George Papachatzis, later prominent Professor of Law and Rector of Panteion University of Greece. The diary circulates as hidden knowledge amongst high ranking masons in the lodges of Athens. In 1972, professor Papachatzis, despite an intense dispute, decides to publish Dienach's diary in Greek. Paul Dienach was not an author, poet, or professional writer. Rather, he was an ordinary man who kept a journal, never with the expectation that it would be published. This unique and controversial book, a universal legacy, is now carefully edited, translated and available to everyone. This is the history of our future! We deliver it to you."
