The Against the Clock series is ideal for any course that includes graphic arts software and computer design software as part of the curriculum. Courses can be found in Office Information Systems, Computer Science, and Fine Arts Departments, as well as Continuing Education,

Journalism, and Printing and Lithography. With the advent of digital video cameras, high-speed hard drives, and ultra-fast processors, the reality of editing digital video, stills, and audio clips has become a reality. This ATC book focuses on the use and mastery of Adobe's Premiere, the most popular and powerful non-linear video editing suite. With dramatically improved audio features, built-in storyboarding editors, and highly-sophisticated editing tools, the program is challenging to learn. Adobe Premiere 6: Digital Video Editing adopts a sensible and well-thought-out approach to the task and provides the learner all the information they need to become an effective and skilled videographer.

Adobe FrameMaker has long been the software of choice for technical documentation and large-scale document publishing because of its versatility and ability to handle the entire publishing process--from word processing and page layout to electronic distribution. Now, with the introduction of version 7.0, the popular publishing program has gone even further to accommodate businesses' growing need for multi-format publishing by adding the ability to automatically reformat the same document for delivery in a number of formats, including Web pages, Acrobat print files, Palm handheld devices, and more. And that's just the beginning: Adobe's official Classroom in a Book training series guides you through all of the program's features, tools, and techniques--both old and new--using hands-on projects and end-of-chapter review questions to make sure the newly acquired knowledge sticks! If you're a beginner, you'll want to read the book from cover to cover for a start-to-finish explanation of how it all works; all of you FrameMaker experts can skip right to the information you need. From the basics (such as character and paragraph formatting) to more advanced tasks (like cross-referencing text and creating indexes)-- Adobe FrameMaker 7.0 Classroom in a Book covers it all.
